[Atlas of a Lost World](#) - Craig Childs 2018-05-01  
From the author of *Apocalyptic Planet* comes a vivid travelogue through prehistory, that traces the arrival of the first people in North America at least twenty thousand years ago and the artifacts that tell of their lives and fates. In *Atlas of a Lost World*, Craig Childs upends our notions

of where these people came from and who they were. How they got here, persevered, and ultimately thrived is a story that resonates from the Pleistocene to our modern era. The lower sea levels of the Ice Age exposed a vast land bridge between Asia and North America, but the land bridge was not the only way across. Different people arrived from different directions, and not all at the same time. The first explorers of the New World were few, their encampments fleeting. The continent they reached had no people but was inhabited by megafauna—mastodons, giant bears, mammoths, saber-toothed cats, five-hundred-pound panthers, enormous bison, and sloths that stood one story tall. The first people were hunters—Paleolithic spear points are still encrusted with the proteins of their prey—but they were wildly outnumbered and many would themselves have been prey to the much larger animals. *Atlas of a Lost World* chronicles the last millennia of the Ice Age, the violent oscillations and retreat of glaciers, the clues and traces that document the first encounters of early humans, and the animals whose presence governed the humans' chances for survival. A blend of science and personal narrative reveals how much has changed since the time of mammoth hunters, and how little. Across unexplored landscapes yet to be peopled, readers will see the Ice Age, and their own age, in a whole new light.

**Atlantis and Other Lost Worlds** - Frank Joseph 2021-07-01

In a single day and night of misfortune, the island of Atlantis disappeared into the depths of the sea - Plato, 360 B.C. Ever since Plato first pondered the existence of Atlantis, the truth behind this infamous sunken city has captured the world. Atlantis and Other Lost Worlds is the most up-to-date and comprehensive investigation of this ancient island, written by the foremost authority on the subject Frank Joseph. Nowhere else will you find a more dramatic and convincing presentation of the evidence for its archaeological reality. The book uncovers the scientific genius of the ancients and the spiritual power of their mysterious religion. They are revealed as the inventors of a crystal technology to surpass our own, and the master builders of pyramidal monuments around the world. The cultural heritage of Atlantis in the civilizations of pharaonic Egypt, Bronze Age Europe, Maya Mexico and Inca Peru is clearly described. The doomed capital comes alive in a vivid recreation of its heyday of cultural splendor and imperial might. Inside these pages you will find the answers to many intriguing questions, including:

- What is the most likely location of Atlantis?
- How and when was Atlantis destroyed?
- Has Japan's leading geologist found the sunken 'citadel' of Lemuria?
- Have Russian oceanographers found the ruins of Atlantis?
- What are the disturbing parallels between Atlantis and our time?

Atlantis and Other Lost Worlds opens a new window on the ancient past, offering views of Atlantis and its kindred civilizations never seen before.

Scott-Elliot) The lost world is a subgenre of the fantasy or science fiction genre that involves the discovery of a new world out of time or place. King Solomon's Mines by H. Rider Haggard is sometimes considered the first lost-world narrative. Haggard's novel shaped the form and influenced later lost-world books, including Kipling's The Man Who Would Be King, Arthur Conan Doyle's The Lost World, Burroughs' The Land That Time Forgot, A. Merritt's The Moon Pool, and H. P. Lovecraft's At the Mountains of Madness. James Hilton's Lost Horizon used the genre as a takeoff for popular philosophy and social comment and it introduced the name Shangri-La, a meme for the idealization of the lost world as a paradise.

**The Lost World of the Flood** - John H. Walton 2018-04-03

The Genesis flood account has been probed and analyzed for centuries. But what might the biblical author have been saying to his ancient audience? In order to rediscover the biblical flood, we must set aside our own cultural and interpretive assumptions and visit the distant world of the ancient Near East. Walton and Longman lead us on this enlightening journey toward a more responsible reading of a timeless biblical narrative.

### Environmental Justice in the Anthropocene - Stacia Ryder 2021-06-10

Through various international case studies presented by both practitioners and scholars, *Environmental Justice in the Anthropocene* explores how an environmental justice approach is necessary for reflections on inequality in the Anthropocene and for forging societal transitions toward a more just and sustainable future. Environmental justice is a central component of sustainability politics during the Anthropocene - the current geological age in which human activity is the dominant influence on climate and the environment. Every aspect of sustainability politics requires a close analysis of equity implications, including problematizing the

notion that humans as a collective are equally responsible for ushering in this new epoch. Environmental justice provides us with the tools to critically investigate the drivers and characteristics of this era and the debates over the inequitable outcomes of the Anthropocene for historically marginalized peoples. The contributors to this volume focus on a critical approach to power and issues of environmental injustice across time, space, and context, drawing from twelve national contexts: Austria, Bangladesh, Chile, China, India, Nicaragua, Hungary, Mexico, Brazil, Sweden, Tanzania, and the United States. Beyond highlighting injustices, the volume highlights forward-facing efforts at building just transitions, with a goal of identifying practical steps to connect theory and movement and envision an environmentally and ecologically just future. This interdisciplinary work will be of great interest to students, scholars, and practitioners focused on conservation, environmental politics and governance, environmental and earth sciences, environmental sociology, environment and planning, environmental justice, and global sustainability and governance. It will also be of interest to social and environmental justice advocates and activists.

**Atlas of Vanishing Places** - Travis Elborough 2019-09-17

Maps offer us a chance to see not just how our world looks today, but how it once looked. But what about the places that are no longer mapped? Cities forgotten under the dust of newly settled land? Rivers and seas whose changing shape has shifted the landscape around them? Or, even, places that have seemingly vanished, without a trace? Travis Elborough takes you on a voyage to all corners of the world in search of the lost, disappearing and vanished. Specially commissioned cartography showing each place as it once was and how it is today and archive photography bring these incredible stories to life.

**The Lost World of Russia's Jews** - Abraham Rechtman 2021-06-01

In 1913, Abraham Rechtman journeyed through

the Russian Pale of Settlement on a mission to record its Jewish folk traditions before they disappeared forever. *The Lost World of Russia's Jews* is the first English translation of his extraordinary experiences, originally published in Yiddish, documenting a culture best known until now through romanticized works like *Life Is with People* and *Fiddler on the Roof*. In the last years of the Russian Empire, Abraham Rechtman joined S. An-sky's Jewish Ethnographic Expedition to explore and document daily life in the centuries old Jewish communities of the Pale of Settlement. Rechtman described the key places where Jewish life and death were experienced and connected these sites to local folklore and customary practices. Among the many unique contributions of his memoir are riveting descriptions of traditional Jewish healers and exorcists—many of them women—and their methods and incantations. Rather than a nostalgic portrait of an imagined shtetl, Rechtman succeeded in producing an intimate account of Jewish life and death that is highly nuanced and richly detailed. *The Lost World of Russia's Jews* powerfully illuminates traditional Jewish life in Eastern Europe on the eve of its transformation and, ultimately, destruction.

*The Atlas of Abandoned Places* - Oliver Smith  
2022-10-06

The globe is littered with forgotten monuments, their beauty matched only by the secrets of their past. A glorious palace lies abandoned by a fallen dictator. A grand monument to communism sits forgotten atop a mountain. Two never-launched space shuttles slowly crumble, left to rot in the middle of the desert. Explore these and many more of the world's lost wonders in this atlas like no other. With remarkable stories, bespoke maps and stunning photography of fifty forsaken sites, *The Atlas of Abandoned Places* travels the world beneath the surface; the sites with stories to tell, the ones you won't find in any guidebook. Award-winning travel writer Oliver Smith is your guide on a long-lost path, shining a light on the places that the world forgot. Over 9,000 feet up on the top of Mount Roraima is a twenty-five mile square plateau, at the point where Guyana's border meets Venezuela and Brazil. In 1973, Scottish mountaineering legend Hamish MacInnes alongside climbing notoriety Don Whillans, Mo Anthoine and Joe Brown trekked through dense rainforest and swamp, and climbed the sheer overhanging sandstone wall of the great prow in order to conquer this Conan Doyle fantasy summit. As one of the last unexplored corners of the world, in order to reach the foot of the prow the motley yet vastly experienced expedition trudged through a saturated world of bizarre vegetation, fantastically contorted slime-coated trees and deep white mud; a world dominated by bushmaster snakes, scorpions and giant bird-eating spiders. This wasn't the end of it, however. The stately prow itself posed extreme

technical complications: the rock was streaming with water, and the few-and-far-between ledges were teeming with scorpion-haunted bromeliads. This was not a challenge to be taken lightly. However, if anyone was going to do it, it was going to be this group of UK climbing pioneers, backed by The Observer, supported by the Guyanan Government, and accompanied by a BBC camera team, their mission was very much in the public eye. Climb to the Lost World is a story of discovering an alien world of tortured rock formations, sunken gardens and magnificent waterfalls, combined with the trials and tribulations of day-to-day expedition life. MacInnes' dry humour and perceptive observations of his companions, flora and fauna relay the story of this first ascent with passion and in true explorer style.

 formatted for your eReader with a functional and  
 detailed table of contents: The Original Myth of  
 Atlantis (Plato) Timaeus Critias New Atlantis  
 (Francis Bacon) Atlantis: The Antedeluvian  
 World (Ignatius Donnelly) The Lost Continent (C.  
 J. Cutcliffe Hyne) The Story of Atlantis (William  
 Scott-Elliot) Atlantis ("island of Atlas") is a  
 mystical island mentioned within an allegory on  
 the hubris of nations in Plato's works Timaeus  
 and Critias, where it represents the antagonist  
 naval power that besieges "Ancient Athens".  
 Plato's indications of the time of the  
 events—more than 9,000 years before his day,  
 and the alleged location of Atlantis—"beyond the  
 Pillars of Hercules", has led to much scientific  
 speculation. As a consequence, Atlantis has  
 become a byword for any and all supposed  
 advanced prehistoric lost civilizations. At the  
 end of the story, Atlantis eventually falls out of  
 favor with the gods and famously submerges into

the Atlantic Ocean. Despite its secondary  
 importance in Plato's work, the Atlantis story  
 has had a considerable impact on literature. The  
 allegorical aspect of Atlantis was taken up in  
 utopian works of several Renaissance writers,  
 such as Francis Bacon's New Atlantis. On the  
 other hand, 19th-century scholars interpreted  
 Plato's account as historical tradition, most  
 notably in Ignatius L. Donnelly's Atlantis: The  
 Antediluvian World. Many of his theories are the  
 source of many modern-day concepts about  
 Atlantis, including these: the civilization and  
 technology beyond its time, the origins of all  
 present races and civilizations, and a civil war  
 between good and evil. Much of Donnelly's  
 scholarship, especially with regard to Atlantis as  
 an explanation for similarities between ancient  
 civilizations of the Old and New Worlds.

 a world of magic and wonder with evil lurking in  
 the shadows. While these heroines prepare to  
 fight, there are two on the side of evil who will  
 stop at nothing to tip the scales in their favor. In  
 battle there are wins and losses but what will  
 the girls have to sacrifice to see victory

**Image of God** - Jeff Crawford 2008-10

God is up to something. And that "something" is  
 you. The Bible declares that you have been made  
 in the Image of God. But what exactly does that  
 mean? Join Jeff Crawford on a journey of  
 discovery. Most people don't "feel" like they are  
 the Image of God or even know what the phrase  
 means. That's because, as Crawford explains,  
 something has gone horribly wrong. Presented  
 as an unfolding drama, Image of God, will touch  
 you at your core as you discover not only who  
 you really are, but more importantly, who you  
 can become! "This is a very serious book about a  
 serious topic...you. And if you...truly want to  
 learn about who you are, why you are here, and  
 where you are going, then this book is not only  
 about you, but for you." -- Jeff Crawford, excerpt

from Image of God Jeff Crawford, Ed.D., is a pastor, educator and author. He makes his home in the River Valley of Arkansas with his wife, Julie, and their three children.

**Atlas of Improbable Places** - Travis Elborough  
2016-09-01

Inspiring urban explorers and armchair travellers alike to consider a new way of understanding the world we live in, this unique atlas shows you the modern world from surprising new vantage points. Hidden lairs beneath layers of rock, forgotten cities rising out of deserted lands and even mankind's own feats of engineering eccentricity lie in the most unusual of destinations. Go in search of the obscure and bizarre, the beautiful and estranged, taking in the defiant relics of ancient cities such as Ani, a once thriving metropolis lost to conquered lands, and the church tower of San Juan Parangaricutto, that miraculously stands as the sole survivor of a town sunk by lava.

Through the labyrinths of Berlin and Beijing — underground realms dug for refuge, espionage and even, as Canada's Moose Jaw, used as the playground for gangsters trading liquor and money over cards — never forgetting the freaks and wonders of nature's own unusual masterpieces: the magical underground river shaped like a dragon's mouth in the Philippines and the floating world of Palmerston. With beautiful maps and stunning photography illustrating each destination, Atlas of Improbable Places is a fascinating voyage to the world's most incredible destinations. As the Island of Dolls and the hauntingly titled Door to Hell — an inextinguishable fire pit - attest, mystery is never far away. The truths and myths behind their creation are as varied as the destinations themselves. Standing as symbols of worship, testaments to kingships or even the strange and wonderful traditions of old and new, these curious places are not just extraordinary sights but reflections on man's own relationship with the world around us. Also in the Unexpected Atlas series: Atlas of Untamed Places, Atlas of the Unexpected, Atlas of Vanishing Places.

**Atlas of Lost Cities** - Aude de Tocqueville  
2016-04-05

Like humans, cities are mortal. They are born, they thrive, and they eventually die. In Atlas of Lost Cities, Aude de Tocqueville tells the compelling narrative of the rise and fall of such notable places as Pompeii, Teotihuacán, and Angkor. She also details the less well known places, including Centralia, an abandoned Pennsylvania town consumed by unquenchable

underground fire; Nova Citas de Kilamba in Angola, where housing, schools, and stores were built for 500,000 people who never came; and

Epecuen, a tourist town in Argentina that was swallowed up by water. Beautiful, original artwork shows the location of the lost cities and depicts how they looked when they thrived.
