Probable Cause for Vengeance - David Wolf 2016-11-09

Deputy U.S. Marshal Sam Carter has been a committed lawman for over thirty years. A decorated Vietnam veteran, he was highly regarded as a patriot and a man of indisputable principles. And now, a tragic event has caused him to question his own moral convictions. The year is 2003. A fanatical Sunni terrorist has entered the country undetected. With the collaboration of three jihadi radicals hell-bent on martyrdom, he successfully plans and executes a series of devastating explosions that mercilessly kill numerous civilians, government officials, and military personnel. Prior to the bombings, the ruthless terrorist viciously and sordidly murdered a former team member of the U.S. Marshals Fugitive Task Force, who was also Sam's close friend and protégé, a young man he thought of like a son. Enraged by the cold brutality of the killing, Sam cannot shake the overwhelming desire for vengeance now taunting his soul. From results of a preliminary investigation, which included eyewitness testimony and crucial evidence extracted from an organized crime boss, the insurgent bomber was eventually identified and disclosed he had fled the US by way of Mexico in an attempt to escape back to his homeland. Invoking the Patriot Act as its authority, the United States District Court in St. Louis, Missouri, issued a fugitive from justice warrant and ordered the U.S. Marshals Service to track down and apprehend the fleeing jihadi extremist. The arduous responsibility fell to Deputy U.S. Marshal Carter and three handpicked fugitive task force members. The dilemma confronting the fearless lawman was not the mission to hunt down the evil madman but rather the burden of

bringing him before the court to face justice—alive. Fate would ultimately decide the final outcome.

The Guidebook To Securing High Profile Internships - Dalvin Josias Sejour 2019-09-16

There are thousands of books out there that talk about how to climb the corporate ladder and hundreds more that talk about ways to make it to the top. However, there are little to none that talk about the ins and outs of starting a career such as navigating uncertainty, securing internships, networking, battling with imposter syndrome, pivoting careers entirely and many other gems that get lost in exaggerated stories on people far removed from you. This book is not fiction or click-bait. It is a real story about my life and how I got started off in my career, while literally starting from scratch with no industry connections. By making a plan, taking a few leaps of faith, trying something new, and being my authentic self, I was able to go from stocking shelves at a local grocery store to securing 7 internships in my field both in the US and abroad doing what I love the most. As CEO of Dalvin Digital Design and a full-time Software Engineer, I, Dalvin Sejour will go through a step-by-step guide to replicate my early career success through my riveting, real and informational narrative. After graduating from high school, it seems like the world has an unrealistic expectation that you need to have everything figured out by the time you throw your cap in the air at graduation. Whether you are deciding to go to college, went straight into the workforce, graduated, or have started work and looking to pivot careers this easy-to-follow guide through my lenses has something to offer you.

INTERVIEW GUIDE FOR CIVIL SERVICES EXAMINATION - Team ARSU 2018-11-12

Covers in detail contents on 1. The importance of Interview in Civil Services Examination 2. Track your position before Interview 3. How to decode your Detailed Application Form (DAF) 4. Facing the interview 5. Cadre Allocation Policy for IAS, IPS and IFoS (Indian Forest Services) 6. Service Profiles to help you in making the choice for service preference (Services like IAS, IFS, IPS, IRS etc. are important from the interview perspective). 7. Questions for Interview (Based on your DAF details with special focus on hobbies, sports and achievements)

Industrial Automation - Joshi Vikalp 2019-09-20

Explores the components of automationKey features The book provides basic concepts of industrial automation It is beneficial for engineering students having interest in the field of automation The unique feature of this book is the inclusion of multiple-choice questions to help prepare students for competitive exams and interviews It covers the roles of SCADA and PLC in automation Description Automation is a process to perform controlled activities with minimal human assistance. A lot of research is being carried out in this field. Students are also opting for research and studies in automation. The objective of this book is to explain the role of industrial automation. This book will help engineering students to understand the basic

concepts of industrial automation. The unique feature of this book is the inclusion of multiple-choice questions to help prepare students for competitive exams and interviews. Automation has grown into a vast field and this book will be helpful to understand it comprehensively. What will you learn SCADA and its application in Industrial Automation Supervisory and Control Functions SCADA Communication Network Human Machine Interface SCADA in EMS Programmable Logic Controller Automation Software Field Instrumentation Device Utility Information System Who this book is for Engineering students having research interests in the field of automation. Table of contents

1. SCADA in Industrial Automation
2. Supervisory and Control Functions
3. SCADA Communication Network
4. Human Machine Interface
5. SCADA in EMS
6. Programmable Logic Controller
7. Applications of SCADA
8. Automation Software
9. Field Instrumentation Device
10. Utility Information System

About the author Mr. Vikalp Joshi holds a B.Tech (Instrumentation) degree from University Science Instrumentation Center, H.N.B.G.U, Srinagar (Garhwal), and M.Tech (Instrumentation and Control) from Graphic Era University, Dehradun. Currently, he is working as an automation engineer and has published many research papers on national and international journals. His area of interest covers Industrial Automation, Industrial instrumentation, and Process Control Instrumentation. Dr. Manoj Singh Adhikari received his B.Tech. degree in Electronics and Communication Engineering from Dev Bhoomi Institute of Technology, Dehradun, India, in 2010 and M.Tech. degree in Digital Signal Processing Engineering from the G. B. Pant Institute of Engineering and Technology (formerly known as G. B. Pant Engineering College), Pauri Garhwal, India, in 2013. He received his Ph. D. in Jan. 2019 from the same institution. Currently, he is working as an Assistant Professor in Lovely Professional University, Phagwara, Punjab. His research interests are simulation and modeling of power semiconductor devices. Dr. Raju Patel is working as an Assistant Professor in Department of Electronics & Communications Engineering, MBM Engineering College, Jodhpur, Rajasthan,

India. He received his Ph.D. and M.Tech. (Specialization - VLSI Design) degrees from Malaviya National Institute of Technology, Jaipur, India, in 2014 and 2018 respectively. Bachelor of Engineering degree in Electronics & Communication Engineering from S.B.C.E.T., Jaipur, University of Rajasthan, 2007. He has a teaching and research experience for over eleven years. His research interests include design, simulation, fabrication, and characterization of Film Bulk Acoustic Resonator as a RF filter and gas sensing applications. Dr. Rajesh Singh is currently associated with Lovely Professional University as a Professor with more than fifteen years of experience in academics. He has been awarded as gold medalist in M.Tech and honors in his B.E. His area of expertise includes embedded systems, robotics, wireless sensor networks, and Internet of Things. He has organized and conducted a number of workshops, summer internships, and expert lectures for students as well as faculty. He has twenty three patents in his account. He has published around hundred research papers in referred journals/conferences. Dr. Anita Gehlot is currently associated with Lovely Professional University as an Associate Professor with more than ten years of experience in academics. She has twenty patents in her account. She has published more than fifty research papers in referred journals and conference. She has organized a number of workshops, summer internships, and expert lectures for students. She has been awarded with "e;certificate of appreciation"e; from University of Petroleum and Energy Studies for exemplary work. She has published fifteen books in the area of Embedded Systems and Internet of Things with reputed publishers.

General Knowledge & English NDA/CDS - Col Ajit Singh 2021-08-15

This book deals with the whole gamut of General Knowledge and English that an aspirant requires to prepare for NDA, CDS and any other Graduate and above level exam held by UPSC. As it contains detailed notes on Indian History, Geography and Indian Polity followed by MCQs that have appeared in various competitive exams it would prove to be very useful for other competitive exams as well. Besides notes on each topic, it has over 7000 Multiple Choice Questions (MCQs).

The Shadow World - Andrew Feinstein 2011-11-03

A gripping and urgent investigation into the secretive world of the global arms trade - from a former member of the African National Congress Revealing the corruption and the cover-ups at the heart of ex-President Jacob Zuma's South Africa Andrew Feinstein delves behind BAE's controversial transactions in South Africa, Tanzania and eastern Europe and the revolving-door relationships that characterise the US Congressional-Military-Industrial Complex. The Shadow World exposes both the formal government-backed trade in arms as well as the illicit deals and lays bare the shocking links between the two. 'Essential reading for anyone who cares about justice, transparency and accountability in both the public and private

spheres, and for anyone who believes that it is more important to invest in saving lives than in the machinery of death' Archbishop Desmond Tutu 'Andrew Feinstein has written an authoritative guide to the business of war. Chilling, heartbreaking and enraging' Arundhati Roy 'The nobility and justice of Feinstein's sentiments are indisputable. The arms trade is a loathsome commerce conducted by people who wear suits and occupy big boardroom tables, but should have trouble sleeping at night' Max Hastings, Sunday Times 'Remarkable and courageous . . . The Shadow World is a heroic book by an author who, in writing it, has put himself in the firing line' Iain Macwhirter 'Feinstein's book is a singularly powerful study, and deserves to be read by anyone who wants to see light shining on such a shadowy world' Independent
