Die judenbuche - Annette von Droste-Hülshoff
1884

Die Kapuzinergruft - Joseph Roth 2022-08-01
Die Kapuzinergruft ist ein Roman von Joseph Roth der von 1913-1938 spielt. Franz Trotta ist die Hauptfigur des spannenden Werks voller Rebellion, Krieg und dazwischen der Protagonist und sein aus den Fugen geratendes Leben.
Auszug: Im heutigen Österreich und in den früheren Kronländern wird es nur noch wenige Menschen geben, in denen der Name unseres Geschlechts irgendeine Erinnerung hervorruft. In den verschollenen Annalen der alten österreichisch-ungarischen Armee aber ist unser Name verzeichnet, und ich gestehe, daß ich stolz darauf bin, gerade deshalb, weil diese Annalen verschollen sind. Ich bin nicht ein Kind dieser Zeit, es fällt mir schwer, mich nicht geradezu ihren Feind zu nennen. Nicht, daß ich sie nicht verstünde, wie ich es so oft behauptete. Dies ist nur eine fromme Ausrede. Ich will einfach, aus Bequemlichkeit, nicht ausfällig oder gehässig werden, und also sage ich, daß ich das nicht verstehe, von dem ich sagen müßte, daß ich es hasse oder verachte. Ich bin feinhörig, aber ich spiele einen Schwerhörigen. Ich halte es für nobler, ein Gebrechen vorzutäuschen als zuzugeben, daß ich vulgäre Geräusche vernommen habe.

Elite Schools - Aaron Koh 2016-02-19
Geography matters to elite schools — to how they function and flourish, to how they locate themselves and their Others. Like their privileged clientele they use geography as a resource to elevate themselves. They mark, and market, place. This collection, as a whole, reads elite schools through a spatial lens. It offers fresh lines of inquiry to the 'new sociology of

elite schools.' Collectively the authors examine elite schools and systems in different parts of the world. They highlight the ways that these schools, and their clients, operate within diverse local, national, regional, and global contexts in order to shape their own and their clients' privilege and prestige. The collection also points to the uses of the transnational as a resource via the International Baccalaureate, study tours, and the discourses of global citizenship. Building on research about social class, meritocracy, privilege, and power in education, it offers inventive critical lenses and insights particularly from the 'Global South.' As such it is an intervention in global power/knowledge geographies.

Technology, Activism, and Social Justice in a Digital Age - John G. McNutt 2018-07-27
Technology, Activism, and Social Justice in a Digital Age offers a close look at both the present nature and future prospects for social change. In particular, the text explores the cutting edge of technology and social change, while discussing developments in social media, civic technology, and leaderless organizations -- as well as more traditional approaches to social change. It effectively assembles a rich variety of perspectives to the issue of technology and social change; the featured authors are academics and practitioners (representing both new voices and experienced researchers) who share a common devotion to a future that is just, fair, and supportive of human potential. They come from the fields of social work, public administration, journalism, law, philanthropy, urban affairs, planning, and education, and their work builds upon 30-plus years of research. The authors' efforts to examine changing nature of social change organizations and the issues they face will help readers reflect upon modern advocacy, social change, and the potential to utilize technology in making a difference.

Not All Dead White Men - Donna Zuckerberg
2018-10-08

Some of the most controversial and consequential debates about the legacy of the ancients are raging not in universities but online, where alt-right men's groups deploy ancient sources to justify misogyny and a return of antifeminist masculinity. Donna Zuckerberg dives deep to take a look at this unexpected reanimation of the Classical tradition.

Der Guru im Guavenbaum - Kiran Desai
2010-08-07

Nach einem spektakulären Striptease auf der Hochzeit der Tochter seines Chefs verliert der junge Sampath Chawla, ein stadtbekannter Faulpelz, im nordindischen Shahkot seinen Job. Zwecks Erleuchtung klettert er auf einen Guavenbaum und weigert sich fortan,

herunterzusteigen. Selbst die köstlichsten Speisen und eine eilends herbeigeschaffte Braut können ihn nicht dazu bewegen. Er gibt ein paar rätselhafte Weisheiten zum Besten, und schon hat er den Ruf eines heiligen Mannes. Eine indische Posse - so verrückt wie der Subkontinent selbst.

Wieviel Erde braucht der Mensch - Leo Tolstoi 2020-12-07

Wieviel braucht man, um glücklich zu sein? Der Bauer Pachom kauft seiner Nachbarin ihr ein Stück Land ab, denn er will endlich besser

leben. Zuerst zeigt sich der Traum erfüllt, mit mehr Land kommt auch mehr Geld. Doch schon bald fühlt sich Pachom durch die Nähe der Nachbarn eingengt und beschließt anderswo noch mehr Land zu kaufen, denn mehr Land muss noch mehr Glückseligkeit geben. Doch seine Habgier soll ihm schon bald zum Verhängnis werden... Leo Tolstoi (1828-1910) wird noch heute als einer der größten Verfasser aller Zeiten gefeiert. Mehrmals wurde der Sohn aristokratischer russischer Eltern für den Nobelpreis der Literatur und sogar für den Friedensnobelpreis nominiert. Seine Erfahrungen als Soldat im ersten Krim-Krieg prägten ihn für den Rest seines Lebens, und sie dienten als Inspiration für seine späteren Werke, vor allem "Krieg und Frieden".

Beyond E-Business - Paul Grefen 2015-07-16
In *Beyond E-Business: Towards Networked Structures* Paul Grefen returns with his tried and tested BOAT framework for e-business, now fully expanded and updated with the very latest overview of digitally connected business; from business models, organization structures and architecture, to information technology. What used to be termed "e-business" is now simply business as usual. Today's successful organizations are complex; they are part of dynamic business networks built on digital channels, going far beyond traditional e-business. This text provides invaluable insights of modern e-business integrated with networked business, going much further than the usual analysis of traditional e-business texts. Included is coverage of the Big Five—social media, mobile

computing, big data, cloud computing, and the internet of things --as well as service-oriented business and technology. This essential text provides a compact roadmap to networked e-business for engineering, information systems or business students as well as professionals in the field.

English Language in India - Jaskiran Bedi
2019-08-13

This book examines the relationship between the English language and growth - economic and inclusive - in India. It explores why English continues to be the language of aspiration long after Independence. With the second largest English-speaking population in the world today, India is testimonial to how a linguistic legacy continues to cast a long shadow on its contemporary discourse in the economic arena. The volume: Explores how English language proficiency constitutes as human capital. Draws in the latest India Human Development Survey data. Investigates the relationship between the language and economic indicators such as wages, household income and state growth. Further investigates the role of English language in the inclusivity of growth. Provides a snapshot of the pedagogy of English in the Indian education system. First of its kind in scope, this volume will be of great interest to scholars of economics, education, sociolinguistics, development studies, politics and sociology. It will also be of great interest to the general reader.

Green Schools Globally - Annette Gough 2020-08-31

This book brings together stories of the green schools movement ((Eco Schools, Enviroschools, Green Schools, Sustainable Schools, ResourceSmart Schools etc) in several countries around the world, with a focus on the impact of the movement on the development and implementation of education for sustainable development in each of the countries. In particular, each story will explain the history of the movement per country, its current status, achievements, obstacles and broader impact. There have been a number of evaluations of these school movements at a national or more local level, and numerous articles and chapters have been published on aspects of these schools' activities, but to date these have not been brought together in a single volume that focuses attention on the impact of the movement on education for sustainable development in each country. This is the purpose of this volume. The green schools movement focuses on a whole school approach which aims to include everyone (students, teachers and the local community), to improve school environments, including resource usage and the environmental footprint of the school, to motivate students to take on environmental problems and seek resolutions particularly at a local level but also thinking

globally, and to improve students' attitudes and behaviours as part of developing a sustainable mind set.
