This book looks at madrasas and educational institutions run by Muslim communities in India focusing on the history, social relevance and importance of these institutions. It provides a sensitive and in-depth analysis of the push and pull of tradition, religiosity and modernity within these establishments. The book studies several

institutions in Kozhikode, Surat, Mumbai, Hyderabad, Barak Valley in Assam, Ladakh, Delhi and several cities in Uttar Pradesh and examines new initiatives, curricula, models of education and professional training being offered. It contextualises educational reforms in madrasas in response to changing policies and larger socio-economic realities in contemporary India. It also interrogates stereotypes associated with Islam and madrasa education, paying particular attention to their syllabi and desired outcomes. This book also looks at the roles and positions of women in these institutions. Emphasising the long and complex history of Muslim communities and madrasas, the book showcases the remarkable diversity of approaches and pedagogical practices which combine deeni and duniyati education across India today. This book will be of interest to students and researchers of the history of education, religious education, comparative education and sociology. It will also be useful to

people working with NGOs and policymakers in the field of educational reform and planning. *Debates; Official Report* - Assam (India). Legislature. Legislative Assembly 1966

Der König aller Krankheiten - Siddhartha Mukherjee 2022-06-30

»Eine grandiose Kulturgeschichte des Krebses.« SPIEGEL Krebs ist ein Überlebenskünstler: Er verändert sich, er passt sich an, er entwickelt sich weiter, er wächst. Er ist uns biologisch so nahe, dass wir uns oft selbst zerstören, wenn wir ihn vernichten. Die Suche nach der »Heilung« von Krebs hat sich allmählich zum Maßstab unseres wissenschaftlichen und medizinischen Fortschritts entwickelt. In seinem bahnbrechenden und preisgekrönten Buch erzählt der renommierte Onkologe Siddhartha Mukherjee die faszinierende Geschichte der Beziehung zwischen Mensch und Krebs. Wie haben wir ihn uns in der Vergangenheit vorgestellt? Was konnten wir ihm

entgegensetzen? Wo stehen wir jetzt im Kampf gegen diese gefräßigste aller Krankheiten? Mukherjee zeigt, wie weit wir bei der Lösung eines der großen Rätsel der Wissenschaft gekommen sind, und gibt einen faszinierenden Ausblick auf unsere zukünftigen Fortschritte. »Eine brillante Kombination aus Medizin-Krimi und Kriegsgeschichte. Ein Jahrhundertbuch.« STERN »Ein ganz wunderbares Buch. Nicht nur, weil es so spannend, so elegant, so ungeheuer reich an Wissen ist. Sondern vor allem, weil es auch von der Hoffnung erzählt.« WAMS
