Critical Rhetorics of Race - Kent A. Ono
2011-07-11

According to many pundits and cultural commentators, the U.S. is enjoying a post-racial age, thanks in part to Barack Obama's rise to the presidency. This high gloss of optimism fails, however, to recognize that racism remains ever present and alive, spread by channels of media and circulated even in colloquial speech in ways that can be difficult to analyze. In this groundbreaking collection edited by Michael G. Lacy and Kent A. Ono, scholars seek to examine this complicated and contradictory terrain while moving the field of communication in a more intellectually productive direction. An outstanding group of contributors from a range of academic backgrounds challenges traditional definitions and applications of rhetoric. From the troubling media representations of black looters after Hurricane Katrina and rhetoric in news coverage about the Columbine and Virginia Tech massacres to cinematic representations of race in Crash, Blood Diamond, and Quentin Tarantino's films, these essays reveal complex intersections and constructions of racialized bodies and discourses, critiquing race in innovative and exciting ways. *Critical Rhetorics of Race* seeks not only to understand and navigate a world fraught with racism, but to change it, one word at a time.

Narratives and Reflections in Music Education - Tawnya D. Smith 2020-02-03

This volume offers chapters written by some of the most respected narrative and qualitative inquiry writers in the field of music education. The authorship and scope are international, and the chapters advance the philosophical, theoretical, and methodological bases of narrative inquiry in music education and the arts. The book contains two sections, each with a specific aim. The first is to continue and expand upon dialogue regarding narrative inquiry in music education, emphasizing how narrative involves the art of listening to and hearing others whose voices are often unheard. The chapters invite music teachers and scholars to experience and confront music education stories from multiple perspectives and worldviews, inviting an international readership to engage in critical dialogue with and about marginalized voices in music. The second section focuses on ways in which narrative might be represented beyond the printed page, such as with music, film, photography, and performative pieces. This section includes philosophical discussions about

arts-based and aesthetic inquiry, as well as examples of such work.

Recovering a Lost River - Steven Hawley 2011-03-15

A powerful argument for why dam removal makes good scientific, economic, and environmental sense—and requires our urgent attention. The Snake River, flowing through the Northwest, was once one of the world's greatest salmon rivers. As recently as a hundred years ago, it retained some of its historic bounty with seven million fish coming home to spawn there. Now, due to damming for hydroelectricity over the past fifty years, the salmon population has dropped close to extinction. Efforts at salmon recovery, through fish ladders, hatcheries, and even trucking them over the dams, have failed. Hawley argues that the solution for the Snake River lies in dam removal, pitting the power authority and Army Corps of Engineers against a collection of conservationists, farmers, commercial and recreational fishermen, and the Nez Perce tribe. He also demonstrates the interconnectedness of the river's health to Orca whales in Puget Sound, local economies, fresh water rights, and energy independence. This regional battle has garnered national interest, and is part of a widespread river-restoration movement that stretches from Maine's Kennebec to California's Klamath. In one instance, Butte

Creek salmon rebounded from a paltry fourteen fish to twenty thousand within just a few years of rewilding their river, showing the incredible resiliency of nature when given the slightest chance. In this timely book, Hawley shows how river restoration, with dam removal as its centerpiece, is not only virtuous ecological practice, but a growing social and economic enterprise.

Centerville - Britt Steen Zuniga 2001
At the Cape Cod celebration of 1839, a Harvard professor stated, "The duck does not take to water with a surer instinct than the Barnstable boy . . . It is but bound from the mother's lap to the masthead." These prophetic comments were realized most profoundly in Centerville, which originally derived its strength from a strong maritime economy. One of seven villages in the town of Barnstable on Cape Cod, Centerville has a history that is tied in with much of New England. Yet, it remains highly unique, as it was shaped by entrepreneurs and rugged individualists, who weathered not only dramatic economic and cultural changes but also natural disasters. Centerville will guide you through the

village's picturesque winding rivers, salt marshes, and canopied dirt roads, where you will discover "the Barracks," the well-known home of Civil War veteran A.D. Ayling. You will explore the gardens that Frederick Law Olmstead designed for "Fernbrook," the church where Caroline Kennedy was married, and the site of the village's legendary speakeasy. Centerville will introduce you to James Delap Kelley, one of one hundred five sea captains who lived in Centerville; renowned composer Amy Beach; and sea captain Russell Marston, who left the coastal trade to become a famed Boston restaurateur.

The Azusa Street Mission and Revival - Cecil M. Robeck 2017-07-25

In The Azusa Street Mission and Revival, Cecil M. Robeck, Jr. brings to bear expertise from decades of focused study in church history to reveal the captivating story of the Apostolic Faith Mission in Los Angeles, which became known as the Azusa Street Mission. Sometimes the largest blaze begins with the tiniest spark. At the dawn of the twentieth century, William J. Seymour, the son of Louisiana slaves, began meeting with a tiny congregation in a two-story wooden building in downtown Los Angeles. What began as a spontaneous gathering of believers quickly grew into a passionate revival and renewal of the work of the Holy Spirit. The movement spread at breathtaking speed. With little more than a printing press, a trolley stop, and a powerful message, the spiritual fire emanating from the Apostolic Faith Mission on Azusa Street rapidly crossed strict cultural and national borders—into Mexico, Canada, Britain, Scandinavia, Africa, India, and China. Led by William J. Seymour, the revival became the catalyst for the modern Pentecostal movement. Today, the more than 500 million Christians who identify as Pentecostal or Charismatic can trace the roots of their faith to this humble beginning at Azusa Street. The Azusa Street Mission and Revival tells the full story of how this uniquely

diverse and inclusive group grew into a powerful movement that forever changed the landscape of Christianity.
