**Bridging Neoliberalism and Hindu Nationalism** - Marie Lall 2022-09-30

India will soon be the world's most populated country and its political development will shape the world of the 21st century. Yet Hindu nationalism - at the helm of contemporary Indian politics - is not well understood outside of India, and its links to the global neoliberal trajectory have not been much explored. This important book shows for the first time why it is education, not a failed political system, that led to the rise of Modi and the right-wing nationalist ideology of Hindutva. It provides in depth insight into contemporary Indian politics and wider societal acceptance of India's Hindu nationalist trajectory, as well as examining the role of class. The first five years of Modi rule failed to bring about the development that had been promised and have seen India's rapid change from a largely inclusive society to one where religious minorities are denied their basic rights.

**Unheeded Hinterland** - Dilip Gogoi 2016-01-29

This book presents a comprehensive account of the debates on sovereignty, self-determination and nationalist upsurges in India's Northeast, especially Assam. At a deeper level, it analyses how multi-ethnic societies engage with the nation state. Based on the framework of

international relations and geo-politics, the volume locates internal tensions and contradictions among different ethnic groups, alongside the complex interrelationships between the centre and the region. It also proposes a new structure of 'Common Ethnic House' to resolve persistent inter-ethnic tensions among different communities and the impasse between the Northeast and the centre. This book will interest scholars and researchers of politics and international relations, sociology and social anthropology, area studies, peace and conflict studies, especially those concerned with South Asia and Northeast India.

**Bangladeshi Migrants in India** - Rizwana Shamshad 2017-10-03

In January 2011, Felani Khatun was shot dead while attempting to cross the border from India to Bangladesh. Her body remained hung on the fence as a warning to those who illegally crossed an international border. Migration to India from the current geographical and political entity called Bangladesh is more than a century old and had begun long before the nation states were created in South Asia. Often termed as 'foreigners' and 'infiltrators', Bangladeshi migrants such as Felani find their way into India for the promise of a better future. Post 1971, there has been a steady movement of people from Bangladesh into India, both as refugees and for economic need, making this migration a complex area of inquiry. This book focuses on the contemporary issue of undocumented Bangladeshi migration to the three Indian states of Assam, West Bengal, and Delhi, and how the migrants are perceived in light of the ongoing discourses on the various nationalisms in India. Each state has a unique history and has taken different measures to respond to Bangladeshi migrants present in the state. Based on extensive fieldwork and insightful interviews with influential members from key political parties, civil society organizations, and Hindu and ethnic nationalist bodies in these states, the book explores the place and role of Bangladeshi

migrants in relation to the inherent tension of Indian nationalism.

**Rajiv Gandhi to Narendra Modi** - Parsa Venkateshwar Rao Jr 2019-02-04

For the first time, the political story of India from the mid-1980s to the second decade of the present century is reconstructed through the first-person narratives of political leaders, revealing their inmost thoughts in their public utterances, offering weak arguments for their unforgivable lapses, speaking in eloquent terms of their achievements and sometimes showing uncharacteristic humility in what they said in their public speeches, in the Lok Sabha, in their blogs. From Rajiv Gandhi's confession about how and why he came into politics, Narendra Modi's graphic description of his inner agony during the Gujarat riots, Vajpayee's disarming confession about Nehru, Narasimha Rao's stoic stance in a letter to his childhood friend, Advani's confessions in the Lok Sabha about why television was pressed into service during the Kargil War, what emerges is a historical drama of Shakespearean range and an intensity which is more than what brilliant historians and acute political analysts can hope to achieve. The book shows that the first draft of history is found in the words of politicians in parliament and in the government. It captures the immediacy of history-in-the-making, and the palest platitudes of politicians that acquire rare poignancy.

*Population and the Political Imagination* - R.B. Bhagat 2022-04-25

This book identifies population as a central issue of polity and examines its links to ideas of state and citizenship. It explores the relationship between the state, citizenship and polity by reexamining processes related to census enumeration, population and citizen registers, and the politics of classificatory governmentality. Religion, ethnicity, caste and political class play a key role in determining community identities and the relationship between an individual and the state. Contextualizing the arguments and controversies around the Citizenship (Amendment) Act 2019 (CAA 2019) and the National Register of Citizens (NRC), the book examines the processes of inclusion or exclusion of minorities and migrants as citizens in India. It focusses on the classification of irregular and

refugee migration since independence in India, especially in the state of Assam. The book highlights how political imagination, as a theoretical framework, shapes the processes and strategies for enumeration and classification and thereby the idea of citizenship. Underlining the relationship between instruments of government, political mobilization and the resurgence of communal polarization, it also offers suggestions for alternative constructions of citizenship and an inclusive state. This book will be useful for students and researchers of population studies, population geography, migration studies, sociology, political science, social anthropology, law and journalism. It will also be of interest to policy makers, journalists, as well as NGOs and CSOs.

Developmental Issues in Contemporary India - M. R. Biju 2010

*Citizenship Regimes, Law, and Belonging* - Anupama Roy 2022-03-04

Successive amendments in the citizenship law in India have spawned distinct regimes of citizenship. The idea of citizenship regimes is crucial for making the argument that law must be seen not simply as bare provisions but also examined for the ideological practices that validate it and lay claims to its enforceability. While citizenship regime in India can be distinguished from one another on the basis on their distinct political and legal rationalities, cumulatively they present a movement from jus soli to jus sanguinis. The movement towards jus sanguinis has been a complex process of entrenchment of exclusionary nationhood under the veneer of liberal citizenship. This work argues that the contemporary landscape of citizenship in India is dominated by the Citizenship Amendment Act (CAA) 2019 and the National Register of Citizens (NRC). The CAA 2019 and the NRC emerged as distinct tendencies from the amendment in the citizenship law in 2003. These tendencies subsequently become conjoined in an ideological alignment to make citizenship dependent on lineage, spelling out ideas of belonging which are tied to descent and blood ties. The NRC has invoked the spectre of 'crisis' in citizenship generated by indiscriminate immigration and the risks presented by 'illegal migrants', to justify an

extraordinary regime of citizenship. The CAA provides for the exemption of some migrants from this regime by making religion the criterion of distinguishability. The CAA 2019 and NRC have generated a regime of 'bounded citizenship' based on the assumption that citizenship can be passed on as a legacy of ancestry making it a natural and constitutive identity. The politics of Hindutva serves as an ideological apparatus buttressing the regime and propelling the movement away from the foundational principles of secular-constitutionalism that characterised Indian citizenship in 1949.

*Parliamentary Debates* - India. Parliament. Rajya Sabha 1988

*Low Intensity Conflicts in India* - Vivek Chadha 2005-03-23

Low intensity conflicts (or LICs) are motivated and sustained by a strong ideology—be it economic, political, ethnic or psychological. Through a sustained process of attrition, these often protracted struggles are capable of bringing the state to its knees, besides draining the exchequer and resulting in the loss of many lives. This important book is the first comprehensive account of LICs in India from 1947 to the present. The conflicts covered in detail are: - Militancy in both Punjab and Jammu and Kashmir - The complex problems in the North-East - The agitation for Gorkhaland and Naxalite violence. Lt Col Vivek Chadha covers all facets of these LICs including their causes and origins, the factors that sustain them and the trajectory of each. He provides a comparative analysis of the causes of these conflicts and examines the state's response in dealing with them. Insightful, objective and lucidly written, this book will attract a wide readership among army, paramilitary and police personnel as well as administrators, policy-makers and students of strategic studies.

*Indigenous People of Barak Valley* - Atiqur Rahman Barbhuiya 2020-01-27

Major sections of Muslims presently living in Barak Valley were converted from local indigenous tribes due to the spiritual influence of holy Arabian saints coming from the Middle East. Tea tribes of Assam having only 150 years of history of settlement in Assam and the subjects of Ahom kings living in Assam are

considered as indigenous, while Muslims, the subjects of contemporary Koch kings and Kachari kings, living in Assam with 700/800 years of settlement history have not been considered as indigenous or Assamese Khilonjia. This book explores the roots of Hindus and Muslims living in Barak Valley. Bengali Hindus and Muslims living in Assam should look back to their history if they want to live in Assam in a dignified manner. Our past history is our strength, not weakness.

*Making of India's Northeast* - Dilip Gogoi  
2019-09-23

This book examines India's Northeast borderland – strategically positioned at the confluence of South Asia, East and Southeast Asia – from the perspective of international relations. The volume interrogates the geopolitics of region-making in both colonial and postcolonial times and traces the transformation of Northeast India from a British strategic frontier into a securitised borderland. It situates the region in transnational interactions both in conflict and cooperation with its immediate neighbouring regions of China, Bangladesh, and Myanmar, especially in the context of India's Look East/Act East policy. The volume paves the way for a new 'region-state' framework borne out of the constructivist worldview and offers answers to many conundrums centring border studies. It further delineates approaches to overcoming the present geopolitical and territorial challenges of India's Northeast with a critical thrust on regional policymaking. The volume will be of interest to students and researchers in the disciplines of social sciences and humanities in India as well as South and Southeast Asia. It will be especially useful to those in politics and international relations, strategic studies, international political economy, foreign policy, development studies and regional development, besides foreign policy-makers and diplomats, development practitioners, economists and policy analysts.

**The Sikh Separatist Insurgency in India** - Jugdep S Chima 2008-08-01

The "Punjab crisis," a two-decade long armed insurgency that emerged as a violent ethnonationalist movement in the 1980s and gradually transformed into a secessionist struggle, resulted in an estimated 25,000 casualties in Punjab. This ethnonationalist movement, on one hand, ended the perceived notion of looking at Punjab as the model of political stability in independent India and, on the other, raised several lingering socio-political questions which have great effect on Indian politics for decades to come, including the prospects of recurring ethnic insurgencies. The Sikh Separatist Insurgency in India: Political Leadership and Ethnonationalist Movements provides an authoritative political history of the Sikh separatist insurgency in Punjab by focussing on "patterns of political leadership", a previously unexplored explanatory variable. It describes in detail the trends which led to the emergence of the "Punjab crisis", the various dynamics through which the movement sustained itself and the changing nature of "patterns of political leadership" which eventually resulted in its decline in the mid-1990s. Providing a microhistorical analysis of the "Punjab crisis," this book argues that the trajectories of ethnonationalist movements are largely determined by the interaction between self-interested ethnic and state political elites, who not only react to the structural choices they face, but whose purposeful actions and decisions ultimately affect the course of ethnic group—state relations. It consolidates this theoretical preposition through a comparative analysis of four contemporary global ethnonationalist movements—those occurring in Chechnya, Northern Ireland, Kashmir, and

Assam. This book will be of interest to students and academics studying political science and history, especially those working on South Asia and the Sikhs, and also for public policy practitioners in multi-ethnic societies. It remains invaluable reading for those interested in the phenomenon of ethnonationalism.

*Putting the Ontological Back into Ontological Security* - Meredydd Rix 2021-03-22

This study sets out to do two things. Firstly, it seeks to contribute to the burgeoning literature on ontological security in International Relations (IR)... Secondly, I hope to say something about Indian nationalism by making the case for Bangladesh's importance in the project of nation-curation. I show how the uncodability of the Bangladeshi migrant and the Indian citizen presents an ontological threat to the Indian nation, portending an implosion of selfhood by undermining claims to an ontic reality for something called the Indian nation...

**The Oxford Handbook of the Indian Constitution** - Sujit Choudhry 2016-05-03

The Indian Constitution is one of the world's longest and most important political texts. Its birth, over six decades ago, signalled the arrival of the first major post-colonial constitution and the world's largest and arguably most daring democratic experiment. Apart from greater domestic focus on the Constitution and the

institutional role of the Supreme Court within India's democratic framework, recent years have also witnessed enormous comparative interest in India's constitutional experiment. The Oxford Handbook of the Indian Constitution is a wide-ranging, analytical reflection on the major themes and debates that surround India's Constitution. The Handbook provides a comprehensive account of the developments and doctrinal features of India's Constitution, as well as articulating frameworks and methodological approaches through which studies of Indian constitutionalism, and constitutionalism more generally, might proceed. Its contributions range from rigorous, legal studies of provisions within the text to reflections upon historical trends and social practices. As such the Handbook is an essential reference point not merely for Indian and comparative constitutional scholars, but for students of Indian democracy more generally.

**Adivasis, Migrants and the State in India** - Jagannath Ambagudia 2018-12-07

This book looks at the contested relationship between Adivasis or the indigenous peoples, migrants and the state in India. It delves into the nature and dynamics of competition and resource conflicts between the Adivasis and the migrants. Drawing on the ground experiences of the Dandakaranya Project - when Bengali migrants from erstwhile East Pakistan (now Bangladesh) were rehabilitated in eastern and central India - the author traces the connection between resource scarcity and the emergence of Naxalite politics in the region in tandem with the key role played by the state. He critically examines the way in which conflicts between these groups emerged and interacted, were shaped and realised through acts and agencies of various kinds, as well as their socio-economic, cultural and political implications. The book explores the contexts and reasons that have led to the dispossession, deprivation and marginalisation of Adivasis. Through rich empirical data, this book presents an in-depth analysis of a contemporary crisis. It will be

useful to scholars and researchers of political studies, South Asian politics, Conflict Studies political sociology, cultural studies, sociology and social anthropology.

**The Muslim Question in Assam and Northeast India** - Monoj Kumar Nath  
2021-03-30

This book presents a systematic study of the transformation of the specific socio-political identity of the Muslims in Assam. It discusses the issues of Muslims under India's 'indigenous secularism', Hindu nationalism and the rise of majoritarian politics; Muslim immigration into Assam after Independence; the Assam Movement and the shift of Muslims from being a vote bank to an autonomous force in the post-Partition politics of Assam; the role of Jamiat; and the divide between Assamese and the neo-Assamese. It explores the history and contemporary politics of the state to show how they shape the new context of Muslim identity in Assam, where previously an Assamese identity often prevailed over religious and linguistic identity. With the current debates on illegal immigration, the National Register of Citizens of India (NRC) and the Citizenship (Amendment) Act 2019, this book will be a timely addition to the existing literature on Muslim minority politics in Assam and northeast India. This book will be useful to scholars and researchers of political science, sociology, political sociology, minority studies, northeast India studies, demography and immigration studies, and development studies. It will interest those concerned with minority politics, communal politics, identity politics, migration, citizenship issues, and South Asian studies.

*Partition* - Urvashi Butalia 2015-02-24

The dark legacies of partition have cast a long shadow on the lives of people of India, Pakistan and Bangladesh. The borders that were drawn in 1947, and redrawn in 1971, divided not only nations and histories but also families and friends. The essays in this volume explore new ground in Partition research, looking into areas such as art, literature, migration, and notions of 'foreignness' and 'belonging'. It brings focus to hitherto unaddressed areas of partition such as the northeast and Ladakh.

**Vernacular Politics in Northeast India** - Jelle J. P. Wouters 2022-08-16

Perhaps nowhere in India is contemporary politics and visions of 'the political' as diverse, animated, uncontainable, and poorly understood as in Northeast India. Vernacular Politics in Northeast India offers penetrating accounts into what guides and animates Northeast India's spirited political sphere, including the categories and values through which its peoples conceive of their 'political' lives. Fourteen essays by anthropologists, political scientists, historians, and geographers think their way afresh into the region's political life and sense. Collectively they show how different communities, instead of adjusting themselves to modern democratic ideals, adjust democracy to themselves, how ethnicity has become a politically pregnant expression of local identities, and how forms and politics of indigeneity assume a life of its own as it is taken on, articulated, reworked, and fought over by peoples.

**Hindutva Regime in Assam** - Akhil Ranjan Dutta 2021-07-05

Hindutva Regime in Assam: Saffron in the Rainbow analyses the Bharatiya Janata Party's (BJP) strategy of appropriating cultural resources in Assam while pursuing the Hindutva

agenda. In Assam, where numerous ethnic and regional political outfits have registered their electoral presence, the 'Rainbow Alliance' emerged as the dominant strategic tool for BJP in its electoral battles. The book studies how BJP has capitalized on people's attachment to their ethno-regional cultures and has successfully co-opted and 'saffronized' the 'Rainbow' by bringing together diverse ethnic groups into its fold. Scrutinizing electoral strategies, BJP's victories in 2014, 2016 and 2019, and the efforts towards dismantling consensus around the National Register of Citizens (NRC) by enacting

the Citizenship Amendment Act (CAA), the book provides a holistic view of this steady 'saffronization'. It also critically investigates BJP's populist development agenda. From the Rashtriya Swayamsevak Sangh's (RSS) grassroots work to the government's policy initiatives, the book analyses the regime's performance and ideological pursuits in depth. It highlights how BJP's strategies in Assam are unique in some ways and how similar strategies can be seen elsewhere in India.
