Der lange Weg zur Freiheit -

Nelson Mandela 2014-01-25

»Ich bin einer von ungezählten Millionen, die durch Nelson Mandelas Leben inspiriert wurden.« Barack Obama Eine fast drei Jahrzehnte währende Gefängnishaft ließ Nelson Mandela zum Mythos der schwarzen Befreiungsbewegung werden. Kaum ein anderer Politiker unserer Zeit symbolisiert heute in solchem Maße die Friedenshoffnungen der Menschheit und den Gedanken der Aussöhnung aller Rassen wie der ehemalige südafrikanische Präsident und

Friedensnobelpreisträger.

Auch nach seinem Tod finden seine ungebrochene Charakterstärke und Menschenfreundlichkeit die Bewunderung aller friedenswilligen Menschen auf der Welt. Mandelas Lebensgeschichte ist über die politische Bedeutung hinaus ein spannend zu lesendes, kenntnis- und faktenreiches Dokument menschlicher Entwicklung unter Bedingungen und Fährnissen, vor denen die meisten Menschen innerlich wie äußerlich kapituliert haben dürften.

Impact of Immigration and Xenophobia on Development in Africa - Mafukata, Mavhungu Abel
2020-12-25

Human movement has an influence on the socio-economic dynamics of people, regions, and countries. The schisms between host and immigrants impact how host countries utilize immigrant

skills and expertise to benefit their economies. However, immigrants are impacted by negative diplomatic relations between countries that limit the free movement of people and the welfare of immigrants. In association, this brings about social challenges such as Afrophobia, racism, xenophobia, hatred, and violence within these countries. While these challenges are deeply rooted across the world, Africa has its own unique challenges. Still struggling with massive underdevelopment, Africa needs to remove all the negative factors that could impede its quest of achieving development imperatives. Impact of Immigration and Xenophobia on Development in Africa analyzes the genesis and evolution of immigration in Africa and how this has resulted in social challenges such as xenophobia within the continent. The book focuses on demonstrating how immigrant skills and expertise can be positively utilized to assist African development and

asserts the existence of xenophobia in respective countries does not assist Africa's quest of resolving its own challenges. The chapters within this book therefore explore how this subsequent output of xenophobia has impacted African development and focuses on the revival of Pan-Africanism as a uniting instrument and ideology for Africans. This book is a valuable reference tool for activists, retired and practicing politicians, governments, policymakers, practitioners, stakeholders, researchers, students, and academicians.

**Children's Perspectives on
Domestic Violence -**

Audrey Mullender 2002-11-15
`The research methodology and the problems encountered when studying a subject such as domestic violence, coupled with the ethical problems of researching with children, are discussed at length in the book. This gives a good insight into the intricacies of conducting such a research study. The research looked not only at children who were known to have direct contact with domestic violence, but also what children in general thought and felt about domestic violence. The presentation of the findings, both in tabular and narrative form, was well presented' - Accident and Emergency Nursing Journal `This book offers accessible and interesting reading. It is well written as one would expect from these authors.... There are a lot of pointers for the way forward in terms of both policy

and practice. This is likely to become a seminal text' - Research Policy and Planning 'This is a useful and challenging read for all of us who seek to work effectively and ethically in this complex area of practice' - Professional Social Work `Just looking at the authors of this book tells the reader that they are about to embark on a pioneering piece of academic research... a comprehensive and authoritative piece of work' - Domestic Abuse Quarterly `A vital tool for all those working with children' - ChildRight 'Written in a lucid style and is easy to read... it is essential reading for all students in social work undergraduate courses and also in post-qualifying courses on child welfare and protection. In addition professionals who are directly working in the area of child protection, schools and criminal justice settings would find this book informative and useful in understanding what children and young people want, and need, in relation to living in domestic violence

situations' - Child and Family Social Work 'This book is powerfully written and is essential reading for professional working with and supporting abused women and their children. Its groundbreaking focus on children's experiences adds much to our understanding of the complexities of domestic violence' - Journal of Family Studies 'A treasure-chest of rich, diverse and powerful extracts from children and young people... in particular the material presented on different coping strategies used by children who have experienced domestic violence is an important contribution to an area about which very little is known' - Adoption and Fostering Journal How do children who live with domestic violence cope? How do they make sense of their experiences? Do they receive the right sort of help from formal and informal sources? Drawing on the newest research designed to hear the voices of children and young people, this important book

examines children's experiences and perspectives on living with domestic violence. The authors explore: - the effect of domestic violence on children - what children say would help them most in coping with domestic violence - the advice children would offer other children who find themselves in similar circumstances, their mothers and the helping professions. This accessible book written for students, their teachers, researchers and all those working with children - across social work, health, child psychology and psychiatry, the law and education - will provide a vital insight into children's own perspectives on domestic violence.

Globalization and the Cultures of Business in Africa - Scott D. Taylor
2012-09-05

Can Africa develop businesses beyond the extractive or agricultural sectors? What would it take for Africa to play a major role in global business? By focusing on recent changes, Scott D. Taylor demonstrates how Africa's business culture is marked by an unprecedented receptivity to private enterprise. Challenging persistent stereotypes about crony capitalism and the lack of development, Taylor reveals a long and dynamic history of business in Africa. He shows how a hospitable climate for business has been spurred by institutional change, globalization, and political and economic reform. Taylor encourages a broader

understanding of the mosaic of African business and the diversity of influences and cultures that shape it.

The Southern African Development Community (SADC) and the European Union (EU) - Johannes Muntschick
2017-10-09

This book explores regionalism in the Southern African Development Community (SADC) and highlights the influence of the European Union (EU) as an extra-regional actor on the organization and integration process. The analysis is guided by theory and explains the emergence, institutional design and performance of SADC's major integration projects in the issue areas of the economy, security and infrastructure. It provides in this way a profound

assessment of the organization as a whole. The study shows that South Africa plays a regional key role as driver for integration while external influence of the EU is ambivalent in character because it unfolds a supportive or obstructive impact. The author argues that the EU gains influence over regional integration processes in the SADC on the basis of patterns of asymmetric interdependence and becomes a 'game-changer' insofar as it facilitates or impedes solutions to regional cooperation problems.
