Early Motherhood in Digital Societies - Ranjana Das 2020-01-13
Early Motherhood in Digital Societies offers a nuanced understanding of what the digital turn has meant for new mothers in an intense and critical period before and after they have a baby, often called the 'perinatal' period. The book looks at an array of digital communication and content by drawing on an extensive research project involving in-depth qualitative data from interviews with new mothers in the United Kingdom and online case studies. These stories are analysed to investigate the complexity of emotions around birth, the diversity of birth experiences and the myriad ways in which television, the press and social media impede and empower women giving birth. The book asks: what does the use of technology mean in the perinatal context and what implications might it have for maternal well-being? It argues for a balanced and context-sensitive approach to the digital for maternal well-being in the critical perinatal period. By doing this, the book fills a gap in media studies, addressing itself to gaps within audience analysis, health communication and parenting. It will be essential reading for research and teaching modules in media studies, cultural studies, sociology,

health communication and sociology of medicine and health.

She no longer has no interest in the cutthroat banking world—she's determined to launch her very own yoga practice. But her plan isn't quite as perfect as the beachfront yoga pictures she double-taps on Instagram. On top of the 100 emails an hour and coworkers already suspicious of her escape plan, Allegra's hard-driving single father has always fiercely valued high achievement above all else. That his daughter works on Wall Street means everything to him. But after a) unknowingly sleeping with the man

now leading her banking cohort on one of their biggest deals to date and b) meeting the #blessed yoga guru who might just be her ticket to the life she's always wanted, she realizes her happy-ever-after might be harder to manifest than she thought. Limelight - Amy Poeppel 2019-05-14

In a smart and funny novel by the author of the critically acclaimed "big-hearted, charming" (*The Washington Post*) *Small Admissions*, a family's move to New York City brings surprises and humor. Allison Brinkley—wife, mother, and former unflappable optimist—discovers that her decision to pack up and move her family from suburban Dallas to the glittery chaos of Manhattan may have been more complicated than she and her husband initially thought. New York is more unruly and bewildering than she expected, defying the notions she developed from romantic movies and a memorable childhood visit. After a humiliating call from the principal's office and the loss of the job she was counting on, Allison begins to accept that New York may not suit her after all. When she has a fender-bender, witnessed by a flock of mothers at her son's new school, she is led to the penthouse apartment of a luxurious

Central Park West building and encounters a spoiled, hungover, unsupervised teenager who looks familiar. It doesn't take long to recognize him as Carter Reid—a famous pop star who has been cast in a new Broadway musical. Through this brush with stardom, Allison embraces a unique and unexpected opportunity that helps her find her way in the heart of Manhattan. "A tribute to Broadway, teen celebrity life, and a mother who has now seen it all, this work is tough love at its finest and a great read for those wanting a ride on the wild side" (Booklist, starred review).

The Pink Line - Mark Gevisser 2020-07-02

Guardian's Best Paperback of the Month ONE OF THE GUARDIAN'S and FINANCIAL TIMES' BOOKS OF 2020 'In intimate, often tender prose, Gevisser brings to life the complex movement for queer civil rights and the many people on whom it bears.' Colm Toibin, Guardian 'Powerful... meticulously researched' Andrew McMillan, Observer Book of the Week Six years in the making, *The Pink Line* follows protagonists from nine countries all over the globe to tell the story of how LGBTQ+ Rights became one of the world's new human rights frontiers in the second decade of the twenty-first century. From refugees in South Africa to activists in Egypt, transgender women in Russia and transitioning teens in the American Mid-West, *The Pink Line* folds intimate and deeply affecting stories of individuals, families and communities into a definitive account of how the world has changed, so dramatically, in just a decade. And in doing so he reveals a troubling new equation that has come in to play: while same-sex marriage and gender transition are now celebrated in some parts of the world, laws to criminalise homosexuality and gender non-conformity have been strengthened in others. In a work of great scope and wonderful storytelling, this is the groundbreaking, definitive account of how issues of sexuality and gender identity divide and unite the world today.

Social Capital in Singapore - Vincent Chua 2020-12-27

How can social cohesion be achieved in a meritocratic and multicultural

global city-state? Meritocracy poses a paradox: On one hand, it integrates individuals through frameworks of equal treatment, equal justice and opportunity regardless of race, language or religion. On the other hand, individuals are then segregating through academic sorting, they are rewarded based on credentials and performance which also results in elite identification and bonding. After a generation, without mitigation action, social stratification can result. Distinctive circles differentiating social elites from non-elites, the professional classes from non-professional classes emerge. The remedy the authors propose is network diversity which is the organic forming of ties across class and other social boundaries built on deliberate policies, programmes and platforms designed to facilitate that. This social mixing, forged in social infrastructure such as schools, workplaces, and voluntary associations pays off by producing the collective goods of national identity and trust. This hypothesis has been tested in the case of Singapore society and the empirical results from the research on the power of network diversity and bridging social capital are found in this volume. An insightful read for scholars and practitioners in public policy and social network analysis looking to understand the challenges faced by and the experiences that have emerged from the case of Singapore with its multicultural and cosmopolitan setting.

Social Warming - Charles Arthur 2021-06-24

Nobody meant for this to happen. Facebook didn't mean to facilitate a genocide. Twitter didn't want to be used to harass women. YouTube never planned to radicalise young men. But with billions of users, these platforms need only tweak their algorithms to generate more 'engagement'. In so doing, they bring unrest to previously settled communities and erode our relationships. Social warming has happened gradually - as a by-product of our preposterously convenient digital existence. But the gradual deterioration of our attitudes and behaviour on- and offline - this vicious cycle of anger and outrage - is real. And it can be corrected. Here's how.

Controlling Women - Kathryn Kolbert 2021-07-13

****Shortlisted for the 2021 Stephan Russo Goddard Riverside Book Prize for Social Justice**** This definitive account of the battle for reproductive freedom includes a bold new strategy to safeguard our rights, from two lawyers at the forefront of the movement. Reproductive freedom has never been in more dire straits. Roe v. Wade protected abortion rights and Planned Parenthood v. Casey unexpectedly preserved them. Yet in the following decades these rights have been gutted by restrictive state legislation, the appointment of hundreds of anti-abortion judges, and violence against abortion providers. Today, the ultra-conservative majority at the Supreme Court has activists, medical providers, and everyday Americans worry that we are about to lose our most fundamental reproductive protections. When Roe is toppled, abortion may quickly become a criminal offense in nearly one-third of the United States. At least six states have enacted bans on abortion as early as six weeks of pregnancy—before many women are even aware they are pregnant. Today, 89% of U.S. counties do not have a single abortion provider, in part due to escalating violence and intimidation aimed at disrupting services. We should all be free to make these personal and private decisions that affect our lives and wellbeing without government interference or bias, but we can no longer depend on Roe v. Wade and the federal courts to preserve our liberties. Legal titans Kathryn Kolbert and Julie F. Kay share the story of one of the most divisive issues in American politics through behind-the-scenes personal narratives of stunning losses, hard-earned victories, and moving accounts of women and health care providers at the heart of nearly five decades of legal battles. At this make-or-break moment for legal abortion in the United States, Kolbert and Kay propose audacious new strategies inspired by medical advances, state-level protections, human rights models, and activists across the globe whose courage and determination are making a difference. No more banging our heads against the Court's marble walls. It is time for a new direction.

Ambitious Like a Mother - Lara Bazelon 2022-04-19

In this captivating and radical look at “work-life balance,” Lara Bazelon reframes our understanding of working women—and shows how prioritizing your career benefits mothers, kids, and society at large. In this singular cultural moment, mothers have unparalleled opportunities to succeed at work while continuing to face the same societal impediments that held back our mothers and grandmothers. We still encounter entrenched gender bias in the workplace and are expected to shoulder the lion’s share of labor and burdens at home while being made to feel as if we’re never doing enough. All the while we’re told that the perfect work-life balance is possible, if only we try hard enough to achieve it. It’s time to change the conversation—about work, life, and “balance.” Work and life are inextricably, intimately intertwined. We need to celebrate what we do give our children—even and especially in moments of imbalance—rather than apologizing for what we don’t. In

this way, we can model for our children how we use our talents to help others and raise awareness about the issues closest to our hearts. We can embrace the personal fulfillment and financial independence that pursuing meaningful work can bring as a way of showing our children how to live happy, purpose-driven lives. Bazelon argues not only that we can but that we should. Being ambitious at work and being a good mother to our children are not at odds—these qualities mutually reinforce each other. Backed up by research and filled with personal stories from Bazelon’s life, as well as that of her mother and the many other women she interviewed across the cultural and financial spectrum, *Ambitious Like a Mother* is an anthem, a beacon for all to recognize and celebrate the pioneering women who reject the false idols of the Selfless Mother and Work-Life Balance, and a call to embrace your own ambitions and model your multiplicities for your children.

Befreit - Tara Westover 2018-09-07

Von den Bergen Idahos nach Cambridge - der unwahrscheinliche »Bildungsweg« der Tara Westover. Tara Westover ist 17 Jahre alt, als sie zum ersten Mal eine Schulklasse betritt. Zehn Jahre später kann sie eine beeindruckende akademische Laufbahn vorweisen. Aufgewachsen im ländlichen Amerika, befreit sie sich aus einer ärmlichen, archaischen und von Paranoia und Gewalt geprägten Welt durch - Bildung, durch die Aneignung von Wissen, das ihr so lange vorenthalten worden war. Die Berge Idahos sind Taras Heimat, sie lebt als Kind im Einklang mit der grandiosen Natur, mit dem Wechsel der Jahreszeiten - und mit den Gesetzen, die ihr Vater aufstellt. Er ist ein fundamentalistischer Mormone, vom baldigen Ende der Welt überzeugt und voller Misstrauen gegenüber dem Staat, von dem er sich verfolgt sieht. Tara und ihre Geschwister gehen nicht zur Schule, sie haben keine Geburtsurkunden, und ein Arzt wird selbst bei fürchterlichsten Verletzungen nicht gerufen. Und die kommen häufig vor, denn die Kinder müssen bei der schweren Arbeit auf Vaters Schrottplatz helfen, um über die Runden zu kommen. Taras Mutter, die einzige Hebamme in der Gegend, heilt die Wunden mit ihren Kräutern. Nichts ist dieser Welt ferner als Bildung. Und doch findet Tara die Kraft, sich auf die Aufnahmeprüfung fürs College vorzubereiten, auch wenn sie quasi bei null anfangen muss ... Wie Tara Westover sich aus dieser Welt befreit, überhaupt erst einmal ein Bewusstsein von sich selbst entwickelt, um den schmerzhaften Abnabelungsprozess von ihrer Familie bewältigen zu können, das beschreibt sie in diesem ergreifenden und wunderbar poetischen Buch. » Befreit wirft ein Licht auf einen Teil unseres Landes, den wir zu oft übersehen. Tara Westovers eindringliche

Erzählung — davon, einen Platz für sich selbst in der Welt zu finden, ohne die Verbindung zu ihrer Familie und ihrer geliebten Heimat zu verlieren — verdient es, weithin gelesen zu werden.« J.D. Vance Autor der »Hillbilly-Elegie«

The Stressed Years of Their Lives - Dr. B. Janet Hibbs 2019-04-23
From two leading child and adolescent mental health experts comes a guide for the parents of every college and college-bound student who want to know what's normal mental health and behavior, what's not, and how to intervene before it's too late. "The title says it all...Chock full of practical tools, resources and the wisdom that comes with years of experience, *The Stressed Years of their Lives* is destined to become a well-thumbed handbook to help families cope with this modern age of anxiety." —Brigid Schulte, Pulitzer Prize-winning journalist, author of *Overwhelmed* and director of the Better Life Lab at New America All parenting is in preparation for letting go. However, the paradox of parenting is that the more we learn about late adolescent development and risk, the more frightened we become for our children, and the more we want to stay involved in their lives. This becomes particularly necessary, and also particularly challenging, in mid- to late adolescence, the years just before and after students head off to college. These years coincide with the emergence of many mood disorders and other mental health issues. When family psychologist Dr. B. Janet Hibbs's own son came home from college mired in a dangerous depressive spiral, she turned to Dr. Anthony Rostain. Dr. Rostain has a secret superpower: he understands the arcane rules governing privacy and parental involvement in students' mental health care on college campuses, the same rules that sometimes hold parents back from getting good care for their kids. Now, these two doctors have combined their expertise to corral the crucial emotional skills and lessons that every parent and student can learn for a successful launch from home to college.

Spin Doctors - Nora Loreto 2021-11-24T00:00:00Z

As Canada was in the grips of the worst pandemic in a century, Canadian media struggled to tell the story. Newsrooms, already run on threadbare budgets, struggled to make broader connections that could allow their audience to better understand what was really happening, and why. Politicians and public health officials were mostly given the benefit of the doubt that what they said was true and that they acted in good faith. This

book documents each month of the first year of the pandemic and examines the issues that emerged, from racialized workers to residential care to policing. It demonstrates how politicians and uncritical media shaped the popular understanding of these issues and helped to justify the maintenance of a status quo that created the worst ravages of the crisis. Spin Doctors argues alternative ways in which Canadians should understand the big themes of the crisis and create the necessary knowledge to demand large-scale change.

Elections In Independent Africa - Fred M. Hayward 2019-08-27

The electoral process has been an integral part of the political landscape of independent Africa for more than a quarter-century and has roots going back to traditional African societies. An examination of the independence period demonstrates the rich diversity of forms, experiences, and meanings of elections in Africa. For some observers, elections are a clear example of multiple failures in Africa-the failure of democracy and institutional transfer and the breakdown of much of the African political process in general. The authors of this book argue that elections in Africa have played a much more significant role than has commonly been recognized; that in spite of problems, elections are an important part of African contemporary political life. It has been too easy to dismiss elections in Africa as irrelevant because there are fewer today than there were two decades ago or because they have frequently failed to conform to democratic norms. However, in a period in which the primary trends of government are toward exclusion, African elections provide one of the few instruments of political action open to civil society. This study of the electoral process suggests a number of themes and conclusions about the relationship of the electoral process to state power and institutions, elite competition, mass participation, legitimacy and its limits, ethnic conflict, mobilization, party competition, authoritarian regimes, the growing incidence of electoral violence, and mass support for democratic values. Fred M. Hayward's substantive introduction discusses the electoral process in general. Eight case studies of key African countries then illustrate the varied meanings and implications of elections in independent Africa, and in the final chapter

Hayward draws conclusions about the role and impact of elections. It is clear that although electoral processes have demonstrated a certain fragility, both the form and the process have shown remarkable resilience.

Africa's Soft Power - Oluwaseun Tella 2021-05-23

This book investigates the ways in which soft power is used by African countries to help drive global influence. Selecting four of the countries most associated with soft power across the continent, this book delves into the currencies of soft power across the region: from South Africa's progressive constitution and expanding multinational corporations, to Nigeria's Nollywood film industry and Technical Aid Corps (TAC) scheme, Kenya's sport diplomacy, fashion and tourism industries, and finally Egypt's Pan-Arabism and its reputation as the cradle of civilisation. The book asks how soft power is wielded by these countries and what constraints and contradictions they encounter. Understandings of soft power have typically been driven by Western scholars, but throughout this book, Oluwaseun Tella aims to Africanise our understanding of soft power, drawing on prominent African philosophies, including Nigeria's Omolúwàbí, South Africa's Ubuntu, Kenya's Harambee, and Egypt's Pharaonism. This book will be of interest to researchers from across political science, international relations, cultural studies, foreign policy and African Studies. Open Borders Inc. - Michelle Malkin 2019-09-10

Follow the money, find the truth. That's Michelle Malkin's journalistic mantra, and in her stunning new book, *Open Borders Inc.*, she puts it to work with a shocking, comprehensive exposé of who's behind our immigration crisis. In the name of compassion—but driven by financial profit—globalist elites, Silicon Valley, and the radical Left are conspiring to undo the rule of law, subvert our homeland security, shut down free speech, and make gobs of money off the backs of illegal aliens, refugees, and low-wage guest workers. Politicians want cheap votes or cheap labor. Church leaders want pew-fillers and collection plate donors. Social justice militants, working with corporate America, want to silence free speech they deem "hateful," while raking in tens of millions of dollars promoting mass, uncontrolled immigration both legal and illegal. Malkin names names—from Pope Francis to George Clooney, from George Soros to the Koch brothers, from Jack Dorsey to Tim Cook and Mark Zuckerberg. Enlightening as it is infuriating, *Open Borders Inc.* reveals the powerful forces working to erase America.

Barnett Crossroads - Sears L Barnett Jr. 2019-04-19

I turn around quickly and ask like every little Black child asking 23 questions, "'Mama Mama---'" it's the early 1980's and i'm watching 'King Creole' my fave Elvis movie, "'--Presley is cool--ain't he Mama?'" Jackie's face darkens, her bottom lip frowns down, and she tells me she hated Elvis. She says she never liked Elvis Aaron Presley because he said somethin' about all Negro people can do for him, is shine his blue suede shoes. "'He said that?'" I'm all shook up for a nanosecond. I thought he

was cool. I slowly turn back around to enjoy the rest of the movie on the Zombie T.V. cathode ray tube; Questioning everything, still bobbin' my big head to the SOULFUL jazzy sounds, skeptical of the dude that styled his hair with ROSE OIL and vaseline. The "'Barnett Crossroads'", is the signpost reminder that visitors SEE right before they cross The 'Long Poetic Bridge', also known as "'The General Walter KING Wilson JR. Bridge.'

The Routledge Companion to Media and Class - Erika Polson 2019-11-27

This companion brings together scholars working at the intersection of media and class, with a focus on how understandings of class are changing in contemporary global media contexts. From the memes of and about working-class supporters of billionaire "populists", to well-publicized and critiqued philanthropic efforts to bring communication technologies into developing country contexts, to the behind-the-scenes work of migrant tech workers, class is undergoing change both in and through media. Diverse and thoughtfully curated contributions unpack how media industries, digital technologies, everyday media practices—and media studies itself—feed into and comment upon broader, interdisciplinary discussions. They cover a wide range of topics, such as economic inequality, workplace stratification, the sharing economy, democracy and journalism, globalization, and mobility/migration. Outward-looking, intersectional, and highly contemporary, *The Routledge Companion to Media and Class* is a must-read for students and researchers interested in the intersections between media, class, sociology, technology, and a changing world.

Gone Viral - Justin Hart 2022-10-18

Data and marketing consultant and statistical sage to presidential candidates, governors, businesses, and the real powers-that-be, epidemiologists, Justin Hart catalogs in a terrifying-but-sprightly manner the folly and psychosis produced by the pandemic and diagnoses the societal destruction that the massive overresponse to the COVID virus has wreaked, as well as what can be done to stop the madness and bring the world back to a modicum of rationality. WORST. DISEASE. EVER.

Someone broke America. In this nightmare, neighbors have turned into agoraphobes, teachers fear their students, children are muzzled, citizens are censored, dystopian fictions have become reality, and unelected officials are creating a biometric police state. Oh wait. It's not a nightmare. It's our daily lives! In truth, much of this insanity didn't start with the coronavirus pandemic (it was already latent in big government and big corporations) and it won't end there. COVID-19's greatest threat turned out to be . . . mental. All we had to fear was fear itself—and boy did some of us fear! The very idea of the virus weakened the immune system of America and revealed a decaying underbelly of confusion, panic, unease, and cowardice few of the strong ones suspected existed. What a horrible wake-up call! In a spate of anxious dread and gleeful power-grabbing, our health overlords threw away the pandemic response

handbook and tried—beyond all reason—to protect, well, everyone. From massive over-testing to universal retail plexiglass to stay-at-home orders to stay-away-from-school orders to masking mandates to vaccine mandates to some of the worst restrictions on civil liberties in American history, this is an epic story that poses big questions about America's future as a free society. And the odd thing is, as Justin Hart shows, the actual disease was, as pandemics go, not that threatening; most people were at minimal risk. What is really scary is the total overreaction of half the country, many governments, that lost all sense of perspective. Hart offers a hopeful prescription on how we might face the madness down and claw our way back to sanity!
