Making Progress in Writing -
Eve Bearne 2002

Children's achievements in writing lag behind their achievements in reading, speaking and listening. National tests are beginning to expose this gap and inevitably, it is raising concerns. The issue is not without controversy but regardless of the politics of the situation, national progress in children's writing is both needed and possible. This new

book from Eve Bearne makes a valuable contribution towards helping teachers close this gap. Uniquely, it follows the structure of the National Literacy Strategy, whilst examining key areas such as bridging KS2 and KS3 writing, and writing skills beyond the Literacy Hour. Such a structure makes the book incredibly practical and easy to use, providing essential information for both

practitioners and academics.

Errors and Misconceptions in Maths at Key Stage 2 -
Mike Spooner 2012-07-26

The activities in this book are designed both to help children to learn and to understand math concepts, and also to prepare them for taking SATS papers at KS2. There is plenty of research evidence to suggest that children are helped in their understanding of math problems if teachers focus on

common misconceptions, and if children are given opportunities for discussion and explanation of their own understanding. Children can also feel stigmatized by being made to focus on their own errors. Mike Spooner has developed activities that present already completed work which children then assess, correct and discuss - in this way they can analyze mistakes without damage to their own self-esteem. The activities are presented in the same format as the SATS papers, to give children practice in coping with that format. The book also contains writing frames that children can use to structure their discussions of math problems.

Descriptosaurus - Alison Wilcox
2017-11-15

Now in a fully updated third edition, Descriptosaurus is the first book for creative writing that is a thematic expansion of a dictionary and a thesaurus; it provides children with a comprehensive resource with which to expand their descriptive vocabulary, experiment with language and sentence structure and build up narratives based around settings, characters and creatures. Descriptosaurus positions the word, zooms in on it to examine the meaning, expands it into phrases, and then provides alternatives in

words, phrases and sentences; the model was created and refined over a number of years as a result of feedback from children inside and outside the classroom as to the resources they required to inspire and assist them with their writing. For reluctant writers or those faced with blank page syndrome, it provides essential starting points to encourage putting pen to paper, not only inspiring children, but also building their confidence, encouraging them to use, apply and create using the correct grammatical structures, and adding colour to their writing through evaluation and experimentation. New features for this updated third edition include: Sample poems Word banks and model sentences to provide a step-by-step process for development of vocabulary and understanding of phrase, clause and sentence structure Contextualised grammar and punctuation instruction and guidance Units of work where the models can be incorporated in a creative focus A companion website containing

all the features of the book, games, planning sheets and vocabulary builders This is an ideal resource to dramatically improve children's creative writing for all KS2 primary and KS3 secondary English teachers, literacy coordinators and parents. It would also make an excellent classroom book for PGCE students, particularly Primary PGCE with English specialism.

wird daraus eine allumfassende Geschichte über Liebe und Verlust, wie sie origineller, faszinierender und grandioser nicht sein könnte. Im Laufe dieser Nacht, in der Abraham Lincoln von seinem Sohn Abschied nimmt, werden die Gespenster wach, die Geister der Toten auf dem Friedhof, aber auch die der Geschichte und der Literatur, reale wie erfundene, und mischen sich

ein. Denn Willie Lincoln befindet sich im Zwischenreich zwischen Diesseits und Jenseits, in tibetischer Tradition Bardo genannt, und auf dem Friedhof in Georgetown entbrennt ein furioser Streit um die Seele des Jungen, ein vielstimmiger Chor, der in die eine große Frage mündet: Warum lieben wir überhaupt, wenn wir doch wissen, dass alles zu Ende gehen muss?
