**Research in Young Children's Literacy and Language Development** - Olivia N. Saracho 2019-12-13

The importance of the early years in young children's lives and the rigid inequality in literacy achievement are a stimulating backdrop to current research in young children's language

and literacy development. This book reports new data and empirical analyses that advance the theory of language and literacy, with researchers using different methodologies in conducting their study, with both a sound empirical underpinning and a captivating analytical rationalization of the results. The contributors to this volume used several methodological methods (e.g. quantitative, qualitative) to describe the complete concept of the study; the achievement of the study; and the study in an appropriate manner based on the study's methodology. The contributions to this volume cover a wide range of topics, including dual language learners; Latino immigrant children; children who have hearing disabilities; parents' and teachers' beliefs about language development; early literacy skills of toddlers and preschool children; interventions; multimodalities in early literacies; writing; and family literacy. The studies were conducted in various early childhood settings such as child care, nursery school, Head Start, kindergarten, and primary grades, and the subjects in the studies represent the pluralism of the globe - a pluralism of language, backgrounds, ethnicity, abilities, and disabilities. This book was originally published as a special issue of *Early Child Development and Care*.

Long way down - Jason Reynolds 2019  
Zum Aussteigen gehört viel mehr Mut, als nur  
DIE REGELN zu befolgen. Manchmal braucht es  
nur eine Minute, um ein ganzes Leben  
umzukrempeln. Wills Bruder Shawn wurde  
erschossen. Und Will kennt Die Regeln: nicht  
weinen, niemanden verpfeifen, sich rächen. Und  
so wird er den töten müssen, der seinen Bruder  
getötet hat und er wird ihn mit Shawns Waffe  
erledigen. Er steigt in den Fahrstuhl, fest  
entschlossen, sich an DIE REGELN zu halten.  
Auf dem langen Weg abwärts hält der Lift auf  
jeder Etage. Und jede Person, die einsteigt,  
erzählt ihre Geschichte. Es sind Geschichten von  
Ohnmacht, Gewalt, Rache und Tod. Und Will  
begreift, dass er der Nächste sein könnte, der  
ein Opfer der mörderischen Spirale wird. Zum  
Aussteigen gehört Mut, viel mehr Mut, als nur  
eine Waffe abzufeuern. Ein Aufruf, den Finger  
vom Abzug zu nehmen und die Waffen  
niederzulegen. Die überwältigende und  
leidenschaftliche Geschichte eines Jungen, der in  
60 Sekunden entscheiden muss, ob er den  
Mörder seines Bruders töten wird oder nicht.  
Atemberaubend erzählt mit Mitteln des Spoken-  
Words, Raps und Hip-Hops.

Collaborative information services on Web 2.0  
are used by Internet users not only to produce  
digital information resources, but also to furnish  
the contents of the resources with their own  
keywords, so-called tags. Whilst doing so the  
user is not required to comply with rules, as is  
necessary with a library catalogue. The amount  
of user-generated tags in a collaborative  
information service is referred to as folksonomy.  
Folksonomies allow users to relocate their own  
resources and to search for other resources.  
This book deals with collaborative information

representing knowledge and a tool for  
information retrieval.

Perspectives on Deep-Sea Mining - Rahul  
Sharma 2022-01-13

This book is a sequel to 'Deep-Sea Mining:  
Resource Potential, Technical and  
Environmental Considerations' (2017) and  
'Environmental Issues of Deep-Sea Mining:  
Impacts, Consequences and Policy Perspectives'  
(2019), and aims to provide a comprehensive  
volume on different perspectives of deep-sea  
mining from specialists around the world. The  
work is timely, as deep-sea minerals continue to  
enthruse researchers involved in activities such  
as ascertaining their potential as alternative  
sources for critical metals for green energy and  
other industrial applications, as well as  
technology development for their sustainable

exploration and exploitation, while addressing environmental concerns. With a steady increase in the number of contractors having exclusive rights over large tracts of seafloor in the 'Area', i.e. area beyond national jurisdictions, the International Seabed Authority, mandated with the responsibility of regulating such activities, is in the process of developing a code for exploitation of deep-sea minerals. These, coupled with growing interest among private entrepreneurs, investment companies and policy makers, underscore the need for updated information to be made available in one place on the subject of deep-sea mining. The book evaluates the potential and sustainability of mining for deep-sea minerals compared to other land-based deposits, the technologies needed for mining and processing of ores, the approach towards environmental monitoring and management, as well as the regulatory frameworks and legal challenges to manage deep-sea mining activities. The book is expected to serve as an important reference for all stakeholders including researchers, contractors, mining companies, regulators and NGOs involved in deep-sea mining.

Stanley Yelnats geht nichts ahnend unter einer Brücke durch, als ihm die riesigen, übel riechenden Turnschuhe eines berühmten Baseballspielers auf den Kopf fallen. Und weil sein Vater an einem bahnbrechenden Recycling-

Verfahren mit gebrauchten Turnschuhen arbeitet, hält Stanley die muffelnden Treter für ein Zeichen und nimmt sie mit. Pech, dass die Polizei schon nach dem Dieb sucht. Der Jugendrichter lässt Stanley die Wahl: Jugendgefängnis oder 18 Monate Camp Green Lake. Er entscheidet sich für das Camp. Die Hitze dort ist unerträglich, der Alltag hart, doch so schnell gibt Stanley nicht auf.

**Principles of Test Theories** - Hoi K. Suen  
2012-11-12

Based on a tremendous increase in the development of psychometric theories in the past decade -- ranging from techniques for criterion-referenced testing to behavioral assessment, generalizability, and item response theory -- this book offers a summary of core issues. In so doing, it provides a comprehensive survey of reliability, validity, and item analysis from the perspectives of classical true-score model, generalizability theory, item response theory, criterion-referenced testing, and behavioral assessment. Related theoretical issues such as item bias, equating, and cut-score determination are also discussed. This is an excellent text for courses in statistics, research methods, behavioral medicine and cognitive science as well as educational, school, experimental, counseling/social, clinical, developmental, and personality psychology.
