The Symbolism of Marriage in Early Christianity and the Latin Middle Ages - Line C. Engh 2019-10-31

In the middle ages everyone, it seems, entered into some form of marriage. Nuns - and even some monks - married the bridegroom Christ. Bishops married their sees. The popes, as vicars of Christ, married the universal church. And lay men, high and low, married carnal woman. What unites these marriages was their common reference to the union of Christ and church. Christ's marriage to the church was the paradigmatic symbol in which all the other forms of union participated - in superior or inferior ways. This book grapples with questions of the impact of marriage symbolism on both ideas and practice in the early Christian and medieval period. In what ways did marriage symbolism - with its embedded concepts of gender, reproduction, household, and hierarchy - shape people's thought about other things, such as celibacy, ecclesial and political relations, and devotional relations? How did symbolic thinking, contrariwise, shape marriage regulation and law? And how, if at all, were these two directions of thinking symbolically about marriage related?

Coping and Emotion in Sport - Joanne Thatcher 2011-08-09

The emotional highs and lows of competitive sport, whether experienced as a competitor, spectator or coach may be the essential ingredient that gives sport its universal and compelling appeal. Emotion is clearly a pervasive force within competitive sport, and this is reflected in the burgeoning interest over recent decades in athletes' emotions and strategies for coping with these emotions. The interplay between emotion and coping is a critical factor in determining, through its influence on key psychological functions, an athlete's potential success in competitive sport. This fully revised and updated edition of the classic text on coping and emotion in sport goes further than any other book in examining the central role that these two factors play in sports performance. The book explores theory and measurement, current research, and contemporary issues and special populations respectively. Each chapter closely integrates cutting-edge research themes with discussion of practical and applied issues, with case studies and reflections from practitioners working in elite sport woven throughout the book. With contributions from leading international scholars and consultant psychologists, this book is vital reading for all students and professionals working in sport psychology.

History of the Coptic Orthodox People and the Church of Egypt - Robert Morgan 2016-09-23

Egypt was trampled by almost every great power in the world. Greeks, Romans, Arabs, Persians, Turks, French, and English. Each came with their own agenda, greed and avarice. looting and pillaging the riches of Egypt, In many instances the proud people resisted staunchly, but in many others they fell to their invaders. The Egyptians adopted Christianity early on, after the evangelist martyr Saint Mark visited the country. Christianity flowed in Egypt like the River Nile that flows through the arid dessert and rapidly transformed its people into ardent believers, saints and martyrs for the sake of their savior. This is the story of the Copt Christians of Egypt, they still inhabit the narrow Nile Valley till today, against all odds. The Coptic Orthodox Church of Egypt still persist on this spot of land in spite of centuries of marginalizing, ostracizing and sanctioned persecutions. My Story - Lynn Richardson Jackson 2008-06-12

This is not a story of overcoming adversity, but simply one of embracing change as an integral part of a full and happy life. It is the story of growing up in the Baltimore, Maryland suburb of Catonsville through the 40s and 50s, during a time in our history when family values and traditions were strong, into the turbulent 60s and 70s. Diary and journal

writing for over 50 years, along with independent travel while living and working in Europe for the US Armed Forces, eased the transition through the many stages of the author's life. Moving towards retirement, the pieces began to take shape in quiet moments on a pastoral island in the Portuguese Azores that shared many of her treasured values of childhood.

Letters to Dinah - Steve Boggs 2011-09-06

When the author discovered that his oldest, closest friend was recovering from brain surgery, he made a decision. He decided to write her a letter every day for several months, to fill in some of the years that they had not spent together. By turns amusing, uplifting, humorous and sad, collectively they are inspirational. They are a testament to the fact that letter writing is not a lost art and remains on of the closest forms of communication. The stories are vignettes of travel (Mexico, Europe, Turkey among other places), anecdotes from his medical career and many regional tales that occurred simply by virtue of having lived in the South. Plus, coming to terms with his mothers growing dementia.

The Golden Legend - Jacobus de Voragine 2012-04-22

Depicting the lives of the saints in an array of factual and fictional stories, *The Golden Legend* was perhaps the most widely read book, after the Bible, during the late Middle Ages. It was compiled around 1260 by Jacobus de Voragine, a scholarly friar and later archbishop of Genoa, whose purpose was to captivate, encourage, and edify the faithful, while preserving a vast store of information pertaining to the legends and traditions of the church. In this translation, the first in English of the complete text, William Granger Ryan captures the immediacy of this rich work, which offers an important guide for readers interested in medieval art and literature and, more generally, in popular religious culture. Arranged according to the order of saints' feast days, these fascinating stories are now combined into one volume. This edition also features an introduction by Eamon Duffy contextualizing the work.

The Story so Far - Andy Hughes 2020-10-18

The ramblings herein, will hopefully enlighten the reader to some of the things that I had to go through as a child. And some of the pitfalls of growing up with a disability. It may will lead you through a tsunami of different emotions. Hopefully It will show you just how little tolerance people had back in the 1970's and 80's to somebody who wasn't quite 'run of the mill.' The book is also a way of me expressing my anger and sadness because of what Polio has made me go through and what it has done to me both physically and mentally and how it has left me. You will hopefully understand better, the reasons why some of us end up being bitter and angry with the people who we love the most. It's not easy being different. It's not easy living in pain.

Could Jessica, the waitress from the nowhere café, who still bares scars of childhood abuse, be a part of Adams future? People in high places bend the rules, but not always for Adam's benefit. There is no question that Arnett fired the gun that killed, making it no simple task for attorney Sampson Curly Wade to convince a jury that circumstance, not his client, is guilty of the crime for which Adam is charged. Fate renders the final verdict.

The Collected Works of Anna Katharine Green - Anna Katharine Green 2022-11-13

Anna Katharine Green (1846-1935) was one of the first writers of detective fiction in America and distinguished herself by writing well plotted, legally accurate stories. Green has been called "the mother of the detective novel". She is credited with shaping detective fiction into its classic form, and developing the series detective. Her main character was detective Ebenezer Gryce of the New York Metropolitan Police Force, but in three novels he is assisted by the nosy society spinster Amelia Butterworth, the prototype for Miss Marple, Miss Silver and other creations. She also invented the 'girl detective': in the character of Violet Strange, a debutante with a secret life as a sleuth. Indeed, as journalist Kathy Hickman writes, Green "stamped the mystery genre with the distinctive features that would influence writers from Agatha Christie and Conan Doyle to contemporary authors of suspenseful "whodunits".

Britain's Olympic Women - Jean Williams 2020-07-27

Britain has a long and distinguished history as an Olympic nation. However, most Olympic histories have focused on men's sport. This is the first book to tell the story of Britain's Olympic women, how they

changed Olympic spectacle and how, in turn, they have reinterpreted the Games. Exploring the key themes of gender and nationalism, and presenting a wealth of new empirical, archival evidence, the book explores the sporting culture produced by British women who aspired to become Olympians, from the early years of the modern Olympic movement. It shines new light on the frameworks imposed on female athletes, individually and as a group, by the International Olympic Committee (IOC), the British Olympic Association (BOA) and the various affiliated sporting international federations. Using oral history and family history sources, the book tells of the social processes through which British Olympic women have become both heroes and anti-heroes in the public consciousness. Exploring the hidden narratives around women such as Charlotte Cooper, Lottie Dod, Audrey Brown and Pat Smythe, and bringing the story into the modern era of London 2012, Dina Asher-mith and Katarina Johnson-hompson, the book helps us to better understand the complicated relationship between sport, gender, media and wider society. This is fascinating reading for anybody with an interest in sport history, Olympic history, women's history, British history or gender studies.

But where did it all go so wrong for Clinton? In *Game of Thorns*, White House insider and renowned political commentator Doug Wead cuts to the beating heart of the campaign trail. He navigates us through scandal after scandal, even the gravest of which proved powerless to shake Trump's ardent support; explores the media's inability to save Clinton's sinking ship; and explains how even Hillary's staggering campaign spending was still no match for "the Donald". Why We Run - Robin Harvie 2011-04-14

Everyone can run. It is the simplest of sports, requiring only a pair of trainers and the open road. Its simplicity is part of its beauty. But why do we do it? Obsessive amateur runner Robin Harvie wants to understand what makes him run mile after mile, venturing far from home into remote places, and into the solitude of his own mind, pushing himself to the limit and beyond. Is it to break out of the clutter of his everyday life, into a freedom in which he has only himself to rely upon? Is it to affirm his own will, conquering his fatigue? Is it a fundamental instinct, inseparable from what it is to be human? In examining the lure of long-distance running, Robin speaks to famous runners, explores the literature of running and recounts his own experiences. His feats of running culminate in an effort to run the Spartathlon, retracing the 150 mile journey from Athens to Sparta made by Philippides in 490BC. Part memoir, part meditation, *Why We Run* is a compelling, rich and haunting account of what it is that makes us take to the road and learn what we are made of.

Women and Autonomy in Kate Chopin's Short Fiction - Allen F. Stein 2005

Women and Autonomy in Kate Chopin's Short Fiction offers close readings of some thirty stories - Chopin's most significant short works - the majority of which have never received analytical scrutiny. These works, predominantly grim, portray the difficulties women confront as they seek autonomy in a social framework that typically constrains them

whether they are married, in the midst of courtship, or seeking to live independently. This groundbreaking book makes it apparent that Chopin's short fiction is no less significant than her famous novel, *The Awakening*, and that her stories also provide a valuable context for that work.

Our Lady of the Rock - Lisa M. Bitel 2015-08-25

For more than twenty years, Maria Paula Acuña has claimed to see the Virgin Mary, once a month, at a place called Our Lady of the Rock in the Mojave Desert of California. Hundreds of men, women, and children follow her into the desert to watch her see what they cannot. While she sees and speaks with the Virgin, onlookers search the skies for signs from heaven, snapping photographs of the sun and sky. Not all of them are convinced that Maria Paula can see the Virgin, yet at each vision event they watch for subtle clues to Mary's presence, such as the unexpected scent of roses or a cloud in the shape of an angel. The visionary depends on her audience to witness and authenticate her visions, while observers rely on Maria Paula and the Virgin to create a

sacred space and moment where they, too, can experience firsthand one of the oldest and most fundamental promises of Christianity: direct contact with the divine. Together, visionary and witnesses negotiate and enact their monthly liturgy of revelations. *Our Lady of the Rock*, which features text by Lisa M. Bitel and more than sixty photographs by Matt Gainer, shows readers what happens in the Mojave Desert each month and tells us how two thousand years of Christian revelatory tradition prepared Maria Paula and her followers to meet in the desert. Based on six years of observation and interviews, chapters analyze the rituals, iconographies, and physical environment of Our Lady of the Rock. Bitel and Gainer also provide vivid portraits of the pilgrims—who they are, where they come from, and how they practice the traditional Christian discernment of spirits and visions. *Our Lady of the Rock* follows three pilgrims as they return home with relics and proofs of visions where, out of Maria Paula's sight, they too have learned to see the Virgin. The book also documents the public response from the Catholic Church and popular news media to Maria Paula and other contemporary visionaries. Throughout, *Our Lady of the Rock* locates Maria Paula and her followers in the context of recent demographic and cultural shifts in the American Southwest, the astonishing increase in reported apparitions and miracles from around the world, the latest developments in communications and visual technologies, and the never-ending debate among academics, faith leaders, scientists, and citizen observers about sight, perception, reason, and belief.

Organization and Organizing - Daniel Robichaud 2013-05-02

Recipient of the '2013 Top Edited Book Award', by the Organizational Communication Division of the National Communication Association (USA) This timely collection addresses central issues in organizational communication theory on the nature of organizing and organization. The unique strength of this volume is its contribution to the conception of materiality, agency, and discourse in current theorizing and research on the constitution of organizations. It addresses such questions as: To what extent should the materiality of texts and artifacts be accounted for in a process view of organization? What part does materiality play in the process by which organizations achieve continuity in time and space? In what sense do artifacts perform a role in human communication and interaction and in the constitution of organization? What are the voices and entities participating in the emergence and stabilization of organizational reality? The work represents scholarship going on in various parts of the world, and features contributions that overcome traditional conceptions of the nature of organizing by addressing in specific ways the difficult issues of the performative character of agency; materiality as the basis of the iterability of communication and continuity of organizations; and discourse as both textuality and interaction. The contributions laid out in this book also pay tribute to the work of the organizational communication theorist James R. Taylor, who developed a view of organization as deeply rooted in communication and language. Contributors extend and challenge Taylor's communicative view by tackling issues and assumptions left implicit in his work.

The Digested Read - John Crace 2006

Literary ombudsman John Crace never met an important book he didn't like to deconstruct. From Salman Rushdie to John Grisham, Crace retells the big books in just 500 biting satirical words, pointing his pen at the clunky plots, stylistic tics and pretensions to Big Ideas, as he turns publishers' golden dream books into dross. In the grand tradition of Tom Lehrer and Stan Freberg, Crace takes the books that produce the most media hype and retells each story in its author's inimitable style. Philip Roth, Don DeLillo, Margaret Drabble, Paul Auster, Alice Sebold, John Updike, Tom Wolfe, Ruth Rendell, A.S. Byatt, John LeCarre, Michael Crichton and Ian McEwan all emerge delightfully scathed in this book that makes it easy to talk knowingly about books you've never bothered to read or, for that matter, should have.

Atonement - Eleonore Stump 2018-11-15

The concept of the atonement is one of the defining doctrines of Christianity. Over the course of many centuries, theologians, church forefathers, philosophers and more have proposed a huge expanse of interpretations of Christ's sacrifice for humanity, each different to the next. In this ambitious study, Eleonore Stump uses the context of this history of interpretation to reconsider the doctrine afresh with philosophical care. Whatever exactly the atonement is, it is supposed to include a solution to the problems of the human condition, especially its guilt and shame. Stump canvasses the major interpretations of the doctrine, highlighting their shortcomings as an explanation for this solution. In their place, she argues for an interpretation that is both novel whilst still using traditional theology, including Anselm's well-

known account of the doctrine. Atonement is a rich exploration of the doctrine and all that it covers: love, union, guilt, shame, forgiveness, retribution, punishment, shared attention, mind-reading, empathy, and various other issues in moral psychology and ethics.
