**Identity, Contestation and Development in Northeast India** - Komol Singha 2015-12-14

India's Northeast has long been riven by protracted armed conflicts for secession and movements for other forms of autonomy. This book shows how the conflicts in the region have gradually shifted towards inter-ethnic feuds, rendered more vicious by the ongoing multiplication of ethnicities in an already heterogeneous region. It further traces the intricate contours of the conflicts and the attempts of the dominant groups to establish their hegemonies against the consent of the smaller groups, as well as questions the efficacy of the state's interventions. The volume also engages with the recurrent demands for political autonomy, and the resultant conundrum that hobbles the region's economic and political development processes. Lucid, topical and thorough in analysis, this book will be useful to scholars and researchers in political science, sociology, development studies and peace & conflict studies, particularly those concerned with Northeast India.

*Making of India's Northeast* - Dilip Gogoi 2019-09-23

This book examines India's Northeast borderland - strategically positioned at the confluence of South Asia, East and Southeast Asia - from the perspective of international relations. The volume interrogates the geopolitics of region-making in both colonial and postcolonial times and traces the transformation of Northeast India from a British strategic frontier into a securitised borderland. It situates the region in transnational interactions both in conflict and cooperation with its immediate neighbouring regions of China, Bangladesh, and Myanmar, especially in the context of India's Look East/Act East policy. The volume paves the way for a new 'region-state' framework borne out of the constructivist worldview and offers answers to many conundrums centring border studies. It further delineates approaches to overcoming the present geopolitical and territorial challenges of India's Northeast with a critical thrust on regional

policymaking. The volume will be of interest to students and researchers in the disciplines of social sciences and humanities in India as well as South and Southeast Asia. It will be especially useful to those in politics and international relations, strategic studies, international political economy, foreign policy, development studies and regional development, besides foreign policy-makers and diplomats, development practitioners, economists and policy analysts.

*Adivasis, Migrants and the State in India* - Jagannath Ambagudia 2018-12-07

This book looks at the contested relationship between Adivasis or the indigenous peoples, migrants and the state in India. It delves into the nature and dynamics of competition and resource conflicts between the Adivasis and the migrants. Drawing on the ground experiences of the Dandakaranya Project - when Bengali migrants from erstwhile East Pakistan (now Bangladesh) were rehabilitated in eastern and central India - the author traces the connection between resource scarcity and the emergence of Naxalite politics in the region in tandem with the key role played by the state. He critically examines the way in which conflicts between these groups emerged and interacted, were shaped and realised through acts and agencies of various kinds, as well as their socio-economic, cultural and political implications. The book explores the contexts and reasons that have led to the dispossession, deprivation and marginalisation of Adivasis. Through rich empirical data, this book presents an in-depth analysis of a contemporary crisis. It will be useful to scholars and researchers of political studies, South Asian politics, Conflict Studies political sociology, cultural studies, sociology and social anthropology.

**Indo-Bangladesh Relations** - P. Sukumaran Nair 2008

**Mapping Citizenship in India** - Anupama Roy 2010-10-18

Contributing to the ongoing debates on citizenship, this book traces the Citizenship Act of India, 1955 from its inception, through the various amendments in 1986, 2003, and 2005. It includes detailed studies of other significant laws and judgments including the Abducted Persons (Recovery and Rehabilitation) Act (1949), and the Illegal Migrants Determination by Tribunals Act (1983) to show how citizenship unfolded among differentially located individuals, communities, and groups. The book argues that the citizenship laws in India show a steady movement towards the affirmation of citizenship's relationship with blood-ties and descent. The volume identifies amendments in the Citizenship Act as transitions which are framed by major historical choices and decisions. It examines the liminal categories of citizenship produced in the period between the commencement of the Constitution and the enactment of the Citizenship Act, which continue to make citizenship fraught with uncertainties and exclusions. Through a discussion of laws and judgments, the work also brings out the relationship between citizenship and migration in independent India, in particular in the wake of migration from Bangladesh and distress migration because of the breakdown of rural economies.

**Contemporary Political Leadership in India: Sharad Pawar, the Maratha legacy** - Shiri Ram Bakshi 1998

**Asia in International Relations** - Pinar Bilgin 2017-02-01

Asia in International Relations decolonizes conventional understandings and representations of Asia in International Relations (IR). This book opens by including all those geographical and cultural linkages that

constitute Asia today but are generally ignored by mainstream IR. Covering the Indian subcontinent, Turkey, the Mediterranean, Iran, the Arab world, Ethiopia, and Central-Northeast-Southeast Asia, the volume draws on rich literatures to develop our understanding of power relations in the world's largest continent. Contributors "de-colonize", "de-imperialize", and "de-Cold War" the region to articulate an alternative narrative about Asia, world politics, and IR. This approach reframes old problems in new ways with the possibility of transforming them, rather than recycling the same old approaches with the same old "intractable" outcomes.

**The Sikh Separatist Insurgency in India** - Jugdep S Chima 2008-08-01

The "Punjab crisis," a two-decade long armed insurgency that emerged as a violent ethnonationalist movement in the 1980s and gradually transformed into a secessionist struggle, resulted in an estimated 25,000 casualties in Punjab. This ethnonationalist movement, on one hand, ended the perceived notion of looking at Punjab as the model of political stability in independent India and, on the other, raised several lingering socio-political questions which have great effect on Indian politics for decades to come, including the prospects of recurring ethnic insurgencies. *The Sikh Separatist Insurgency in India: Political Leadership and Ethnonationalist Movements* provides an authoritative political history of the Sikh separatist insurgency in Punjab by focussing on "patterns of political leadership", a previously unexplored explanatory variable. It describes in detail the trends which led to the emergence of the "Punjab crisis", the various dynamics through which the movement sustained itself and the changing nature of "patterns of political leadership" which eventually resulted in its decline in the mid-1990s. Providing a microhistorical analysis of the "Punjab crisis," this book argues that the trajectories of ethnonationalist movements are largely determined by the interaction between self-interested ethnic and state political elites, who not only react to the structural choices they face, but whose purposeful actions and decisions ultimately affect the course of ethnic group—state relations. It consolidates this theoretical preposition through a comparative analysis of four contemporary global ethnonationalist movements—those occurring in Chechnya, Northern Ireland, Kashmir, and Assam. This book will be of interest to students and academics studying political science and history, especially those working on South Asia and the Sikhs, and also for public policy practitioners in multi-ethnic societies. It remains invaluable reading for those interested in the phenomenon of ethnonationalism.

*Questions of Identity in Assam* - Nandana Dutta 2012-09-11

*Questions of Identity in Assam: Location, Migration, Hybridity* addresses the identity problem in Assam, keenly affected as it is, by the realities of migration and hybridity. The book provides an overview of these issues as they are reflected in the region, and covers the period from the conclusion of the Assam Movement till the present. The Assam Movement spawned a culture of violence which led to the emergence of insurgent outfits in the state. This resulted in the naturalization of violence as a part of everyday living. From this vantage point, the book offers a reading of identity as determined by the anxiety surrounding the presence of the migrants. In this book, the issue of migration is seen through the perspective of the society that receives the migrants and defines itself through a negative response to the other.

*The Muslim Question in Assam and Northeast India* - Monoj Kumar Nath 2021-03-30

This book presents a systematic study of the transformation of the specific socio-political identity of the Muslims in Assam. It discusses the issues of Muslims under India's 'indigenous secularism', Hindu nationalism and the rise of majoritarian politics; Muslim immigration into Assam after Independence; the Assam Movement and the shift of Muslims from being a vote bank to an autonomous force in the post-Partition politics of Assam; the role of Jamiat; and the divide between Assamese and the neo-Assamese. It

explores the history and contemporary politics of the state to show how they shape the new context of Muslim identity in Assam, where previously an Assamese identity often prevailed over religious and linguistic identity. With the current debates on illegal immigration, the National Register of Citizens of India (NRC) and the Citizenship (Amendment) Act 2019, this book will be a timely addition to the existing literature on Muslim minority politics in Assam and northeast India. This book will be useful to scholars and researchers of political science, sociology, political sociology, minority studies, northeast India studies, demography and immigration studies, and development studies. It will interest those concerned with minority politics, communal politics, identity politics, migration, citizenship issues, and South Asian studies. *Status of Panchayati Raj in the States of India, 1994* - George Mathew 1995

**Citizenship Debate over NRC and CAA** - Nani G. Mahanta 2021-07-05

This book argues that citizenship debate over NRC and CAA in India is a legacy of partition, and not a crisis of secularism. *Citizenship Debate over NRC and CAA: Assam and the Politics of History* investigates Assamese nationality-formation process and analyses the National Register of Citizens (NRC) and the Citizenship Amendment Act (CAA) within their historical context. The book looks into the massive immigration process in the beginning of the century, the reaction of Assamese leaders towards it and the ensuing debates in state legislative councils and assemblies. It raises Assam's pertinent question on land, language and culture as the centrality of the Assamese identity and the evolving identity politics to show how the state has been negotiating with it while accommodating the interests of other communities. It further explores the role played by the Muslim League and its leaders in Assam. The book deviates largely from the earlier academic discourses on this subject by bringing in and unfolding several political dynamics, debates and questions in the discussion.

**Operation Lebensraum: Illegal Migration from Bangladesh** - Hiranya Bhattacharyya 2018-04-10

The story of human migration is as old as the story of Homo sapiens. The innate tendency to survive and achieve better living conditions has proved to be an unending process. The ethnic groups with a very high growth of population have spread out all over the world for more living space spawning unforeseen socio-economic and socio-political unrest and conflict. Most prominent in this regard have been the migration from China and Bangladesh that has continued with increasing momentum since the past several decades. *Operation Lebensraum: Illegal Immigration from Bangladesh* discusses the entire gamut of migration from Bangladesh into India with a focus on Assam - its origins during the colonial period and continuance during the post-Independence phase, impact, the government's failures to comprehend the nature of the problem and the ways and means to tackle the phenomenon which has already assumed an uncontrollable proportion and fuelled large scale disturbances. The book also draws a comparison of the episode with

similar events around the world and especially the policies of the US government in tackling illegal migration from Mexico.

Burden of History - Udayon Misra 2017-09-25

The Partition of India left in its wake far-reaching consequences for the northeastern state of Assam. Appearing to be caught in a time warp, the region continues to grapple with questions that engaged the public mind more than seven decades ago, before and immediately after the Partition. Alarming, issues such as immigration, demographic change, language, and identity have not only retained their relevance but have also gained an extra edge today. In this volume, the author outlines the present contentious issues confronting the state. Explaining the roots of these disputes and how the challenge posed by Assam held serious consequences for the nation as a whole, this work examines the developments that occurred in the years preceding Independence and the Partition. These developments have etched their effect on the society, politics, and economy of Assam, along with the entire northeastern region, in an indelible manner. As the volume reveals, the burden of those momentous years still rests heavily on Assam's contemporary political scenario.

Assam Politics in Post-Congress Era - Sandhya Goswami 2020-09-21

Assam has undergone two significant alterations in its political contours since the 1980s—one leading to the rise of a regional party and the other to a firm foothold by the Bharatiya Janata Party (BJP). The Assam Movement (1979-1985) led to the formation of the main regional party—Asom Gana Parishad. The subsequent decades, however, witnessed a pronounced shift of power from this party to the national parties, marked by intense party competition. The competition has, however, rarely led to better choices and new policies, programmes or institutions, thus perpetuating underdevelopment and economic stagnation besides accentuating deep fault lines within the society. Aided by the unique data sets of National Election Studies, *Assam Politics in Post-Congress Era: 1985 and Beyond* closely analyses the shifting political dynamics in Assam in the context of the state's history and socio-economic situation. It further documents the dynamic political equations in the state, marked by the eclipse of the Congress and followed by the current dominance of the BJP.

Election Commission of India - Ujjwal Kumar Singh 2019-08-09

As the constitutional body that conducts elections, the Election Commission of India (ECI) has emerged as a trusted institution within the shared space of democracy in India. This process has, however, been a fraught one because of contestation over the ECI's constitutional responsibility and the power of Parliament

to make laws to govern electoral matters. This comprehensive monograph discusses the history of the ECI through a study of the measures it has adopted to ensure certainty of procedures in order to maintain the democratic uncertainty of electoral outcome. In this context, innovations such as the Model Code of Conduct have enhanced the rule-making powers of the ECI. Going beyond the ECI's design and performance framework, Singh and Roy argue that changes in the nature of electoral contests and domination of political regimes have made the task of preserving electoral integrity and assuring its deliberative content a challenging one.

**Bangladeshi Migrants in India** - Rizwana Shamshad 2017-10-03

In January 2011, Felani Khatun was shot dead while attempting to cross the border from India to Bangladesh. Her body remained hung on the fence as a warning to those who illegally crossed an international border. Migration to India from the current geographical and political entity called Bangladesh is more than a century old and had begun long before the nation states were created in South Asia. Often termed as 'foreigners' and 'infiltrators', Bangladeshi migrants such as Felani find their way into India for the promise of a better future. Post 1971, there has been a steady movement of people from Bangladesh into India, both as refugees and for economic need, making this migration a complex area of inquiry. This book focuses on the contemporary issue of undocumented Bangladeshi migration to the three Indian states of Assam, West Bengal, and Delhi, and how the migrants are perceived in light of the ongoing discourses on the various nationalisms in India. Each state has a unique history and has taken different measures to respond to Bangladeshi migrants present in the state. Based on extensive fieldwork and insightful interviews with influential members from key political parties, civil society organizations, and Hindu and ethnic nationalist bodies in these states, the book explores the place and role of Bangladeshi migrants in relation to the inherent tension of Indian nationalism.

*Forced Migration* - Alice Bloch 2018-08-31

Forced Migration: Current Issues and Debates provides a critical engagement with and analysis of contemporary issues in the field using inter-disciplinary perspectives, through different geographical case studies and by employing varying methodologies. The combination of authors reviewing both the key research and scholarship and offering insights from their own research ensures a comprehensive and up-to-date analysis of the current issues in forced migration. The book is structured around three main current themes: the reconfiguration of borders including virtual borders, the expansion of prolonged exile, and changes in protection and access to rights. The first chapters in the collection provide both context and a theoretical overview by situating current debates and issues in their historical context including the evolution of field and the impact of the colonial and post-colonial world order on forced migration and forced displacement. These are followed by chapters framed around substantive issues including deportation and forced return; protracted displacements; securitising the Mediterranean and cross-border migration practices; refugees in global cities; forced migrants in the digital age; and second-generation identity and transnational practices. Forced Migration offers an original contribution to a growing field of study, connecting theoretical ideas and empirical research with policy, practice and the lived experiences of forced migrants. The volume provides a solid foundation, for students, academics and policy makers, of the main questions being asked in contemporary debates in forced migration.

*Borders, Histories, Existences* - Paula Banerjee 2010-01-20

This is an insightful historical work on borders and bordered existences, with special emphasis on the gender dimensions of these existences. The author argues that the experiences of women living on borders and in borderlands are definitive of those of the vulnerable communities who bear the brunt of the complex border and security issues. The conditions of migrant women, women peace campaigners, and victims of human trafficking and mobile diseases are presented as markers of bordered existences. Their history is one of negotiations with structures of control, leading to insecurity, subversion, endurance and a different kind of existence. Thus, this book adopts a critical feminist history angle. *Borders, Histories, Existences: Gender and Beyond* contends that borders are, by definition, lines of inclusion and exclusion established by

the state. It analyses how states construct borders and try to make them static and rigid and how bordered existences, such as women, migrant workers, victims of human trafficking, etc., destabilise the rigid constructs. It explores the political conditions that have made borders problematic in post-colonial South Asia and how these borders have become regions of extreme control or violence. The book contains new research data and original theories and would provide crucial information to those studying colonial and post-colonial history, politics and international relations, South Asia studies and sociology.

**Citizenship, Borders, and Human Needs** - Rogers M. Smith 2011-01-19

From anxiety about Muslim immigrants in Western Europe to concerns about undocumented workers and cross-border security threats in the United States, disputes over immigration have proliferated and intensified in recent years. These debates are among the most contentious facing constitutional democracies, and they show little sign of fading away. Edited and with an introduction by political scientist Rogers M. Smith, *Citizenship, Borders, and Human Needs* brings together essays by leading international scholars from a wide range of disciplines to explore the economic, cultural, political, and normative aspects of comparative immigration policies. In the first section, contributors go beyond familiar explanations of immigration's economic effects to explore whose needs are truly helped and harmed by current migration patterns. The concerns of receiving countries include but are not limited to their economic interests, and several essays weigh different models of managing cultural identity and conflict in democracies with large immigrant populations. Other essays consider the implications of immigration for politics and citizenship. In many nations, large-scale immigration challenges existing political institutions, which must struggle to foster political inclusion and accommodate changing ways of belonging to the polity. The volume concludes with contrasting reflections on the normative standards that should guide immigration policies in modern constitutional democracies. *Citizenship, Borders, and Human Needs* develops connections between thoughtful scholarship and public policy, thereby advancing public debate on these complex and divisive issues. Though most attention in the collection is devoted to the dilemmas facing immigrant-receiving countries in the West, the volume also explores policies and outcomes in immigrant-sending countries, as well as the situation of developing nations—such as India—that are net receivers of migrants.

**Climate Change, Vulnerability and Migration** - S. Irudaya Rajan 2017-09-22

This book highlights how climate change has affected migration in the Indian subcontinent. Drawing on field research, it argues that extreme weather events such as floods, droughts, cyclones, cloudbursts as well as sea-level rise, desertification and declining crop productivity have shown higher frequency in recent times and have depleted bio-physical diversity and the capacity of the ecosystem to provide food and livelihood security. The volume shows how the socio-economically poor are worst affected in these circumstances and resort to migration to survive. The essays in the volume study the role of remittances sent by migrants to their families in environmentally fragile zones in providing an important cushion and adaptation capabilities to cope with extreme weather events. The book looks at the socio-economic and political drivers of migration, different forms of mobility, mortality and morbidity levels in the affected population, and discusses mitigation and adaptation strategies. The volume will be of great interest to scholars and researchers of environment and ecology, migration and diaspora studies, development studies, sociology and social anthropology, governance and public policy, and politics.
