The entry into the RC ship modelling -

Gerhard O.W. Fischer

Gerhard O. W. Fischer will show you how to get to your desired model of your choice. On the basis of modular models, he teaches you working methods which are always repeated for other models. In this way, what you have learned can also be transferred to other models. The author has selected 18 kit models, which have been in the program of the modeling companies for a long time and will continue to be available. will continue to be available. The selection of ship types is broad. Besides an old harbor tug and a

modern sea tug, there are also working ships, a cruise ship, small and large motor yachts, high-speed speed racing boats with jet propulsion, and a submarine. From the content: General building instructions, starting with the boat stand to the hull and the RC system Construction kit models: Harbour tug Kalle - Tug Torben - Harbour master boat Kormoran Racing catamaran Powerkat - Sea Jet Evolution Motor yacht Lisa M. - Motor yacht Najade Racing boat Miami - Jet racing boat Seewind - Fishery protection boat Seefalke Nearly finished models: River patrol boat Buzzard - Sport boat Lugano racing boat Wave Explorer - motor yacht San Diego ... as well as some other bigger models for inspiration
