Pakistan at Seventy - Shahid Javed Burki 2019-06-07

This handbook examines Pakistan's 70-year history from a number of different perspectives. When Pakistan was born, it did not have a capital, a functioning government or a central bank. The country lacked a skilled workforce. While the state was in the process of being established, eight million Muslim refugees arrived from India, who had to be absorbed into a population of 24 million people. However, within 15 years, Pakistan was the fastest growing and transforming economy in the developing world, although the political evolution of the country during this period was not equally successful. Pakistan has vast agricultural and human resources, and its location promises trade, investment and other opportunities. Chapters in the volume, written by experts in the field, examine government and politics, economics, foreign policy and environmental issues, as well as social aspects of Pakistan's development, including the media, technology, gender and education. Shahid Javed Burki is an economist who has been a member of the faculty at Harvard University, USA, and Chief Economist, Planning and Development Department, Government of the Punjab. He has also served as Minister of Finance in the Government of Pakistan, and has written a number of books, and journal and newspaper articles. He joined the World Bank in 1974 as a senior economist and went on to serve in several senior positions. He was the (first) Director of the China

Department (1987-94) and served as the Regional Vice-President for Latin America and the Caribbean during 1994-99. He is currently the Chair of the Board of Directors of the Shahid Javed Burki Institute of Public Policy at NetSol (BIPP) in Lahore. Iftekhar Ahmed Chowdhury is a career Bangladeshi diplomat and former Minister of Foreign Affairs in the Government of Bangladesh (2007-08). He has a PhD in international relations from the Australian National University, Canberra. He began his career as a member of the civil service of Pakistan in 1969. Dr Chowdhury has held senior diplomatic positions in the course of his career, including as Permanent Representative of Bangladesh to the United Nations in New York (2001-07) and in Geneva (1996-2001), and was ambassador to Qatar, Chile, Peru and the Vatican. He is currently a visiting senior research fellow at the Institute of South Asian Studies, National University of Singapore. Asad Ejaz Butt is the Director of the Burki Institute of Public Policy, Lahore, Pakistan.

An Encyclopedia of Swearing - Geoffrey Hughes 2015-03-26

This is the only encyclopedia and social history of swearing and foul language in the English-speaking world. It covers the various social dynamics that generate swearing, foul language, and insults in the entire range of the English language. While the emphasis is on American and British English, the different major global varieties, such as Australian, Canadian, South African, and Caribbean English are also covered. A-Z

entries cover the full range of swearing and foul language in English, including fascinating details on the history and origins of each term and the social context in which it found expression. Categories include blasphemy, obscenity, profanity, the categorization of women and races, and modal varieties, such as the ritual insults of Renaissance "flying" and modern "sounding" or "playing the dozens." Entries cover the historical dimension of the language, from Anglo-Saxon heroic oaths and the surprising power of medieval profanity, to the strict censorship of the Renaissance and the vibrant, modern language of the streets. Social factors, such as stereotyping, xenophobia, and the dynamics of ethnic slurs, as well as age and gender differences in swearing are also addressed, along with the major taboo words and the complex and changing nature of religious, sexual, and racial taboos.

**Venetian-English English-Venetian** - Lodovico Pizzati 2007

Hard not to be floundering about this book Devoured in snippets or read straight through. It presents amazing experiences and skills. Because Marc-Charles Nicolas has a brilliantly delicate appreciation for the idea of a sentence in a poem, the juxtapositions of segments in these pages appear essentially to construct entire topics for mediation. Examined along and the dawnings increase and multiply-- inspirations, love, feelings, locations, events hitherto isolated are now all hooks-and-eyes into each other. And because Marc-Charles gets his inspiration from the muse, you feel the exquisiteness and beauty buried in shattered phrases about the "universality of poetry." As a poet he belongs to a life larger than his own. The life of genuine things. And (One more performance worth a word): the poems in his book "Perfumed Paradise" are filled with aboutness'. Put together as they are, they're seen to abound with roots: their laughter or melancholy or ire has discernible reasons. The humanness of poem-writing as a hobby, the splendid unavailability of it --that is what this compilation brings together. But floridity was to be kept away. One cloudless day--pace the anti-sentimentalists: life is short I sat in the sun and by a Brook with a friend and passed pages of this manuscript from side to side, reading fragments aloud, laughing quietly

or looking grave, occasionally thrilled and bemused. A while back, this was, yet I remember no happier afternoon. The poems were written originally in French 13 years ago in the year 1993, delicious remembrance - fantastic book! Virgo A. Bernice

**A New Pocket Dictionary of the English & Spanish Languages ...** - Mariano Cubí y Soler 1823

**Dangerous Speech** - Javier Villa-Flores 2006

Dangerous Speech is the first systematic treatment of blasphemous speech in colonial Mexico. This engaging social history examines the representation of blasphemy as a sin and a crime, and its repression by the Spanish Inquisition. The Spanish colonists viewed blasphemy not only as an insult against God but also as a dangerous misrepresentation of the deity, which could call down his wrath in a ruinous assault on the imperial enterprise. Why then, asks Villa-Flores, did Spaniards dare to blaspheme? Having mined the period's moral literature--philosophical works as well as royal decrees and Inquisition treatises and trial records in Spanish, Mexican, and U.S. archives and research libraries--Villa-Flores deftly interweaves images of daily life in colonial Mexico with vivid descriptions of human interactions to illustrate the complexity of a culture profoundly influenced by the Catholic Church. In entertaining and sometimes horrifying vignettes, the reader comes face to face with individuals who used language to assert or manipulate their identities within that repressive society. Villa-Flores offers an innovative interpretation of the social uses of blasphemous speech by focusing on specific groups--conquistadors, Spanish settlers, Spanish women, and slaves of both genders--as a lens to examine race, class, and gender relations in colonial Mexico. He finds that multiple motivations led people to resort to blasphemy through a gamut of practices ranging from catharsis and gender self-fashioning to religious rejection and active resistance. Dangerous Speech is a valuable resource for students and scholars of colonialism, the social history of language, Mexican history, and the changing relations of gender, class, and ethnicity in colonial Latin America.

**Blasphemy in the Christian World** - David Nash 2010-09-16

Tracing the subject from the Middle Ages to the present, David Nash outlines the history of blasphemy as a concept - from a species of heresy to modern understandings of it as a crime against the sacred and individual religious identity. Investigating its appearance in speech, literature, popular publishing and the cinema, he disinters the likely motives and agendas of blasphemers themselves, as well as offering a glimpse of blasphemy's victims. In particular, he seeks to understand

why this seemingly medieval offence has reappeared to become a distinctly modern presence in the West.

Aspects of Modern English Usage - Paul Lambotte 1998-04-15

Par son étude détaillée des difficultés - en particulier celles traitées trop sommairement ailleurs - cet ouvrage offre un complément utile aux grammaires traditionnelles. Parmi ses caractéristiques, citons : - une comparaison de chaque élément étudié avec toutes les alternatives possibles; - de nombreux exemples commentés et souvent traduits; - une indication systématique de la fréquence et du registre (formel, informel) des formes proposées; - une étude des divergences entre l'anglais et le français (un index spécial en facilite l'accès); - outre la partie "structurelle", purement grammaticale, une part de l'ouvrage traite en profondeur des principales fonctions langagières.

**'Star Men' in English Convict Prisons, 1879-1948** - Ben Bethell 2022-09-27

This book tells the story of the star class, a segregated division for first offenders in English convict prisons; known informally as 'star men', convicts assigned to the division were identified by a red star sewn to their uniforms. 'Star Men' in English Convict Prisons, 1879-1948 investigates the origins of the star class in the years leading up to its establishment in 1879, and charts its subsequent development during the late-Victorian, Edwardian, and interwar decades. To what extent did the star class serve to shield 'gentleman convicts' from their social inferiors and allow them a measure of privilege? What was the precise nature of the 'contamination' by which they and other 'accidental criminals' were believed to be threatened? And why, for the first twenty years of its existence, were first offenders convicted of 'unnatural crimes' barred from the division? To explore these questions, the book considers the making and implementation of penal policy by senior civil servants and prison administrators, and the daily life and work of prisoners at policy's receiving end. It re-examines evolving notions of criminality, the

competing aims of reformation and deterrence, and the role and changing nature of prison labour. Along the way, readers will encounter an array of star men, including arsonists, abortionists, sex offenders and reprieved murderers, disgraced bankers, light-fingered postmen, bent solicitors, and perjuring policemen. Taking a fresh look at English prison history through converging lenses of class, sexuality, and labour, 'Star Men' in English Convict Prisons, 1879-1948 will be of great interest to penal historians and historical criminologists, and to scholars working on related aspects of modern British history.

**Landmark Cases in Criminal Law** - Philip Handler 2017-05-04

Criminal cases raise difficult normative and legal questions, and are often a consequence of compelling human drama. In this collection, expert authors place leading cases in criminal law in their historical and legal contexts, highlighting their significance both in the past and for the present. The cases in this volume range from the fifteenth to the twenty-first century. Many of them are well known to modern criminal lawyers and students; others are overlooked landmarks that deserve reconsideration. The essays, often based on extensive and original archival research, range over a wide spectrum of criminal law, covering procedure and doctrine, statute and common law, individual offences and general principles. Together, the essays explore common themes, including the scope of criminal law and criminalisation, the role of the jury, and the causes of change in criminal law.

Swearing in English - Tony McEnery 2004-06

Do men use bad language more than women? How do social class and the use of bad language interact? Do young speakers use bad language more frequently than older speakers? Using the spoken section of the

British National Corpus, Swearing in English explores questions such as these and considers at length the historical origins of modern attitudes to bad language. Drawing on a variety of methodologies including historical research and corpus linguistics, and a range of data such as corpora, dramatic texts, early modern newsbooks and television, Tony McEnery takes a socio-historical approach to discourses about bad language in English. Arguing that purity of speech and power have come to be connected via a series of moral panics about bad language, the book contends that these moral panics, over time, have generated the differences observable in bad language usage in present day English. A fascinating, comprehensive insight into an increasingly popular area, this book provides an explanation, and not simply a description, of how modern attitudes to bad language have come about.

**Locating Italy** - Kirsten Sandrock 2013

Locating Italy: East and West in British-Italian Transactions is part of a Series of books that examines cross-cultural processes between Britain and Italy. The volume explores for the first time British-Italian exchanges in terms of East-West, rather than North-South. In so doing, it reveals that Italy has long been a meeting point of East and West as much as one of North and South. Comprising essays from the fields of history, politics, the philosophy of Language, linguistics, literature, and the arts, the collection illustrates that the dynamics of British-Italian transactions have long been shaped by a fascinating process of location and relocation. Locating Italy is pathbreaking in questioning the traditional

categories of North, South, East, and West in interactions between these two countries and their respective cultures.

Twelve scientists are sent to a remote mountain to turn Torus on -- and what they discover is utterly unexpected. They must keep it secret at all costs. Ex-monk and CIA operative Wyman Ford is dispatched to extract a secret that will either destroy the world . . . or save it.
