### *No Greater Service* - Alvin J. Hower 2020-07-07

March 1, 2021, Peace Corps turns sixty. Its mission—to teach a skill and to spread the Peace Corps brand of goodwill around the world—still resonates. In *No Greater Service*, author Alvin J. Hower highlights its relevance yesterday, today, and the years to come. This memoir offers a stirring, personal, vivid, and action-packed account of a Peace Corps volunteer's remarkable life in the underserved areas of the southern Philippines. With curiosity, empathy, and wry humor, Hower creates a distinct Peace Corps photo memoir. An avid photographer, he produced

more than 5,000 images of everyday people and the awe-inspiring beauty of a nation of 7,641 islands. He was a teacher and social worker in General Santos City, and a management consultant for a mission school in the remote mountains of Lake Sebu, Surallah, working and living with the indigenous T'boli people featured in the August 1971 National Geographic Magazine. *No Greater Service* also serves as a history of his host country, providing information about its complex customs and traditions as well as the notable stories of Filipinos he met and their fascinating updates fifty years later. At times hilarious, others sad and grim, it also shares a love story of his romantic alliance with a Filipina girl.

### **Adel und Bürgertum in Deutschland I** - Heinz Reif 2008-01-01

Die historische Forschung hat bisher vor allem die beeindruckende Selbstbehauptung des deutschen Adels im 19. und frühen 20. Jahrhundert herausgearbeitet, und zwar in der Regel mit erkennbarem Unwillen. Der Abschied des Adels aus der Geschichte ging den Historikern nicht schnell genug. Dabei gibt es zahlreiche Gründe für ein solches Obenbleiben. Unter diesen besaßen die Orientierungs- und Verhaltensmuster des Bürgertums besonderes Gewicht. Wie in den meisten Ländern Westeuropas wurden auch in Deutschland die gesellschaftlichen Machtstrukturen dieser Zeit nicht von Adel oder Bürgertum, sondern von Adel und Bürgertum geprägt, in genau zu bestimmenden Mischungslagen. Die Bildung einer neuen Führungsschicht war seit dem Ende des 18. Jahrhunderts ein gesamteuropäisches Problem. Dabei wurde der Adel bis ins 20. Jahrhundert hinein immer wieder zum Reservoir derjenigen Personen gezählt, aus welchem eine Elite, der "neue Adel", rekrutiert werden sollte. Die Bildung eines "neuen Adels" aus Adel und Bürgertum hatte in Deutschland seine Konjunkturen und Krisen. Mit dem Konzept "Elitenbildung" ist es möglich, die Adelforschung aus stereotyp gewordenen Deutungsmustern zu lösen und die Beziehung zwischen Adel und Bürgertum, die im langen 19. Jahrhundert immer wieder neu ausgehandelt und ausprobiert wurde, in ihren Chancen, ihren Erfolgen und in ihrem Scheitern zu erforschen.

### *The Future of Violence* - Benjamin Wittes 2015-03-10

Two legal scholars explore the security and political implications of revolutionary new technologies from drones to 3-D printers, and explain how governments must adapt to our brave new world of dispersed threats. From drone warfare in the Middle East to digital spying by the National Security Agency, the U.S. government has harnessed the power of cutting-edge technology to awesome effect. But what happens when ordinary people have the same tools at their fingertips? Advances in cybertechnology, biotechnology, and robotics mean that more people than ever before have access to potentially dangerous technologies-from drones to computer networks and biological agents-which could be used to attack states and private citizens alike. In *The Future of Violence*, law and security experts Benjamin Wittes and Gabriella Blum detail the myriad possibilities, challenges, and enormous risks present in the modern world, and argue that if our national governments can no longer adequately protect us from harm, they will lose their legitimacy. Consequently, governments, companies, and citizens must rethink their security efforts to protect lives and liberty. In this brave new world where many little brothers are as menacing as any Big Brother, safeguarding our liberty and privacy may require strong domestic and international surveillance and regulatory controls. Maintaining security in this world where anyone can attack anyone requires a global

perspective, with more multinational forces and greater action to protect (and protect against) weaker states who do not yet have the capability to police their own people. Drawing on political thinkers from Thomas Hobbes to the Founders and beyond, Wittes and Blum show that, despite recent protestations to the contrary, security and liberty are mutually supportive, and that we must embrace one to ensure the other. The Future of Violence is at once an introduction to our emerging world -- one in which students can print guns with 3-D printers and scientists' manipulations of viruses can be recreated and unleashed by ordinary people -- and an authoritative blueprint for how government must adapt in order to survive and protect us.
