*The Vampire* - Nick Groom 2018-01-01

An authoritative new history of the vampire, two hundred years after it first appeared on the literary scene Published to mark the bicentenary of John Polidori's publication of *The Vampyre*, Nick Groom's detailed new account illuminates the complex history of the iconic creature. The vampire first came to public prominence in the early eighteenth century, when Enlightenment science collided with Eastern European folklore and apparently verified outbreaks of vampirism, capturing the attention of medical researchers, political commentators, social theorists, theologians, and philosophers. Groom accordingly traces the vampire from its role as a monster embodying humankind's fears, to that of an unlikely hero for the marginalized and excluded in the twenty-first century. Drawing on literary and artistic representations, as well as medical, forensic, empirical, and sociopolitical perspectives, this rich and eerie history presents the vampire as a strikingly complex being that has been used to express the traumas and contradictions of the human condition.

**Birthing Models on the Human Rights Frontier** - Betty-Anne Daviss

2020-12-29

This book addresses the politics of global health and social justice issues around birth, focusing on dynamic communities that have chosen to speak truth to power by reforming dysfunctional health care systems or creating new ones outside the box. The chapters present models of childbirth at extreme ends of a spectrum—from the conflict zones and disaster areas of Afghanistan, Israel, Palestine, and Indonesia, to high-risk tertiary care settings in China, Canada, Australia, and Turkey. Debunking notions about best care, the volume illustrates how human rights in health care are on a collision course with global capitalism and offers a number of specific solutions to this ever-increasing problem. This volume will be a valuable resource for scholars and students in anthropology, sociology, health, and midwifery, as well as for practitioners, policy makers, and organizations focused on birth or on social activism in any arena.
