## **Basic Concepts for Simple and Complex Liquids** - Jean-Louis Barrat 2003-03-27

Presenting a unified approach, this book focusses on the concepts and theoretical methods that are necessary for an understanding of the physics and chemistry of the fluid state. The authors do not attempt to cover the whole field in an encyclopedic manner. Instead, important ideas are presented in a concise and rigorous style, and illustrated with examples from both simple molecular liquids and more complex soft condensed matter systems such as polymers, colloids, and liquid crystals. ## **Sprachenpolitik an deutschen Hochschulen** - Andreas Hettiger 2018-11-01

Diese Studie sucht Antworten auf die Frage, was Sprachenpolitiken zur Internationalisierung von Hochschulen beitragen können. Sie schlägt eine Brücke zwischen soziolinguistischen und hochschulpolitischen Diskursen und berücksichtigt dabei in besonderer Weise einen europäischen Kontext. Sie fokussiert Schnittstellen zwischen theoretischer Grundlegung und praktischer Umsetzung und gibt Impulse für sprachenbezogene und interkulturelle Entwicklungspotenziale deutscher Hochschulen. "Die Arbeit von Andreas Hettiger hat zweifellos das Zeug zu einem Standard-Vademecum für alle, die sich aktuell mit sprachenpolitischen Fragestellungen im Hochschulbereich befassen." (Prof. Dr. Jürgen Bolten, Universität Jena). Die Arbeit wurde mit dem "Wissenschaftspreis des Hochschulverbands für interkulturelle Studien" ausgezeichnet.

## **Pharmaceutical Freedom** - Jessica Flanigan 2017-07-03

If a competent adult refuses medical treatment, physicians and public officials must respect her decision. Coercive medical paternalism is a clear violation of the doctrine of informed consent, which protects patients' rights to make medical decisions even if a patient's choice endangers her health. The same reasons for rejecting medical paternalism in the doctor's office are also reasons to reject medical paternalism at the pharmacy, yet coercive medical paternalism persists in the form of premarket approval policies and prescription requirements for pharmaceuticals. In *Pharmaceutical Freedom* Jessica Flanigan defends patients' rights of self-medication. Flanigan argues that public officials should certify drugs instead of enforcing prohibitive pharmaceutical policies that disrespect people's rights to make intimate medical decisions and prevent patients from accessing potentially beneficial new therapies. This argument has revisionary implications for

important and timely debates about medical paternalism, recreational drug legalization, human enhancement, prescription drug prices, physician assisted suicide, and pharmaceutical marketing. The need for reform is especially urgent as medical treatment becomes increasingly personalized and patients advocate for the right to try. The doctrine of informed consent revolutionized medicine in the twentieth century by empowering patients to make treatment decisions. Rights of self-medication are the next step.

## **The IMF and the Crises in Greece, Ireland, and Portugal** - International Monetary Fund. Independent Evaluation Office 2016-09-23

This volume book brings together nine background papers prepared for an evaluation by the IMF Independent Evaluation Office of "the IMF and the crises in Greece, Ireland, and Portugal." It presents an authoritative work on the evolving relationship between the IMF and the euro area, a common currency area founded in 1999 consisting of advanced, highly integrated economies in Europe. The euro area, or any common currency area for that matter, has posed challenges to the IMF's operational activities as its Articles of Agreement contain no provision for joint membership. The challenges became intense when a series of crises erupted in Greece, Ireland, and Portugal from 2009 to 2011, and the Fund was called upon to help intervene by offering its financing and crisis management expertise. The IMF found itself in uncharted territory where there was no precedent or established procedure. The chapters, many of which are prepared by prominent academics and former senior IMF officials who are thoroughly familiar with internal procedures, discuss various aspects of the IMF's engagement with the euro area, including precrisis surveillance, how key decisions were made, how the IMF collaborated with European institutions, and how it designed and implemented its lending programs with the three crisis countries. The book gives prominence to governance-related issues, given the large voting share (of more than 20 percent) within the IMF of euro area members and the subsequent public perception that the IMF treated the euro area more favorably than it does developing and emerging market members. The approaches are both cross-cutting and country-based. Some chapters deal with issues related to the euro area as a whole, while others focus on how the Fund engaged with individual euro area countries. The book contains a statement on the IEO evaluation by the IMF Managing Director and a Summing Up of the Executive Board discussion held in July 2016.

Economic Adjustment in New Democracies - D. Ethier 1997-05-29  
The politics of economic adjustment in new democracies has received a lot of attention. However, none of the most recent examinations provide a thorough comparative analysis of Southern Europe. Ethier's book fills this gap. The book challenges many existing preconceptions about Southern Europe, while confirming and complementing the main assertions of comparable studies on Eastern Europe, Latin America, Asia and Africa.

Decolonization and Conflict - Martin Thomas 2017-06-15

Insurgency-based irregular warfare typifies armed conflict in the post-Cold War age. For some years now, western and other governments have struggled to contend with ideologically driven guerrilla movements, religiously inspired militias, and systematic targeting of civilian populations. Numerous conflicts of this type are rooted in experiences of empire breakdown. Yet few multi-empire studies of decolonisation's violence exist. *Decolonization and Conflict* brings together expertise on a variety of different cases to offer new perspectives on the colonial conflicts that engulfed Europe's empires after 1945. The contributors analyse multiple forms of colonial counter-insurgency from the military engagement of anti-colonial movements to the forced removal of civilian populations and the application of new doctrines of psychological warfare. Contributors to the collection also show how insurgencies, their propaganda and methods of action were inherently transnational and inter-connected. The resulting study is a vital contribution to our understanding of contested decolonization. It emphasises the global connections at work and reveals the contemporary resonances of both anti-colonial insurgencies and the means devised to counter them. It is essential reading for students and scholars of empire, decolonization, and asymmetric warfare.

Expertise in Counseling and Psychotherapy - Len Jennings 2016

Thomas Skovholt and Len Jennings' landmark *Master Therapists: Exploring Expertise in Therapy and Counseling* was the first book to apply qualitative methodology to the study of validly selected expert therapists. Considering the growing number of international qualitative studies on psychotherapy expertise, the authors join forces once again to provide students, academics, researchers, and practitioners with *Expertise in Counseling and Psychotherapy: Master Therapist Studies from Around the World*. In this book, Jennings and Skovholt compile and compare, for the first time, a series of parallel studies of expertise in psychotherapy from around the world. The studies include therapist expertise research projects in Southeast Asia (Singapore, Japan, and Korea), North America (the U.S.A. and Canada), and Europe (Czech

Republic and Portugal). Synthesizing and presenting common characteristics of master practitioners on a global scale, *Expertise in Counseling and Psychotherapy* is the most comprehensive description of psychotherapy expertise at the international level that has ever been conducted.

The fourth section turns to the supply side of mass-politics by looking at parties and the party system. The fifth section looks at the Portuguese society by unpacking a plethora of societal aspects with direct implications for politics. The sixth section examines governance and public policies, with a view to understanding how a constellation of public policies has an impact on the quality of governance and in fostering well-being. The seventh section looks at Portugal and the European Union. The eighth and final section unpacks Portuguese foreign policy and defence.

**Between Race and Ethnicity** - Marilyn Halter 1993

Cape Verdean Americans are the only major group of Americans to have made the voyage from Africa to the United States voluntarily. Their homeland, a drought-stricken archipelago off the west coast of Africa, had long been colonized by the Portuguese. Arriving in New England first as crew members of whaling vessels, these Afro-Portuguese immigrants later came as permanent settlers in their own packet ships. They were employed in the cranberry industry, on the docks, and as domestic workers. Marilyn Halter combines oral history with analyses of ships' records to create a detailed picture of the history and adaptation patterns of the Cape Verdean Americans, who identified themselves in terms of ethnicity but whose mixed African-European ancestry led their new society to view them as a racial group. Halter emphasizes racial and ethnic identity formation among Cape Verdeans, who adjusted to their new life by setting themselves apart from the African American community while attempting to shrug off white society's exclusionary tactics. Ethnographic analysis of rural life on the bogs of Cape Cod is contrasted with the New Bedford, Massachusetts, urban community to show how the immigrants established their own social and religious groups and maintained their Crioulo customs.

**Shrines of the Slave Trade** - Robert M. Baum 1999-05-13

In this groundbreaking work, Robert Baum seeks to reconstruct the religious and social history of the Diola communities in southern Senegal during the precolonial era, when the Atlantic slave trade was at its height. Baum shows that Diola community leaders used a complex of religious shrines and priesthods to regulate and contain the influence of the slave trade. He demonstrates how this close involvement with the traders significantly changed Diola religious life.
