[Social Research Methods](#) - H. Russell Bernard 2013

Bernard does an excellent job of not only showing how to practice research, but also provides a detailed discussion of broader historical and philosophical contexts that are important for understanding research.

[The Historiography of Contemporary Science and Technology](#) - Thomas Söderquist 2013-01-11

More than ninety percent of all scientific history has been made during the last half century. So far, however, only a fraction of historical scholarship has dealt with this period. Merely a decade ago, most scientific historians considered recent science - the scientific culture created, lived and remembered by contemporary scientists - an area of study best left to the historical actors themselves.

[Chronos](#) - François Hartog 2022-09-27

As omnipresent as it is ungraspable, time has always inspired and eluded attempts to comprehend it. For the early Christians, for the twenty-first-century world, how have past and future been woven into the present? In *Chronos*, a leading French historian ranges from Western antiquity to the Anthropocene, pinpointing the crucial turning points in our relationship to time. François Hartog considers the genealogy of Western temporalities, examining the orders of time and their divisions into epochs. Beginning with how the ancient Greeks understood time, *Chronos* explores the fashioning of a Christian time in the early centuries of the Catholic Church. Christianity's hegemony over time reigned over Europe and beyond, only to ebb as modern time—presided over by the notion of relentless progress—set out on its march toward the future. Hartog emphasizes the deep uncertainties the world now faces as we reckon with the arrival and significance of the Anthropocene age. Humanity has become capable of altering the climate, triggering in mere life spans changes that once took place across geological epochs. In this threatening new age, which has challenged all existing temporal constructions, what will become of the old ways of understanding time? Intertwining reflections on intellectual history and historiography with critiques of contemporary presentism and apocalypticism, *Chronos* brings depth and erudition to debates over the nature of the era we are living through and offers keen insight into the experience of historical time.

The SAGE Handbook of Applied Memory - Timothy J Perfect 2013-11-26

"A fabulous collection of essays on memory in the real world. The leading scholars have been assembled to produce a volume that is intellectually rich, up-to-date, and truly important." - Elizabeth F. Loftus, Distinguished Professor, University of California, Irvine "An invaluable resource for

anyone wishing to access the current state of knowledge of, or contemplating research into, the growing area of applied memory research." - Graham Davies, Editor, *Applied Cognitive Psychology The SAGE Handbook of Applied Memory* is the first of its kind to focus specifically on this vibrant and progressive field. It offers a broad and comprehensive coverage of recent theoretical and empirical research advances in the psychology of memory as they apply to a range of applied issues, and offers advanced students and researchers the opportunity to survey the literature in the psychology of memory across a range of applied domains. Arranged into four sections: *Everyday Memory*; *Social and Individual Differences in Memory*; *Subjective Experience of Memory*; and *Eyewitness Memory*, this handbook provides a comprehensive summary and evaluation of scientific memory research as well as theory in a broad range of applied topics including those in cognitive, forensic and experimental psychology. Brought together by world-leading scholars from across the globe, *The SAGE Handbook of Applied Memory* will be of great interest to all advanced students and academics with an interest in all aspects of applied memory.

Leading the Rebound - Douglas Fisher 2021-04-06

Let's make the "next normal" a "better normal" If there ever was a time for our heroic school leadership to persevere, it's now. Because now, well over one year since the pandemic stretched the resilience and reserves of our school systems, it's time to "rebound." It's time to leverage this once-in-a-lifetime opportunity to reboot teaching and learning as we know it so that we magnify the effective practices from the past while leveraging the so many recent lessons learned. This is where Doug Fisher, Nancy Frey, Dominique Smith, and John Hattie, coauthors of *The Distance Learning Playbook* series, are ideally equipped to serve as your collaborators. Inside *Leading the Rebound: 20+ Must-Dos to Restart Teaching and Learning* you'll find immediate actions, mindsets, and approaches to take if we're to reimagine and improve our schools and school systems. Step by step, you'll discover explicit guidance on how to:

1. Take care of yourself
2. Take stock and find the path
3. Rebuild teacher agency
4. Rebuild collective teacher efficacy
5. Foreground social and emotional learning
6. Change the learning loss narrative
7. Guide teacher clarity
8. Ensure instructional excellence
9. Use assessments for a range of purposes
10. Design and implement interventions
11. Win back parent-teacher relationships
12. Establish restorative practices
13. Avoid stealing the conflict
14. Enhance teacher-student and student-student interactions
15. Develop early warning systems for attendance, behavior, and course completion
16. Confront cognitive challenges to learning
17. Ensure equitable and restorative grading
18. Enhance PLCs
19. Provide empathetic feedback
20. Host honest performance conversations
21. Maintain your social presence
22. Future-proof teachers and students

What's more *Leading the Rebound* is backed up with all kinds of resources--including **VISIBLE LEARNING®** research, sample planning tools, and other essential tips and strategies--

to provide you with a start-to-finish roadmap for navigating this absolutely critical next leg in our journey toward a "better normal."

Spinal Cord Medicine, Second Edition - Christopher M. Bono, MD

Spinal Cord Medicine: Principles and Practice, Second Edition, reflects the breadth and depth of this multi-faceted specialty. Involving over 150 authors from more than 20 fields of medicine, it is a trusted reference for anyone who works with spinal cord patients and strives to deliver superior clinical care and improve outcomes.

Understanding Your Users - Kathy Baxter 2015-05-20

This new and completely updated edition is a comprehensive, easy-to-read, "how-to" guide on user research methods. You'll learn about many distinct user research methods and also pre- and post-method considerations such as recruiting, facilitating activities or moderating, negotiating with product development teams/customers, and getting your results incorporated into the product. For each method, you'll understand how to prepare for and conduct the activity, as well as analyze and present the data - all in a practical and hands-on way. Each method presented provides different information about the users and their requirements (e.g., functional requirements, information architecture). The techniques can be used together to form a complete picture of the users' needs or they can be used separately throughout the product development lifecycle to address specific product questions. These techniques have helped product teams understand the value of user experience research by providing insight into how users behave and what they need to be successful. You will find brand new case studies from leaders in industry and academia that demonstrate each method in action. This book has something to offer whether you are new to user experience or a seasoned UX professional. After reading this book, you'll be able to choose the right user research method for your research question and conduct a user research study. Then, you will be able to apply your findings to your own products. Completely new and revised edition includes 30+% new content! Discover the foundation you need to prepare for any user research activity and ensure that the results are incorporated into your products Includes all new case studies for each method from leaders in industry and academia

Reading the Sacred Text - Aaron Lichtenstein 2020-05-19

Understanding the sacred text has been a wonderful yet elusive challenge through the ages. This book is a reading of the Bible, accessible to readers of all backgrounds and levels of familiarity with the biblical text. In contrast to previous works on the subject, Reading the Sacred Text focuses on the true meaning of the biblical text rather than the metaphorical or mystical interpretations. It retells, in a captivating and easy-to-follow narrative, the story of the Five Books of Moses, the first books of the Bible.

Beginning at Moses - Michael P. V. Barrett 2016-01-23

Although not in every line and perhaps not on every page, the message of Christ overshadows the entire Old Testament. Finding Christ is the key that both unlocks and locks in the message of the whole Word of God. Jesus Christ is God's final, perfect, incomparable Word. Beginning at Moses seeks to follow the example of Christ Himself Who, "beginning at Moses and all the prophets," expounded from all the Scripture the things concerning Himself.

Gute Ökonomie für harte Zeiten - Esther Duflo 2020-01-28

Wirtschaftsnobelpreis 2019 und Deutscher Wirtschaftsbuchpreis 2020! Zwei preisgekrönte Ökonomen über Versagen und Verantwortung der Wirtschaftswissenschaftler Ungleichheit, Armut, Migration, freier Handel, Wirtschaftswachstum und Umweltfragen sind die Probleme, die weltweit täglich die Schlagzeilen beherrschen. Hierzu wären Wissen und Rat von Wirtschaftswissenschaftlern dringend gefragt. Die für ihre bahnbrechenden Arbeiten zur Armutforschung bekannten Ökonomen Esther Duflo und Abhijit Banerjee halten in diesem Buch ihren Kollegen provokant den Spiegel vor: Katastrophale Krisen wie die Lehman-Pleite haben sie verschlafen, oft verstellen ideologische Vorbehalte den Blick, und bei Streitthemen wie dem Euro haben sie sich gescheut, unbequeme Wahrheiten auszusprechen. Duflo und Banerjee zeigen anschaulich, was gute Ökonomie stattdessen zur Lösung der dringenden Weltprobleme beitragen kann.

Analysis of Health Surveys - Edward L. Korn 2011-01-25

How to apply statistical methods to survey data--a guide to effective analysis of health surveys. With large health surveys becoming increasingly available for public use, researchers with little experience in survey methods are often faced with analyzing data from surveys to address scientific and programmatic questions. This practical book provides statistical techniques for use in survey analysis, making health surveys accessible to statisticians, biostatisticians, epidemiologists, and health researchers. The authors clearly explain the theory and methods of survey analysis along with real-world applications. They draw on their work at the National Institutes of Health as well as up-to-date information from across the literature to present: * The sampling background necessary to understand health surveys. * The application of such techniques as t-tests, linear regression, logistic regression, and

survival analysis to survey data. * The use of sample weights in survey data analysis. * Dealing with complications in variance estimation in large health surveys. * Applications involving cross-sectional, longitudinal, and multiple cross-sectional surveys, and the use of surveys to perform population-based case-control analyses. * Guidance on the correct use of statistical methods found in software packages. * Extensive bibliography.

The Continent Makers and Other Tales of the Viagens - L. Sprague deCamp 2011-09-29

BEYOND 2001! By the twenty-first century, the great power struggle on Earth had been resolved in the only possible way. The United States, Russia, and China all have fallen by the wayside, and Brazil has assumed her rightful place as world leader. Thus it is naturally Brazil that conducts the first interstellar explorations, and creates the great space transport system, the Viagens Interplanetaries, to extend her galactic conquests and hold her vast and growing empire together.

The Films of Jean Seberg - Michael Coates-Smith 2014-01-10

Here is the first comprehensive examination of the international film career of Iowa-born actress Jean Seberg (1938-1979). Bursting onto the scene as star of Otto Preminger's controversial *Saint Joan* (1957), the 19-year-old Seberg encountered great difficulty recovering from the devastating criticism of her performance. The turnaround came in 1959 with her brilliant work in Jean-Luc Godard's "new wave" classic *À bout de souffle* (*Breathless*). Though her Hollywood prospects were harmed by subsequent political involvements, Seberg continued to work with some of Europe's finest directors. Her later films offer a fascinating view of the movie industry in the 1960s and 1970s—and of a courageous actress always ready for a new challenge. A biographical sketch provides a framework for detailed scrutiny of her 37 films. Background information and a critical evaluation is provided for each title.

Good Economics for Hard Times - Abhijit V. Banerjee 2019-11-12
FROM THE WINNERS OF THE 2019 NOBEL PRIZE IN ECONOMICS
'Wonderfully refreshing . . . A must read' Thomas Piketty
In this revolutionary book, prize-winning economists Abhijit V. Banerjee and

Esther Duflo show how economics, when done right, can help us solve the thorniest social and political problems of our day. From immigration to inequality, slowing growth to accelerating climate change, we have the resources to address the challenges we face but we are so often blinded by ideology. Original, provocative and urgent, *Good Economics for Hard Times* offers the new thinking that we need. It builds on cutting-edge research in economics - and years of exploring the most effective solutions to alleviate extreme poverty - to make a persuasive case for an intelligent interventionism and a society built on compassion and respect. A much-needed antidote to polarized discourse, this book shines a light to help us appreciate and understand our precariously balanced world.

Dialog über die beiden hauptsächlichsten Weltsysteme - Galileo Galilei 2014-03-20

Im Jahr 1633 wurde Galileo Galilei wegen schwerer Ketzerei verurteilt und seine, der Anklage zugrundeliegende Schrift, kurz darauf auf den Index der verbotenen Bücher gesetzt. Über das tragische Schicksal des Autors hinaus ist der Dialog über die beiden hauptsächlichsten Weltsysteme sowohl für naturwissenschaftlich als auch kulturhistorisch Interessierte ein hochrelevantes Dokument. Darin erklärt Galilei nicht nur sein Relativitätsprinzip und diskutiert seinen Vorschlag zur Messung der Lichtgeschwindigkeit, sondern zeigt darüber hinaus die Konsequenzen des Aufeinanderprallens der modernen naturwissenschaftlichen Methode mit dem scholastischen Weltverständnis.

Social Research - Piergiorgio Corbetta 2003-04-16

'This is an impressively detailed, clearly written book.... It is a book that I would like students to read' - Clive Seale, Goldsmiths College, London
Social Research: Theory, Methods and Techniques presents an understanding of social research practice through appreciation of its foundations and methods. Stretching from the philosophy of science to detailed descriptions of both qualitative and quantitative techniques, it illustrates not only 'how' to do social research, but also 'why' particular techniques are used today. The book is divided into three parts: Part One: Illustrates the two basic paradigms - quantitative and qualitative - of social research, describing their origins in philosophical thought and outlining their current interpretations. Part Two: Devoted to quantitative research, and discusses the relationship between theory and research practice. It also presents a discussion of key quantitative research techniques. Part Three: Examines qualitative research. Topics range from classical qualitative techniques such as participant observation, to more recent developments such as ethnomethodological studies. Overall, the author offers an engaging contribution to the field of social research and this book is a reminder of the solid foundations upon which most social research is conducted today. As a consequence it will be required reading for students throughout the social sciences, and at various levels.

Health and Safety in the Rubber Industry - N. Chaiear 2001

This report takes a broad overview of the rubber industry and highlights the key concerns over safety that are currently being raised. The statistics on the incidence of accidents are reviewed. The rubber industry has been highlighted as having a higher rate of accidents than other

similar industries. Measures that can be taken to avoid injury from machinery are discussed, including advice from the International Labour Organization on mill safety. The review is accompanied by around 400 abstracts from the Rapra Polymer Library database, to facilitate further reading on this subject.
