## **Political Violence in Southeast Asia since 1945** - Eve Monique Zucker 2021-04-19

This book examines postwar waves of political violence that affected six Southeast Asian countries - Indonesia, Burma/Myanmar, Cambodia, Thailand, the Philippines, and Vietnam - from the wars of independence in the mid-twentieth century to the recent Rohingya

genocide. Featuring cases not previously explored, and offering fresh insights into more familiar cases, the chapters cover a range of topics including the technologies of violence, the politics of fear, inclusion and exclusion, justice and ethics, repetitions of mass violence events, impunity, law, ethnic and racial killings, crimes against humanity, and genocide. The book delves

into the violence that has reverberated across the region spurred by local and global politics and ideologies, through the examination of such themes as identity ascription and formation, existential and ontological questions, collective memories of violence, and social and political transformation. In our current era of global social and political transition, the volume's case studies provide an opportunity to consider potential repercussions and outcomes of various political and ideological positionings and policies. Enhancing our understanding of the technologies, techniques, motives, causes, consequences, and connections between violent episodes in the Southeast Asian cases, the book raises key questions for the study of mass violence worldwide.

*Renunciation and Empowerment of Buddhist Nuns in Myanmar-Burma* - Hiroko Kawanami  
2013-02-01

Myanmar-Burma has one of the largest concentrations of Buddhist nuns and monks in

the world today. In *Renunciation and Empowerment of Buddhist Nuns in Myanmar-Burma*, Kawanami traces the nun's scholarly lineage in modern Myanmar history and examines their contemporary religious position in Myanmar's social and political contexts. Although their religious status may appear ambiguous from a textual viewpoint, it is argued that their large presence is a clear indication as to the important functions Buddhist nuns perform in the monastic community. Sagaing Hill where the main research was conducted, occupies an important educational centre for Myanmar nuns in consolidating their scholarly lineage and spreading the network of dhamma teachers. The book examines transactions that take place in their everyday lives and reveals the essence of their religious lives that make Buddhist nuns an essential bridge between sangha and society. **The Demographic Masculinization of China** - Isabelle Attané 2013-06-26

This book describes the shortage of girls and women in present day China and focuses on two important features: the sex imbalance in childhood and youth, and the excess mortality of women at various stages of their life. The author analyzes the causes and the processes of a strong preference for sons, which generates discrimination toward females and results in a shortage of girls and women. China's higher proportion of men than women is a population characteristic that is shared by very few countries in the world. This demographic masculinity is unprecedented in the documented history of human populations, both in scale and its lasting impact on the numbers and the structure of the population. Despite the economic boom of recent years, many families in China still consider girls to be less important than boys. Although Chinese women have become largely emancipated since the 1950s, they still do not have the same opportunities for social achievement as men, and Chinese society

remains fundamentally rooted in highly gendered social and family roles. As a consequence, Chinese girl babies who have the misfortune to be born instead of a long-awaited son go by various names, such as Pandi (literally "awaiting a son"), Laidi ("a son will follow"), or Yehao ("she'll do too"). The book provides a comprehensive review of the situation of women in China's society and shows that discrimination against girls and women is part of a system of norms and values that traditionally favours males.

**Violence, Statistics, and the Politics of Accounting for the Dead** - Marc-Antoine

Pérouse de Montclos 2016-02-11

This book examines the methodological problems of accounting for the dead in armed conflicts as well as how the process itself is open to manipulation and controversy. Inspired by the work of the International Practitioner Network of casualty recording organizations, the book features thematic analysis, case studies and historical discussion on the use of the body count towards political, humanitarian and military ends. The book begins with a strategic analysis of the body count that introduces a general discussion on the measurement of war violence; its treatment by the media, humanitarian organizations, governments and the military; and its legal and political implications. It then examines the accounting for

civilian war casualties in past and future conflicts, investigates the way the International Committee of the Red Cross has dealt with the issue of missing persons and the identification of dead bodies in armed conflicts and explores the role of statistics in aid policy debates, especially in regards to humanitarian workers. Next, the book details the field of casualty recording as practiced by civil society organizations, with insights from a study of 40 practitioners. It also features narrative case studies that detail the ways human losses were documented during recent conflicts in Northeastern India (2006-2009) and Croatia (1991-1995). In addition, one case study looks at the usefulness of casualty recording in engaging policymakers on the impacts of particular technologies of violence. This book offers an insightful investigation into violence, statistics and the politics of accounting for the dead. It will appeal to a broad audience of policy-makers, human rights activists, humanitarian practitioners as

well as academics.

Understanding Drugs Markets - Carine Baxerres  
2021-07-27

Drawing on anthropology, historical sociology and social-epidemiology, this multidisciplinary book investigates how pharmaceuticals are produced, distributed, prescribed, (and) consumed, and regulated in order to construct a comprehensive understanding of the issues that drive (medicine) pharmaceutical markets in the Global South today. Based on primary research conducted in Benin and Ghana, and additional data collected in Cambodia and the Ivory Coast, this volume uses artemisinin-based combination therapies (ACTs) against malaria as a central case study. It highlights the influence of the countries colonial and post-colonial history on their models for state regulation, production, and distribution, explores the determining role transnational actors as well as industries from the North but also and increasingly from the South play in influencing local pharmaceutical

markets and looks at the behaviour of health care professionals and individuals. Stepping back, the authors then unpick the pharmaceuticalization process and the multiple regulations at stake by looking at the workings of, and linkages between, (biomedical health) pharmaceutical systems, (representatives of companies) industries, actors in private distribution, and consumer practices. Providing a thorough comparative analysis of the advantages and disadvantages of different pharmaceutical systems, it is an important contribution to the literature on pharmaceuticalization and the governance of medication. It is of interest to students, researchers and policy-makers interested in medical anthropology, the sociology of health and illness, global health, healthcare management and pharmacy. Tehrangelles Dreaming - Farzaneh Hemmasi  
2020-04-10

Los Angeles, called Tehrangelles because it is home to the largest concentration of Iranians outside of Iran, is the birthplace of a distinctive form of postrevolutionary pop music. Created by professional musicians and media producers fleeing Iran's revolutionary-era ban on "immoral" popular music, Tehrangelles pop has been a part of daily life for Iranians at home and abroad for decades. In Tehrangelles Dreaming Farzaneh Hemmasi draws on ethnographic fieldwork in Los Angeles and musical and textual analysis to examine how the songs, music videos, and television made in Tehrangelles express modes of Iranian-ness not possible in Iran. Exploring Tehrangelles pop producers' complex commercial and political positioning and the histories, sensations, and fantasies their music makes available to global Iranian audiences,

Hemmasi shows how unquestionably Iranian forms of Tehrangeles popular culture exemplify the manner in which culture, media, and diaspora combine to respond to the Iranian state and its political transformations. The transnational circulation of Tehrangeles culture, she contends, transgresses Iran's geographical, legal, and moral boundaries while allowing all Iranians the ability to imagine new forms of identity and belonging.

### **Managing Human Resources in Asia-Pacific**

- Arup Varma 2013-06-26

Given the enormous economic and developmental changes being experienced by

nations in the Asia-Pacific region, and the related movement of people between and across countries, it is critical that we better understand the HRM policies and practices of these nations. The latest instalment in the Global HRM series, *Managing Human Resources in Asia-Pacific (2E)* presents the HRM situations in a number of South-East Asian and Pacific Rim countries, highlighting the growth of the personnel and HR function, the dominant HRM system(s) in the area, the influence of different factors on HRM, and the challenges faced by HR functions in these nations. This edition extends its coverage to Cambodia, Fiji, Indonesia, and the Philippines; a new chapter discusses HR research challenges in the region, such as the transferability of western constructs, problems with data collection, and the emergence of MNEs from Asia Pacific.

**Going Nowhere Fast** - Sabina Lawreniuk  
2020-08-06

Rising levels of global inequality and migrant

flows are both critical global challenges. Set within the Southeast Asian nation of Cambodia, *Going Nowhere Fast* sets out to answer a question of global importance: how does inequality persist in our increasingly mobile world? Inequality is often referred to as the greatest threat to democracy, society, and economy, and yet opportunity has apparently never been more accessible. Long and short distance transport - from motorbikes to aeroplanes - are available to more people than ever before and telecommunications have transformed our lives, ushering in an era of translocality in which the behaviour of people and communities is influenced from hundreds or even thousands of miles apart. Yet amidst these complex flows of people, ideas, and capital, persistent inequality cuts a jarringly static figure. *Going Nowhere Fast* brings together a decade of research to examine this uneven development in Cambodia, making a case for inequality as a 'total social fact' rather than an

economic phenomenon, in which stories, stigma, obligation and assets combine to lock social structures in place. *Going Nowhere Fast: Inequality in the Age of Translocality* speaks from an in-depth perspective to an issue of global relevance: how inequality persists in our hypermobile world. Focusing on pressing issues in Cambodia that resonate beyond, it investigates how human movement within and across the nation's borders are intertwined with societal threats and challenges, including of precarious labour and agricultural livelihoods; climate and environmental change; the phenomenon of land grabbing; and the rise of popular nationalism.

### **The Vietnam War from the Other Side -**

Cheng Guan Ang 2013-07-04

Existing studies of the Vietnam War have been written mostly from an American perspective, using western sources, and viewing the conflict through western eyes. This book, based on extensive original research, including

Vietnamese, Chinese and former Soviet sources, presents a history of the war from the perspective of the Vietnamese communists. It charts relations with Moscow and Beijing, showing how the involvement of the two major communist powers changed over time, and how the Vietnamese, despite their huge dependence on the Chinese and the Soviets, were most definitely in charge of their own decision making. Overall, it provides an important corrective to the many one-sided studies of the war, and presents a very interesting new perspective.

*Viet Nam* - Asian Development Bank 2014-07-01  
This sector assessment, strategy, and road map highlights the Government of Viet Nam's plans and strategies for addressing priority needs for the financial sector and identifies possible preliminary areas of international assistance. It assesses key sector development needs by analyzing strengths, constraints and weaknesses, various risks, potential threats, as

well as opportunities. This knowledge product serves as a basis for further dialogue on how the Asian Development Bank and the government can work together to tackle the challenges of managing financial sector development in Viet Nam in the coming years.

**A Vietnamese Moses** - George E. Dutton 2017  
A free ebook version of this title is available through Luminos, University of California Press's Open Access publishing program. Visit [www.luminosoa.org](http://www.luminosoa.org) to learn more. A Vietnamese Moses is the story of Philiphê Binh, a Vietnamese Catholic priest who in 1796 traveled from Tonkin to the Portuguese court in Lisbon to persuade its ruler to appoint a bishop for his community of ex-Jesuits. Based on Binh's surviving writings from his thirty-seven-year exile in Portugal, this book examines how the intersections of global and local Roman Catholic geographies shaped the lives of Vietnamese Christians in the early modern era. The book

also argues that Binh's mission to Portugal and his intense lobbying on behalf of his community reflected the agency of Vietnamese Catholics, who vigorously engaged with church politics in defense of their distinctive Portuguese-Catholic heritage. George E. Dutton demonstrates the ways in which Catholic beliefs, histories, and genealogies transformed how Vietnamese thought about themselves and their place in the world. This sophisticated exploration of Vietnamese engagement with both the Catholic Church and Napoleonic Europe provides a unique perspective on the complex history of early Vietnamese Christianity.

**Sustainability of biogas and cassava-based ethanol value chains in Viet Nam** - Food and Agriculture Organization of the United Nations 2018-07-02

This report presents the results of the implementation of the GBEP indicators to two key bioenergy pathways in Viet Nam: cassava-based ethanol and biogas at household, farm and industrial levels. The environmental, social and economic impacts of these two pathways are discussed, and recommendations are provided on how to improve their sustainability, efficiency

and competitiveness. This work provided Viet Nam with an understanding of how to establish the means of a long-term, periodic monitoring of its domestic bioenergy sector based on the GBEP indicators. Such periodic monitoring would enhance the knowledge and understanding of this sector and more generally of the way in which the contribution of the agricultural and energy sectors to national sustainable development could be evaluated. The implementation of the GBEP indicators in Viet Nam also provided a series of lessons learnt about how to apply them as a tool for sustainable development and how to enhance their practicality.

Identity Change and Foreign Policy - Linus Hagstrom 2015-10-05

Identity has become an explicit focus of International Relations theory in the past two to three decades, with one case attracting and puzzling many early identity scholars: Japan. These constructivist scholars typically ascribed

Japan a 'pacifist' or 'antimilitarist' identity - an identity which they believed was constructed through the adherence to 'peaceful norms' and 'antimilitarist culture'. Due to the alleged resilience of such adherences, little change in Japan's identity and its international relations was predicted. However, in recent years, Japan's foreign and security policies have begun to change, in spite of these seemingly stable norms and culture. This book seeks to address these changes through a pioneering engagement with recent developments in identity theory. In particular, most chapters theorize identity as a product of processes of differentiation. Through detailed case analysis, they argue that Japan's identity is produced and reproduced, but also transformed, through the drawing of boundaries between 'self' and 'other'. In particular, they stress the role of emotions and identity entrepreneurs as catalysts for identity change. With the current balance between resilience and change, contributors emphasize that more

drastic foreign and security policy transformations might loom just beyond the horizon. This book was originally published as a special issue of *The Pacific Review*.

**Narrowing the Development Gap in ASEAN** - Mark McGillivray 2013-04-12

An important part of the vision of the Association of Southeast Asian Nations (ASEAN) is to ensure that the benefits of development and economic integration are equitably shared by all member states and their citizens. ASEAN's work

therefore includes activities designed to narrow the development gap between ASEAN member states (Indonesia, Malaysia, the Philippines, Singapore, Thailand, Brunei, Burma, Cambodia, Laos and Vietnam) and between sub-regions within ASEAN. Written by a team of internationally recognised experts in development economics, this book communicates the latest findings on narrowing the development gap in a practical, policy-relevant way, in a format that can influence decision makers within ASEAN member states and international donors. The research presented is timely, as significant data on development achievements to the sub-national level now exists in most ASEAN countries. There have been significant development achievements in many ASEAN countries over the last 20 years, but the ASEAN region continues to be characterised by significant development gaps, particularly in income. Gaps in development achievement are also seen at the regional and

sub-national levels. This book offers a better understanding of these gaps, as they exist in 2012, and provides an important context that can inform the strategic needs of decision makers in the ASEAN region. Due to improvements in measuring poverty and well-being, including through the use of multidimensional indicators, this book gives policy makers and scholars in development economics, development policy and Asian studies well-grounded insights into the nature of the development gaps within and between ASEAN countries as well as high-level policy advice on those interventions that can contribute to a narrowing of the development gap.

### **Internationalisation in Vietnamese Higher Education** - Ly Thi Tran 2018-06-08

This book focuses on models, strengths, opportunities, constraints and tensions in internationalisation in Vietnamese higher education. It reflects on key concepts from contemporary theories and models of

internationalisation and discusses the implications for innovation, flexibility and responsiveness to local needs in Vietnam. Based on empirical research, theoretical knowledge and the experiences of researchers from Vietnam and overseas, the book draws out the distinctiveness and complexity of internationalisation practices and charts a way forward. It examines the key drivers and dimensions of internationalising Vietnamese higher education, and compares internationalisation in Vietnam to that in other countries. It clarifies and discusses tensions related to the appropriation of 'Western' internationalisation practice and models, and neo-liberal ideologies, to the local context of Vietnam. It provides readers with insights into government policy, quality assurance and benchmarking strategies, curriculum, the impact of international organisations on higher education, international student mobility, transnational education, employability, brain

drain and brain gain and brain circulation.

### **Conservation and Development in Cambodia**

- Sarah Milne 2015-02-11

Written by leading authorities from Australasia, Europe and North America, this book examines the dynamic conflicts and synergies between nature conservation and human development in contemporary Cambodia. After suffering conflict and stagnation in the late twentieth century, Cambodia has experienced an economic transformation in the last decade, with growth averaging almost ten per cent per year, partly through investment from China. However this rush for development has been coupled with tremendous social and environmental change which, although positive in some aspects, has led to rising inequality and profound shifts in the condition, ownership and management of natural resources. High deforestation rates, declining fish stocks, biodiversity loss, and alienation of indigenous and rural people from their land and traditional livelihoods are now

matters of increasing local and international concern. The book explores the social and political dimensions of these environmental changes in Cambodia, and of efforts to intervene in and 'improve' current trajectories for conservation and development. It provides a compelling analysis of the connections between nature, state and society, pointing to the key role of grassroots and non-state actors in shaping Cambodia's frontiers of change. These insights will be of great interest to scholars of Southeast Asia and environment-development issues in general.

*The Korean Wave* - Tae-Jin Yoon 2017-10-05

Since the Korean Wave phenomenon started in 1997, Hallyu has undergone many changes. Geographically, while Asia has been the largest cultural market for the Korean cultural industries, other parts of society, including North America, Europe, the Middle East, and Latin America have gradually admitted Korean popular culture. The components of the Korean

Wave have also greatly expanded. Hallyu originally implied the exports of a few cultural products, such as television dramas, popular music, and films; however, Korea has recently developed and exported K-pop, digital games and smartphone technologies as well as relevant youth culture. Meanwhile, industrial and technological contexts of the Korean Wave have changed significantly during the last 20 years. The role of social media in the Korean Wave's transnationalization in recent years is especially intriguing because fans around the world can easily access social media to enjoy K-pop, digital games, and films. The changes in the nature and appearance of the Korean Wave, conceptual and theoretical shifts in the studies of the Korean Wave, and the influences of the development of media technologies on the Korean Wave are all very significant. This book aims to provide a better understanding of Hallyu's theoretical and institutional history on one hand, and new features of the Korean Wave on the other hand.

The Penguin History of Modern Vietnam - Christopher Goscha 2016-06-30  
WINNER OF THE AMERICAN HISTORICAL ASSOCIATION'S JOHN K. FAIRBANK PRIZE  
SHORTLISTED FOR THE CUNDHILL HISTORY PRIZE 2017 'This is the finest single-volume history of Vietnam in English. It challenges myths, and raises questions about the socialist republic's political future' Guardian 'Powerful and compelling. Vietnam will be of growing importance in the twenty-first-century world, particularly as China and the US rethink their roles in Asia. Christopher Goscha's book is a brilliant account of that country's history.' - Rana Mitter 'A vigorous, eye-opening account of a country of great importance to the world, past and future' - Kirkus Reviews Over the centuries the Vietnamese have been both colonizers themselves and the victims of colonization by others. Their country expanded, shrunk, split and sometimes disappeared, often under circumstances far beyond their control. Despite

these often overwhelming pressures, Vietnam has survived as one of Asia's most striking and complex cultures. As more and more visitors come to this extraordinary country, there has been for some years a need for a major history - a book which allows the outsider to understand the many layers left by earlier emperors, rebels, priests and colonizers. Christopher Goscha's new work amply fills this role. Drawing on a lifetime of thinking about Indo-China, he has created a narrative which is consistently seen from 'inside' Vietnam but never loses sight of the connections to the 'outside'. As wave after wave of invaders - whether Chinese, French, Japanese or American - have been ultimately expelled, we see the terrible cost to the Vietnamese themselves. Vietnam's role in one of the Cold War's longest conflicts has meant that its past has been endlessly abused for propaganda purposes and it is perhaps only now that the events which created the modern state can be seen from a truly historical perspective.

Christopher Goscha draws on the latest research and discoveries in Vietnamese, French and English. His book is a major achievement, describing both the grand narrative of Vietnam's story but also the byways, curiosities, differences, cultures and peoples that have done so much over the centuries to define the many versions of Vietnam.

[The Making of Southeast Asia](#) - Amitav Acharya  
2013-02-15

Developing a framework to study "what makes a region," Amitav Acharya investigates the origins and evolution of Southeast Asian regionalism and international relations. He views the Association of Southeast Asian Nations (ASEAN) "from the bottom up" as not only a U.S.-inspired ally in the Cold War struggle against communism but also an organization that reflects indigenous traditions. Although Acharya deploys the notion of "imagined community" to examine the changes, especially since the Cold War, in the significance of ASEAN dealings for a

regional identity, he insists that "imagination" is itself not a neutral but rather a culturally variable concept. The regional imagination in Southeast Asia imagines a community of nations different from NAFTA or NATO, the OAU, or the European Union. In this new edition of a book first published as *The Quest for Identity* in 2000, Acharya updates developments in the region through the first decade of the new century: the aftermath of the financial crisis of 1997, security affairs after September 2001, the long-term impact of the 2004 tsunami, and the substantial changes wrought by the rise of China as a regional and global actor. Acharya argues in this important book for the crucial importance of regionalism in a different part of the world.

Secrets and Lies in Vietnam - Panagiotis Dimitrakis 2016-05-20

The Vietnam War lasted twenty years, and was the USA's greatest military failure. An attempt to stem the spread of Soviet and Chinese influence, the conflict in practice created a chaotic state torn apart by espionage, terrorism and guerilla warfare. American troops quickly became embroiled in jungle warfare and knowledge of the other side's troop movements, communication lines, fighting techniques and strategy became crucial. Panagiotis Dimitrakis uncovers this battle for intelligence and tells the story of the Vietnam War through the newly available British, American and French sources - including declassified material. In doing so he dissects the limitations of the CIA, the NSA, the MI6 and the French intelligence- the SDECE- in gathering actionable intelligence. Dimitrakis also shows how the Vietminh under Ho Chi Minh

established their own secret services; how their high grade moles infiltrated the US and French military echelons and the government of South Vietnam, and how Hanoi's intelligence apparatus eventually suffered seriously from 'spies amongst us' paranoia. In doing so he enhances our understanding of the war that came to define its era.

**Dictionary of the Modern Politics of  
Southeast Asia** - Joseph Liow 2014-11-20

The past two decades since the end of the Cold War have been years of remarkable change and transformation for Southeast Asia. Long seen as an arena for superpower rivalry, Southeast Asia is increasingly coming into its own by locating itself at the forefront of regional integration initiatives that involve not only the Association of Southeast Asian Nations, but major external powers such as the United States, China, India, Japan, and Australia as well. At the same time, the past two decades has seen the revival of old animosities as well as the emergence of new security challenges confronting the region. Old animosities include unresolved territorial disputes, while new challenges range from regional and global financial crises, terrorism,

and pandemics. Significant changes within the ten Southeast Asian countries covered in this book have also transpired that have affected not only the complexion of domestic politics, but have also impacted regional diplomacy as well, such as the creation of potentially the eleventh "Southeast Asian" country - Timor Leste.

Extensively updated and revised in light of these changes and developments, this fourth edition of Dictionary of the Modern Politics of Southeast Asia contains profiles of each Southeast Asian country. Following this, it provides more than 450 alphabetically arranged individual entries providing detailed accounts and analyses on major episodes and treaties, political parties and institutions, civil society movements, and regional and international organizations. Biographies of significant political leaders and personalities, both past and present, are also provided. Entries are comprehensively cross-referenced, and an index by country directs readers to all entries concerning a particular

country. The Dictionary also includes an extensive bibliography that serves as a guide to further reading. It is an essential reference tool for all scholars and students of Asian politics and international affairs, and a vital resource for journalists, diplomats, policy-makers, and others with an interest in the region.

**Working on Earth** - Christina Robertson  
2015-02-25

This collection of essays examines the relationship between environmental injustice and the exploitation of working-class people. Twelve scholars from the fields of environmental humanities and the humanistic social sciences explore connections between the current and unprecedented rise of environmental degradation, economic inequality, and widespread social injustice in the United States and Canada. The authors challenge prevailing cultural narratives that separate ecological and human health from the impacts of modern industrial capitalism. Essay themes range from

how human survival is linked to nature to how the use and abuse of nature benefit the wealthy elite at the expense of working-class people and the working poor as well as how climate change will affect cultures deeply rooted in the land. Ultimately, *Working on Earth* calls for a working-class ecology as an integral part of achieving just and sustainable human development.

*Identity Politics Inside Out* - Lisel Hintz

2018-08-28

The trajectory of Turkey's Justice and Development Party (AKP) rule offers an ideal empirical window into puzzling shifts in Turkey's domestic politics and foreign policy. The policy transformations under its leader Recep Tayyip Erdogan do not align with existing explanations based on security, economics, institutions, or identity. In *Identity Politics Inside Out*, Lisel Hintz teases out the complex link between identity politics and foreign policy using an in-depth study of Turkey. Rather than treating

national identity as cause or consequence of a state's foreign policy, she repositions foreign policy as an arena in which contestation among competing proposals for national identity takes place. Drawing from a broad array of sources in popular culture, social media, interviews, surveys, and archives, she identifies competing visions of Turkish identity and theorizes when and how internal identity politics becomes externalized. Hintz examines the establishment of Republican Nationalism in the wake of imperial collapse and examines failed attempts made by those challenging its Western-oriented, anti-ethnic, secularist values with alternative understandings of Turkishness. She further demonstrates how the Ottoman Islamist AKP used the European Union accession process to weaken Republican Nationalist obstacles in Turkey, thereby opening up space for Islam in the domestic sphere and a foreign policy targeted at achieving leadership in the Middle East. By showing how the "inside out" spillover

of national identity debates can reshape foreign policy, *Identity Politics Inside Out* fills a major gap in existing scholarship by closing the identity-foreign policy circle.

### **Akten zur Auswärtigen Politik der Bundesrepublik Deutschland 1965 -**

Mechthild Lindemann 2013-11-19

Herausgegeben im Auftrag des Auswärtigen Amtes vom Institut für Zeitgeschichte.  
Hauptherausgeber: Hans-Peter Schwarz, Mitherausgeber: Helga Haftendorn, Klaus Hildebrand, Werner Link, Horst Möller und Rudolf Morsey. Wissenschaftlicher Leiter: Rainer Blasius. Am 7. März 1965 fasste Bundeskanzler Erhard den Entschluss, Israel die Aufnahme diplomatischer Beziehungen anzubieten und die Wirtschaftshilfe an Ägypten einzustellen. Aus erstmals zugänglichen Geheimdokumenten erschließt sich in den vorliegenden drei Bänden der „Akten zur Auswärtigen Politik der Bundesrepublik Deutschland“ ein fesselndes Bild jener Ereignisse, die in der Vereinbarung vom 12. Mai über den Austausch von Botschaftern zwischen der Bundesrepublik und Israel und dem daraufhin erfolgten Abbruch diplomatischer Beziehungen zu Bonn durch die Mehrzahl der arabischen Staaten gipfelten. Die Bundesrepublik geriet 1965 auch in Afrika in die

Defensive: Die Errichtung eines Generalkonsulats der DDR in Tansania zeigte, wie brüchig die „Hallstein-Doktrin“ wurde. Die Bundesregierung konnte zudem nicht verhindern, dass das Projekt einer NATO-Atomstreitmacht, das ihr eine Mitsprache bei der nuklearen Verteidigung Europas sichern

sollte, in den Hintergrund gedrängt wurde. Zudem distanzierte sich Frankreich zunehmend von der NATO-Militärorganisation. Damit warf eine weitere Krise ihre Schatten voraus, die das westliche Bündnis in den folgenden Jahren belasten sollte.
