Exemplary Elementary Social Studies - Sherry L. Field 2014-04-01

In many elementary classrooms, social studies has taken a back seat to English Language Arts and Mathematics in the wake of No Child Left Behind and Race to the Top This volume is not another hand-wringing lament. On the contrary, the elementary educators who have contributed to this volume have a positive set of stories to tell about how social studies can play a central role in the elementary classroom, how teachers can integrate social studies knowledge and skills throughout the school day, and how this learning can carry over into children's homes and communities. The seven case studies in this book, one at each elementary grade level, highlight exemplary teachers in whose classrooms social studies is alive and well in this age of accountability. At the end of each case study, each teacher provides advice for elementary teachers of social studies. Our hope is that elementary teachers and prospective teachers, elementary principals, social studies supervisors, staff developers, and professors of elementary social studies methods who study the stories that we tell can be empowered to return social studies to its rightful place in the curriculum.

[Seeing Eye Girl](#) - Beverly J. Armento 2022-07-05

As the "Seeing Eye Girl" for her blind, artistic, and mentally ill mother, Beverly Armento was intimately connected with and responsible for her, even though her mother physically and emotionally abused her. She was Strong Beverly at school—excellent in academics and mentored by caring teachers—but at home she was Weak Beverly, cowed by her mother's rage and delusions. Beverly's mother regained her sight with two corneal transplants in 1950 and went on to enjoy a moment of fame as an artist, but these positive turns did nothing to stop her disintegration into her delusional world of communists, radiation, and lurking Italians. To survive, Beverly had to be resilient and hopeful that better days could be ahead. But first, she had to confront essential ethical issues about her caregiving role in her family. In this emotional memoir, Beverly shares the coping strategies she invented to get herself through the trials of her young life, and the ways in which school and church served as refuges over the course of her journey. Breaking the psychological chains that bound her to her mother would prove to be the most difficult challenge of her life—and, ultimately, the most liberating one.

Handbook of Research in Social Studies Education - Linda S. Levstik 2010-04-15

This Handbook outlines the current state of research in social studies education – a complex, dynamic, challenging field with competing perspectives about appropriate goals, and on-going conflict over the content of the curriculum. Equally important, it encourages new research in order to advance the field and foster civic competence; long maintained by advocates for the social studies as a fundamental goal. In considering how to organize the Handbook, the editors searched out definitions of social studies, statements of purpose, and themes that linked (or divided) theory, research, and practices and established criteria for topics to include. Each chapter meets one or more of these criteria: research activity since the last Handbook that warrants a new analysis, topics representing a major emphasis in the NCSS standards, and topics reflecting an emerging or reemerging field within the social studies. The volume is organized around seven themes: Change and Continuity in Social Studies Civic Competence in Pluralist Democracies Social Justice and the Social Studies Assessment and Accountability Teaching and Learning in the Disciplines Information Ecologies: Technology in the Social Studies Teacher Preparation and Development The Handbook of Research in Social Studies is a must-have resource for all beginning and experienced researchers in the field.

Preserving History - Scott Monroe Waring 2011-06-01

What and how to teach in the K-16 classroom history has been a perennial and, at times, heated debate. Beginning as early as 1892, the question of what knowledge is of the most worth and what should be the central function of the history curriculum became a focus of many interested in education. It was felt that the teachers needed to move away from “traditional” methods of teaching history, such as rote memorization and the “dry and lifeless system of instruction by textbook,” and find new and engaging ways to “broaden and cultivate the mind.” Unfortunately, these recommendations faced many critics and did not take hold in K-16 classrooms at this time or, frankly, at any point since then. Even though we tend to have a nostalgic memory of earlier time periods and, in turn, the educational capabilities of the children from various times in our nation’s past, the results from multiple studies examining the historical knowledge base of America’s youth has remained fairly discouraging. Much of the lack of knowledge present stems

from the manner in which history is traditionally taught. Ineffective instructional methods greatly impact the interest levels, or more frequently the distaste, generated for learning about historical content and, thus, the public’s corresponding perception of the importance of history within K-16 curricula. This book makes an effort at overcoming the persistent boredom and lack of historical knowledge present in our students, by focusing on ways in which history instruction can be improved.

Bringing the Social Sciences Alive - Frederick M. Hess 1999

Both an invaluable resource and a how-to-manual, this book is unlike any other on the market! All materials are reproducible! Two early charts help teachers to quickly determine which lessons can be used with which instructional units and which skills are emphasized in each item. Without sacrificing content, this book offers a happy compromise to teachers who are often dissatisfied with traditional rote instruction and with many of the substantively weak solutions designed to enliven courses. This book was written with the practicing teacher in mind. It offers ten tested, varied, and refined simulations that will enliven a classroom in grades 7-12 without sacrificing content! In fact, these lessons help a teacher teach concepts, material, and skills more effectively. The lessons are ready-to-use, including directions, background context, reproducible materials, and guidelines for assessment. Topics include: Constructing a New American Government, The Mighty Dorito Cartel, and Making the United Nations Work. The author also provides discussion on designing, modifying, running, and assessing simulations. Rick Hess is currently an assistant professor of education and government at the University of Virginia. His current research emphasizes the effects (or non-effects) of competition on public school systems.

My Soul Has Grown Deep - Cheryl Finley 2018-05-21

My Soul Has Grown Deep considers the art-historical significance of contemporary Black artists and quilters working throughout the southeastern United States and Alabama in particular. Their paintings, drawings, mixed-media compositions, sculptures, and textiles include pieces ranging from the profoundly moving assemblages of Thornton Dial to the renowned quilts of Gee's Bend. Nearly sixty remarkable examples—originally collected by the Souls Grown Deep Foundation and donated to The Metropolitan Museum of Art—are illustrated alongside insightful texts that situate them in the history of modernism and the context of the African American experience in the twentieth-century South. This remarkable study simultaneously considers these works on their own merits while making connections to mainstream contemporary art. Art historians Cheryl Finley, Randall R. Griffey, and Amelia Peck illuminate shared artistic practices, including the novel use of found or salvaged materials and the artists' interest in improvisational approaches across media. Novelist and essayist Darryl Pinckney provides a thoughtful consideration of the cultural and political history of the American South, during and after the Civil Rights era. These diverse works, described and beautifully illustrated, tell the compelling stories of artists who overcame enormous obstacles to create distinctive and culturally resonant art. p.p1 {margin: 0.0px 0.0px 0.0px 0.0px; font: 14.0px Verdana}
