The Warrior Within - Pat Williams 2006-04-10

This hurting world needs men of character and integrity--fathers, leaders, warriors --who will not only take a stand for godliness and righteousness, but who will also raise future generations of godly, righteous men. Where can one find the model for such a man? The answer lies in 1 Chronicles 7:40, with the story of Asher--the kind of godly man that all Christian men should aspire to become. In *The Warrior Within*, Pat Williams combines solid biblical principles, powerful contemporary stories, and an imaginative narrative of the life of Asher to discover how Christian men can become complete and dynamically effective in the four crucial dimensions of manhood.

Between Citizens and the State - Christopher P. Loss 2014-04-07

This book tracks the dramatic outcomes of the federal government's growing involvement in higher education between World War I and the 1970s, and the conservative backlash against that involvement from the 1980s onward. Using cutting-edge analysis, Christopher Loss recovers higher education's central importance to the larger social and political history of the United States in the twentieth century, and chronicles its transformation into a key mediating institution between citizens and the state. Framed around the three major federal higher education policies of the twentieth century--the 1944 GI Bill, the 1958 National Defense Education Act, and the 1965 Higher Education Act--the book charts the federal government's various efforts to deploy education to ready citizens for the national, bureaucratized, and increasingly global world in which they lived. Loss details the myriad ways in which academic leaders and students shaped, and were shaped by, the state's shifting political agenda as it moved from a preoccupation with economic security during the Great Depression, to national security during World War II and the Cold War, to securing the rights of African Americans, women, and other previously marginalized groups during the 1960s and '70s. Along the way, Loss reappraises the origins of higher education's current-day diversity regime, the growth of identity group politics, and the privatization of citizenship at the close of the twentieth century. At a

time when people's faith in government and higher education is being sorely tested, this book sheds new light on the close relations between American higher education and politics.

This book should be read by every coach, player, parent, and anyone who loves football and cares about the exploitation and capitalism rampant in these institutions. It is all here, the scenery, emotion and triumphs of our youth game, delivered in the craftsman fashion that Ryan Baldi is now rightly known for' - Daniel Fieldsend, author of The

Ryan Baldi introduces a rich array of characters behind talent production lines at several Premier League clubs, including Manchester United, Liverpool and Manchester City, zooming in on the stories of Alexander-Arnold's unique development, how Rashford's sense of social responsibility was nurtured, and how Phil Foden has become a beacon to City's young hopefuls. The harsh realities of life away from the glamorous, big-budget academies are also examined. Learn how the methods that shaped Lionel Messi inform a third-tier club's approach. Discover the ambitious non-league side aiming to become a local football and educational hub. Wander through Bury's crumbling facilities in the final months before the club's collapse and learn of the passion the staff poured into their efforts to develop the best young people, not just footballers, on meagre means. *The Dream Factory* provides the most intricate, intimate and all-encompassing insight yet into the machine that manufactures these stars, and everything it spits out in the process.
