English Linguistic Imperialism from Below - Leya Mathew 2022-07-11

Imperialism may be over, but the political, economic and cultural subjugation of social life through English has only intensified. This book demonstrates how English has been newly constituted as a dominant language in post-market reform India through the fervent aspirations of non-elites and the zealous reforms of English Language Teaching experts. The most recent spread of English in India has been through low-fee private schools, which are perceived as dubious yet efficient. The book is

an ethnography of mothering at one such low-fee private school and its neighboring state-funded school. It demonstrates that political economic transitions, experienced as radical social mobility, fuelled intense desire for English schooling. Rather than English schooling leading to social mobility, new experiences of mobility necessitated English schooling. At the same time, experts have responded to the unanticipated spread of English by transforming it from a second language to a first language, and earlier hierarchies have been produced anew as access to English democratized.

Constitutional Law for a Changing America -

Lee Epstein 2021-08-03

Political factors influence judicial decisions. Arguments and input from lawyers and interest groups, shifting public opinion, and the ideological and behavioral inclinations of the justices collectively influence the development of constitutional doctrine. In *Constitutional Law for a Changing America*, bestselling authors Lee Epstein, Kevin T. McGuire, and Thomas G. Walker draw on both political science and legal studies to analyze and excerpt cases, accounting for recent landmark court decisions, including key opinions handed down through the 2020 term. Updated with additional material such as recent court rulings, more than 500 supplemental cases, and greater coverage of freedom of expression, this Eleventh Edition will develop students' understanding of how the U.S. Constitution protects civil rights and liberties. Included with this text The online resources for your text are available via the password-protected Instructor Resource Site. Learn more.

Education Law - Michael Imber 2013-10-08

Education Law, 5th Edition is organized around the belief that students need to read court cases to understand the subtlety and richness of the law, but for legal neophytes, cases without discussion and interpretation are often too difficult to comprehend. This textbook provides a comprehensive survey of the legal problems and issues that confront school administrators and policymakers today. Thus, the text balances an explanation of the important principles of education law, with actual court decisions to illuminate these concepts. The court decisions are carefully edited to highlight issues most relevant to administrators, and each chapter

explores implications for policy and practice. This new edition features additional content on bullying, student privacy, free speech rights, teacher evaluation, collective bargaining, and issues relating to Internet and technology as well as revised materials dealing with education policy and updating of references and case law throughout. A companion website with materials for students and instructors, including links to full cases, a glossary of key concepts, and discussion questions to help students further engage with the content.

The Educator's Guide to Texas School Law - Jim Walsh 2018-08-01

Much has changed in the area of school law since the first edition of *The Educator's Guide* was published in 1986. This new ninth edition offers an authoritative source on all major dimensions of Texas school law through the 2017 legislative sessions. Intended for educators, school board members, interested attorneys, and taxpayers, the ninth edition explains what the law is and what the implications are for effective school operations. It is designed to help professional educators avoid expensive and time-consuming lawsuits by taking effective preventive action. It is an especially valuable resource for school law courses and staff development sessions. The ninth edition begins with a review of the legal structure of the Texas school system, incorporating recent innovative features such as charter schools and districts of innovation. Successive chapters address attendance, the instructional program, service to students with special needs, the rights of public school employees, the role of religion, student discipline, governmental transparency, privacy, parent rights, and the parameters of legal liability for schools and school personnel. The book includes discussion of major federal legislation, such as the Individuals with Disabilities Education Act, the Family Educational Rights and Privacy Act, Section 504 of the Rehabilitation Act of 1973, and the Every Student Succeeds Act. On the state level, the book incorporates new laws pertaining to

cyberbullying and inappropriate relationships between students and employees. Key points are illustrated through case law, and a complete index of case citations is included.

Censorship and Student Communication in Online and Offline Settings - Oluwole, Joseph O. 2015-09-14

While freedom of speech is a defining characteristic of the United States, the First Amendment right is often regulated within certain environments. For years, schools have attempted to monitor and regulate student communication both within the educational environment and in student use of social media and other online communication tools.

Censorship and Student Communication in Online and Offline Settings is a comprehensive reference source that addresses the issues surrounding student's right to free speech in on and off-campus settings. Featuring relevant coverage on the implications of digital media as well as constitutional and legal considerations, this publication is an essential resource for school administrators, educators, students, and policymakers interested in uncovering the reasons behind student censorship and the challenges associated with the regulation of students' free speech.

Examples & Explanations for Constitutional Law - Alan Ides 2021-12-30

Examples & Explanations for Constitutional Law: Individual Rights, Ninth edition, by Allan Ides, Christopher N. May, and Simona Grossi, provides a clearly written, comprehensive

examination of constitutional doctrine pertaining to individual rights. This problem-oriented study guide provides students and teachers with a highly readable and accessible study of constitutional law. Both this book and its companion volume, 'Examples & Explanations for Constitutional Law: National Power and Federalism, combine detailed textual material with real-world examples and explanations that apply the relevant constitutional doctrine to specific fact patterns. The text operates as a readable and citable treatise on the topics covered, and the examples and explanations serve as an elaboration on that text. Its unique, time-tested Examples & Explanations pedagogy combines clear textual material with well-written, comprehensive and up-to-date examples, explanations, and questions. A favorite among law school students, and often recommended by professors, this guide takes students through the principal doctrines of constitutional law covered in a typical course that includes a study of individual rights. New to the Ninth Edition: Inclusion of nearly 50 new Supreme Court cases Updated Examples & Explanations Expanded discussion of the freedom of association Richer treatment of the right to keep and bear arms Professors and students will benefit from: Hypotheticals similar to those presented in class, with structure and reasoning behind the corresponding analysis An alternative perspective to help you understand your casebook and in-class lectures Straightforward, informal text that is never simplistic, and quickly gets to the point in conversational style laced with humor Adaptability with all major Constitutional Law casebooks Authors with over 70 years of combined experience teaching Constitutional Law

Student's Guide to the Supreme Court -

Bruce J. Schulman 2010-05-03

Student's Guide to the Supreme Court examines the history of America's highest court using a three-part approach that is tailor-made for students new to the topic. Part Two consists of alphabetical entries spanning Abortion to Writ of Mandamus, the court order requiring a government official to carry out a duty. The definitions are supplemented with biographies of decision makers, spotlights on momentous

events and key issues, and point/counterpoint debates of controversial issues. Part Two includes the 2009 nomination and confirmation of Associate Justice Sonia Sotomayor. Part Three is a Primary Source Library of key documents and images essential to understanding the history of the Supreme Court, including landmark decisions such as Marbury v. Madison and Brown v. Board of Education, editorial cartoons about the Court, presidential nomination statements, and justices' writings and speeches about pivotal cases. Student's Guide to the Supreme Court is part of the Student's Guides to the U.S. Government series, which focuses on key topics in U.S. government and history: elections, Congress, the presidency, and the Supreme Court. Boldly designed with boxed features, photos, maps, charts, tables, political cartoons, and timelines, the books in the series are easy to read, and each follows a consistent, three-section format. Each book is an informative reference for young researchers that requires minimal knowledge of U.S. government to understand the fundamental concepts presented.

Inside Constitutional Law - Russell L. Weaver 2014-12-08

With dynamic learning features and visual aids, the Inside Series helps you make the most of your study time, throughout the semester and as you prepare for the final. Unlike heavily abridged treatises, the Inside Series is carefully written in a concise, straightforward style that clearly identifies the essential components of the law and how they fit together. You can quickly learn what is important and why. Overviews and Tables of Contents in each chapter act as a roadmap to guide you through topics, showing you how each relates to the larger legal framework. FAQs clarify points of law and help you avoid common mistakes and misconceptions. Sidebars give fascinating additional detail from legal history, policy, famous cases and more. The graphic design supports your visual learning, and features such as bolded key terms, summaries, and Connections help reinforce your understanding while giving you ample opportunity for self-review. Surprisingly concise, visually compelling, the Inside Series is extremely useful throughout the semester to help you identify the essential components of the law and how they fit together. Comprehensive coverage of the essential topics emphasizes what you need to know and why. Clear, straightforward, informal writing explains every topic for you without over-simplifying the concepts. Overviews and Tables of Contents in each chapter act as a roadmap to guide you through topics, showing you why each matters

and how it fits into the larger framework of the law. FAQs clarify points of law and help you avoid common mistakes and misconceptions. Sidebars enrich the text with fascinating detail from legal history, policy, famous cases and more. Bolded key terms, Connections and summaries reinforce your understanding and give you ample opportunity for self-review. The overall graphical design of the series supports your visual learning.

Learning English and Chinese as Foreign Languages - Wen-Chuan Lin 2019-09-19

Learning English and Chinese is becoming increasingly important to the prospects of young people. This book compares English as a Foreign Language teaching in Taiwan with Chinese as a Foreign Language education in England in order to highlight how classroom activities are embedded within multiple settings, including ethnic or other social group cultures, family and community resources and school visions or goals. The book illustrates how in Taiwan different ethnic groups recognise, access and value English language learning to varying extents. Its findings illuminate why some ethnic groups are highly motivated to learn English and are able to gain privileged economic positions in the job market. In England, access to Chinese is marked by social class, and the book argues that this could augment an 'educational apartheid' that already exists in language teaching in secondary schools, thereby exacerbating existing inequality.

Human Values in Education - Gupta N L 2000

Teach - Janice Koch 2018-12-04

Teach is a concise introduction to education that challenges students' preconceived notions of teaching in order to transform them into reflective practitioners. Empathizing with the difficulties students face as they move from the college classroom to their own classrooms, revered author Janice Koch invites readers to both reflect on their own dispositions for teaching and look outside of themselves to the demands of the profession, making the philosophy of teaching and learning accessible and relevant. The Fourth Edition emphasizes the changing student population and the role of technology and globalization in the field, while also including the Interstate Teacher

Assessment and Support Consortium (InTASC) standards correlating with each chapter's content. Juvenile Justice - John T. Whitehead 2012
Juvenile Justice: An Introduction is a student-friendly analysis of all aspects of the juvenile justice system. The book covers the history and development of the juvenile justice system and the unique issues related to juveniles, including police interaction, court processes, due process, movements toward diversion and deinstitutionalization, and community intervention. This book also examines particular issues within juvenile justice, such as female delinquency, gang delinquency, and the use of the death penalty and Life Without Parole with juveniles. Evidence-based suggestions for successful interventions and treatment are included, with a focus on performing cost-benefit analyses of what works versus what is ineffective with juveniles. The book concludes with a look to the future of the juvenile court, including the real possibility of abolition. Provides an engaging introduction to all aspects of the juvenile justice system in America. This seventh

edition builds on a trusted and well-known textbook with new material on key issues such as sexting, bullying, social media, and the issues of non-delinquent youths. Robust offerings for students include study questions, discussion questions, "What You Need to Know" sections in each chapter, key terms identified, online case study questions, and links to relevant websites. Instructors are provided with helpful test question banks, lesson plans, sample syllabi, PowerPoint lecture slides, and links to useful websites. Glossary consolidates key terms with definitions.

JSL Vol 22-N2 - JOURNAL OF SCHOOL LEADERSHIP 2012-05-01

The Journal of School Leadership is broadening the conversation about schools and leadership and is currently accepting manuscripts. We welcome manuscripts based on cutting-edge research from a wide variety of theoretical perspectives and methodological orientations. The editorial team is particularly interested in working with international authors, authors from traditionally marginalized populations, and in work that is relevant to practitioners around the world. Growing numbers of educators and professors look to the six bimonthly issues to deal with problems directly related to contemporary school leadership practice teach courses on school leadership and policy use as a quality reference in writing articles about school leadership and improvement.

Encyclopedia of American Civil Liberties - Paul Finkelman 2013-11-07

This Encyclopedia on American history and law is the first devoted to examining the issues of civil liberties and their relevance to major current events while providing a historical context and a philosophical discussion of the

evolution of civil liberties. Coverage includes the traditional civil liberties: freedom of speech, press, religion, assembly, and petition. In addition, it also covers concerns such as privacy, the rights of the accused, and national security. Alphabetically organized for ease of access, the articles range in length from 250 words for a brief biography to 5,000 words for in-depth analyses. Entries are organized around the following themes: organizations and government bodies legislation and legislative action, statutes, and acts historical overviews biographies cases themes, issues, concepts, and events. The Encyclopedia of American Civil Liberties is an essential reference for students and researchers as well as for the general reader to help better understand the world we live in today.

Constitutional Fictions - David L Faigman
2008-08-18

David Faigman's Constitutional Fictions is the first book-length examination of the role of fact-finding in constitutional cases. Because the role of facts is central to the day-to-day realities of constitutional law, Faigman provides an extraordinarily important analysis of a subject that has been largely ignored by constitutional scholars. To show how contemporary facts play into constitutional analysis, Faigman examines some of the most controversial subjects of the late twentieth century, including physician-assisted suicide, abortion, sexual predators, free speech, and privacy. The Constitution is popularly thought of as a static document that embodies fundamental values and foundational principles of governance. However, the values and principles that the Constitution embodies must be applied to the circumstances and challenges of changing times. Constitutional Fictions explains how contemporary facts should be incorporated into constitutional decisions, thus allowing the Constitution to endure for the ages.

The Oxford Handbook of American Sports Law - Michael A. McCann 2018

The Oxford Handbook of American Sports Law takes the reader through the most important controversies and critical developments in law and U.S. sports. Over the course of 30 chapters, leading scholars explore this expanding and captivating area of law. The Handbook is the first book to gather dozens of perspectives on

sports law controversies in the United States, and will be of interest to those who study and practice sports law, as well as journalists, broadcasters, and legally minded sports fans. The Oxford Handbook of American Sports Law incorporates analysis of key historical events in sports law-such as the rise of free agency in professional sports and the concept of amateurism for college athletes-and their broader context. Contemporary legal controversies in U.S. sports and their accompanying questions are also of central importance: In a sensible legal system, how would long-term neurological injuries from contact sports be addressed? How would the use of racially insensitive team names be resolved? How would a seemingly trivial dispute over air pressure in footballs be studied from the competing perspectives of players, teams, and leagues? The Oxford Handbook of American Sports Law weighs not just the facts, but how courts and lawmakers ought to consider the most important questions at stake. The essays in this volume also canvass the types of legal controversies in sports likely to surface in the future. This is particularly true of law and technology matters, including those related to broadcasting and streaming. Legal doctrine has been and will continue to be forced to adapt to these developments, and the Handbook both forecasts coming debates and outlines where the law may be headed.

Encyclopedia of Education Law - Charles J. Russo 2008-06-27

CHOICE Outstanding Academic Title for 2009 "A welcome addition to any public or academic library, this set would also be of use in a law library where educational law might need to be explored and reviewed at a more basic level than other legal texts." —Sara Rofofsky Marcus, Queensborough Community Coll., Bayside, NY "Smaller educational legal summaries exist, and a couple of texts deal with Supreme Court cases about education, but this set provides a unique combination of general educational legal issues and case-specific information. It should be a welcome addition to academic and large public libraries. Also available as an ebook." — Booklist The Encyclopedia of Education Law is a compendium of information drawn from the various dimensions of education law that tells its story from a variety of perspectives. The entries cover a number of essential topics, including the following: Key cases in education law, including both case summaries and topical overviews Constitutional issues Key concepts, theories, and legal principles Key statutes Treaties (e.g., the Universal Declaration on Human Rights) Curricular issues Educational equity Governance Rights of students and teachers Technology Biographies Organizations In addition to these broad categories, anchor essays by leading experts in education law provide more detailed examination of selected topics. The Encyclopedia also includes selections from key legal documents such as the Constitution and federal statutes that serve as the primary sources for research on education law. At the same time, since education law is a component in a much larger legal system, the Encyclopedia includes entries on the historical development of the law that impact on its subject matter. Such a broadened perspective places education law in its proper context in the U.S. legal system.

Social Media and the Law - Daxton Stewart
2017-02-10

Social media platforms like Facebook, Twitter, Instagram, YouTube, and Snapchat allow users to connect with one another and share information with the click of a mouse or a tap on a touchscreen—and have become vital tools for professionals in the news and strategic communication fields. But as rapidly as these services have grown in popularity, their legal ramifications aren't widely understood. To what extent do communicators put themselves at risk for defamation and privacy lawsuits when they use these tools, and what rights do communicators have when other users talk about them on social networks? How can an entity maintain control of intellectual property issues—such as posting copyrighted videos and photographs—consistent with the developing law in this area? How and when can journalists and publicists use these tools to do their jobs without endangering their employers or clients? Including two new chapters that examine First Amendment issues and ownership of social media accounts and content, Social Media and the Law brings together thirteen media law scholars to address these questions and more, including current issues like copyright, online impersonation, anonymity, cyberbullying,

sexting, and live streaming. Students and professional communicators alike need to be aware of laws relating to defamation, privacy, intellectual property, and government regulation—and this guidebook is here to help them navigate the tricky legal terrain of social media.
