**The Gospel According to St. Bernard** - Bernie Brown  
2020-05-26

An intergenerational book: This is a great reference for grandparents, parents, and also grandchildren who are currently preparing for or have recently entered adulthood. It is an impassioned and inspiring account of experiences and lessons that an eighty year old grandfather shares with his grandchildren. Their ages range from early teens to early thirties. It focuses on living that is abundant and eternal. It explores the rapid changes that are occurring in our culture and offers answers for many of life's questions facing today's youth and young adults. The author points out that we often live in different worlds that foster conflict and dysfunction in our society. He proposes remedies though his version of the "ABCs of Life" and "Will and Testimony" which are instructive for facing important

life-decisions. Before publishing, Bernie (Pappy) reviewed the concept of this effort with each of his grandchildren - they all expressed enthusiastic interest and excitement and want the first copies to be theirs. He states that this is probably his last effort at book writing and comes close to being his spiritual autobiography.

At the Intersection - Robert Longwell-Grice 2021-05-03  
The experiences of first-generation college students are not monolithic. The nexus of identities matter, and this book is intended to challenge the reader to explore what it means to be a first-generation college student in higher education. Designed for use in classrooms and for use by the higher education practitioner on a college campus today, *At the Intersections* will be of value to the reader throughout their professional career. The book is divided into four parts with chapters of research and

theory interspersed with thought pieces to provide personal stories to integrate the research and theory into lived experience. Each thought piece ends with questions to inspire readers to engage with the topic. Part One: Who is a First-generation College Student? provides the reader an entrée into the topic, with up-to-date data on both four-year and two-year colleges. Part One ends with a thought piece that asks the reader to pull together some of the big ideas before moving on to look more closely at students' identities. Part Two: The Intersection of Identity shares the research, experience and thoughts of authors in relation to the individual and overlapping identities of LGBT, low-income, white, African-American, Latinx, Native American, undocumented, female, and male students who are all also first-generation college students. Part Three: Programs and Practices is an introduction to practices, policies and programs across the country. This section offers

promise and direction for future work as institutions try to find a successful array of approaches to make the campus an inclusive place for the diverse population of first-generation college students.

**Yea, Alabama! The Uncensored Journal of the University of Alabama (Volume 3 - 1901 through 1926)** - David M. Battles

2019-06-20

The University of Alabama (UA) is one of the most prominent universities in the US. Volume One of this series explored UA's birth, formative years, its burning by Union soldiers, and its rebirth in 1871. Volume Two noted the adolescent years of the school, rebellion by the students against the military system of government, the rise of a student culture via the admission of women, and a nascent men's sports program. This third volume explores rising enrollment and a new style of student governance. The book investigates how UA dealt with student smoking,

cursing, and hazing. It covers how UA became nationally respected academically, the rise of a successful sports program, the first use of the phrase "Crimson Tide," the

history of the Million Dollar Band and how "Yea, Alabama" became the school fight song, the UA/Auburn rift, and the UA response to WWI and to the women's rights movement.
