A-Z Guide Basic Accounting Skills - Annelize iLiffe 2017-11-06
This A-Z Accounting guide is specifically written for Grade 9 learners and beginners. It is a

continuation of the Grade 8 e-book Learning your Accounting basics. The resource is written in simple English, is user-friendly and the concepts link together to enable the reader to move successfully onto the next section. The Grade 8 e-book is based on a story of a girl who started a Sweets Business and the underlying Accounting concepts and skills necessary to succeed in this. Grade 9 is a continuation of Grade 8, and is linking the concepts learnt from Grade 8 to Grade 9 in story format, through the transactions. The e-book can be used by all Educators who are teaching Accounting or EMS, and sections or topics can be covered to suit the specific lesson plans or needs in the classroom. This book follows the rule of one transaction per page, and all the information necessary to successfully complete the transaction on that page. This allows for practice by the learners on their own as well, following the guide. The e-book is supported by Interactive media - digital quizzes and worksheets, which can be obtained

as separate resources. With special thanks to my family and people who made this possible for me. I like to use this Quote to show the learners

out there with how much passion I wrote this learning guide: "I survived because the fire inside me burnt brighter than the fire around me."
