Dancing Across Borders - Charlotte Svendler Nielsen 2019-12-06

Dancing Across Borders presents formal and non-formal settings of dance education where initiatives in different countries transcend borders: cultural and national borders, subject borders, professional borders and socio-economic borders. It includes chapters featuring different theoretical perspectives on dance and cultural diversity, alongside case narratives that show these perspectives in a specific cultural setting. In this way, each section charts the processes, change and transformation in the lives of young people through dance. Key themes include how student learning is enhanced by cultural diversity, experiential teaching and learning involving social, cross-cultural and personal dimensions. This conceptually aligns with the current UNESCO protocols that accent empathy, creativity, cooperation, collaboration alongside skills- and knowledge-based learning in an endeavour to create civic mindedness and a more harmonious world. This volume is an invaluable resource for teachers, policy makers,

artists and scholars interested in pedagogy, choreography, community dance practice, social and cultural studies, aesthetics and interdisciplinary arts. By understanding the impact of these cross-border collaborative initiatives, readers can better understand, promote and create new ways of thinking and working in the field of dance education for the benefit of new generations.

Appalachian Dance - Susan Eike Spalding
2014-09-15
In Appalachian Dance, Susan Eike Spalding

employs twenty-five years' worth of rich interviews with black and white Virginians, Tennesseans, and Kentuckians to explore the evolution and social uses of dance practices in each region. Spalding analyzes how issues as disparate as industrialization around coal, race relations, and the 1970s folk revival profoundly influenced freestyle clogging and other dance forms. She reveals how African Americans and Native Americans, as well as European immigrants drawn to the timber mills and coal fields, added to local dance vocabularies. By placing each community in its sociopolitical and economic context, Spalding explores how the formal and stylistic nuances found in Appalachian dance reflect the beliefs, shared understandings, and experiences of the community at large.

The Love That Split the World - Emily Henry
2016-01-26

"A truly profound debut."—Buzzfeed "A time-bending suspense that's contemplative and

fresh, evocative and gripping."—USA Today
"Henry's story captivates, both as a romance and as an imaginative rethinking of time and space."—Publishers Weekly "This time-traveling, magical, and beautifully written love story definitely deserves a spot on your bookshelf."—Bustle Emily Henry's stunning debut novel is Friday Night Lights meets The Time Traveler's Wife and perfectly captures those bittersweet months after high school, when we dream not only of the future, but of all the roads and paths we've left untaken. Natalie's last summer in her small Kentucky hometown is off to a magical start . . . until she starts seeing the "wrong things." They're just momentary glimpses at first—her front door is red instead of its usual green, there's a preschool where the garden store should be. But then her whole town disappears for hours, fading away into rolling hills and grazing buffalo, and Nat knows something isn't right. Then there are the visits from the kind but mysterious apparition she calls

"Grandmother," who tells her, "You have three months to save him." The next night, under the stadium lights of the high school football field, she meets a beautiful boy named Beau, and it's as if time just stops and nothing exists. Nothing, except Natalie and Beau.

All That Is Native and Fine - David E.

Whisnant 2018-08-25

In the American imagination, "Appalachia" designates more than a geographical region. It evokes fiddle tunes, patchwork quilts, split-rail fences, and all the other artifacts that decorate a cherished romantic region in the American mind. In this classic work, David Whisnant challenges this view of Appalachia (and consequently a broader imaginative tendency) by exploring

connections between the comforting simplicity of cultural myth and the troublesome complexities of cultural history. Looking at the work of ballad hunters and collectors, folk and settlement school founders, folk festival promoters, and other culture workers, Whisnant examines a process of intentional and systematic cultural intervention that had--and still has--far-reaching consequences. He opens the way into a more sophisticated understanding of the politics of culture in Appalachia and other regions. In a new foreword for this twenty-fifth anniversary edition, Whisnant reflects on how he came to write this book, how readers responded to it, and how some of its central concerns have animated his later work.

RoboCup 2004: Robot Soccer World Cup VIII - Daniele Nardi 2005-03-23

These are the proceedings of the RoboCup 2004 Symposium, held at the Instituto Superior Técnico, in Lisbon, Portugal in conjunction with the RoboCup competition. The papers presented here document the many innovations in robotics that result from RoboCup. A problem in any branch of science or engineering is how to devise tests that can provide objective comparisons between alternative methods. In recent years, competitive engineering challenges have been established to motivate researchers to tackle difficult problems while providing a framework for the comparison of results. RoboCup was one of the first such competitions and has been a model for the organization of challenges following sound scientific principles. In addition to the competition, the associated symposium provides a forum for researchers to present refereed papers. But, for RoboCup, the symposium has the greater goal of encouraging the exchange of ideas between teams so that the competition, as a whole, progresses from year to year and

strengthens its contribution to robotics. One hundred and eighteen papers were submitted to the Symposium. Each paper was reviewed by at least two international referees; 30 papers were - cepted for presentation at the Symposium as full papers and a further 38 were accepted for poster presentation. The quality of the Symposium could not be maintained without the support of the authors and the generous assistance of the referees.
