Examples & Explanations for Wills, Trusts, and Estates -

Gerry W. Beyer 2022-09-07

A favorite classroom prep tool of successful students that is often recommended by professors, the Examples & Explanations (E&E) series provides an alternative perspective to help you understand your casebook and in-class lectures. Each E&E offers hypothetical questions complemented by detailed explanations that allow you to test your knowledge of the topics in your courses and compare your own analysis. Here's why you need an E&E to help you study throughout the semester: Clear explanations of each class topic, in a conversational, funny style. Features hypotheticals similar to those presented in class, with corresponding analysis so you can use them during the semester to test your understanding, and again at exam time to help you review.

Fostering Student Success in the Campus Community - Gary L. Kramer 2009-11-24

This book presents and examines key issues not only on addressing changing student demographics and needs but also on aligning institutional and student expectations, connecting student-oriented services systemically, organizing and fostering student services for learning, and creating and delivering services for students to achieve success on campus. While the essential supportive role student services plays in student retention and success is generally understood, this book provides several constructive approaches and key indicators that service providers can use to challenge

their campuses for better results in achieving student success. While this book does not define what student success is for all institutions or suggest that one size fits all institutions, it does emphasize that student learning and achieving student success on campus is everyone's business. The chapter contributors share their wisdom on and experience in creating a student-centered culture and emphasize student services as the primary approach for putting students first in the campus community. Written for student service providers, academic departments, and others responsible for the support, direction, and coordination of services to students—vice presidents, deans, directors, and department chairs—readers will learn how to encourage a variety of desired outcomes, including student persistence, satisfaction, learning, and personal development. Also included is a systems perspective that will help readers evaluate and align

services for students with the goals of both the students and the institution.

On Display: Visual Politics, Material Culture, and

Education - Karin Priem 2016

Downloaded from
report.bicworld.com on by
guest

This book focuses on one of the most successful photography exhibitions in history, The Family of Man. With The Family of Man as its reference point, this collection of essays takes a closer look at visual and material objects. It examines their relevance for educational issues and exhibition designs. We understand these issues in their broadest sense to encompass processes of citizenship and identity formation and the adoption and/or preservation of ethical and political values with effects that range from the micro to the macro, from the national to the international level. The overall hypothesis of this volume is that images, objects and designs were created and employed as performers and performances that interacted with and attracted mass audiences. This book not only looks at how the presentational, representational and social power of images, objects and designs was deliberately used by political and cultural

stakeholders during the mid-1950s, but also how these technologies of display travelled through time and space and, as historical objects, interacted-and continue to interact-with new contexts and audiences.

Gas Age - 1917

Includes summaries of proceedings and addresses of annual meetings of various gas associations. L.C. set includes an index to these proceedings, 1884-1902, issued as a supplement to Progressive age, Feb. 15, 1910.
